The Tissot Pictures.

Everybody knows or ought to know what the Tissot pictures are, as they have become the most famous works of art of this country. They represent the life of Christ, a subject which is of more general interest than any other, and they are the only pictures that have ever been painted which as nearly represent the actual scenes of the gospel as they can be reproduced. The great artist, Tissot, spent ten years in the Holy Land, making a study of the localities mentioned in the gospel narrative and of everything that would throw light upon it. Then he painted his series of pictures, which at once were pronounced a triumph of

PERFUME SOOTHED THE DOG.

Dainty Lace Handkerchief Acts as a Canine Concilator and Life Saver.

"Look at this handkerchief," said a young society man to his professional friend. "That bit of lace and ruffle is worth its weight in gold to me." Some connection with old associa-

tions-a mere sentiment, I suppose." suggested the professional man, relates the Memphis Scimetar.

"Nothing of the kind. From a practical standpoint it is just as valuable as I describe it to be. A sentiment enters into the case, however."

"Well, tell us about it."

"The handkerchief, then, is the token by which I am permitted to enter the house where my sweetheart lives. Without it I should be torn to pieces by a huge bulldog there. The beast is as ferocious as a tiger. During the day he is kept in chains, but after seven o'clock in the evening his mistress releases him in the yard. No stranger after that hour can enter the gate. The terrible animal was a menace to my suit until the lady hit upon the plan of giving me her handkerchief for use as a pass. Now, when the dog rushes toward me I have only to toss the dainty token to him; he smells it and walks peacefully back to his kennel. Do you blame me for valuing it so

New York's Divorce Mill. NEW YORK, Nov. 12 .- The more the authorities investigate the Malson-Zeimer divorce mill the more they are astounded at the boldness and extent of the frauds perpetrated. It was developed yester-day that the field of operation of the conspirators has not been confined to New York city. The police have evidence that they furnished false witnesses in divorce cases before the courts in Buffalo and Syracuse. The divorce mill was rapidly becoming in extent a state institution when discovery stopped it. It will also be brought out that it was in the plan of Maison and Zeimer to make coconspirators of those who were inveigled into their net. The district attorney's office is in possession of facts which show that from 40 to 50 divorces were secured by Malson and Zeimer on perjured testimony. Exports Increase.

WASHINGTON, Nov. 12. - The monthly statement of the exports of domestic products issued by the bureau of statistics shows that during October the total exports were \$105,260,689; net increase, \$29,398,994. For the last ten months the total was \$655,918,873, an increase as compared with the corre-sponding period in 1899 of \$82,055,000.

ably alarmed over the intentions of the Pure Food Department officials to enforce the law of 1897 relating to the making of vinegar.

Unless their vinegar contains a certain percentage of acidity and of vinegar solids upon full evaporation, the law orders the State to confiscate it, and the farmer can be fined or im prisoned or both. The farmers say that in order to comply with such a chemistry and that, sooner than take any risk, they will quit making vine-gar for sale. They say vinegar as usually made on the tarm is absolutely pure, having nothing in it but apple juice and water, yet such vinegar has occasionally not come up to the stand-
