## **CHINESE WILL YIELD**

Ready to Comply With All Demands of the Powers.

### MARTIAL PREPARATIONS SCARE THEN

### Prince Ching and Li Hung Chang Greatly Worried Over the Proposed Expedition-Urge Their Government to Give Up.

PEKING, Feb. 20.-Prince Ching and Li Hung Chang have received a telegram which virtually means that the Chinese will comply with all the demands of the powers, although they still desire information on a few minor points. The foreign envoys look forward confidently to absolute compliance by tomorrow at the latest.

Prince Ching and Li Hung Chang have been greatly worried by the prepara-tions for the expedition into the interior, and they have strongly urged the court to yield, pointing out that other-wise the dismemberment of the empire was probable.

General Chaffee signalized the Chinese New Year by calling upon Li Hung Chang, who seemed to be in much better health.

It is now asserted that the Germanwill turn the railroad over to the British at the end of the month.

Last Saturday was an uncomfortable one for Li Hung Chang and Prince Ching, the Chinese peace commissioners. Dr. Mumm von Schwartzenstein, the German minister, visited the Chinese en voys on that day and informed them that Count von Waldersee would be ready to start a great expedition for Singan-fu on Feb. 23 if the Chinese government did not comply with the demands of the ministers before that date.

The Chinese commissioners asked the minister how many men would compose the expedition. Dr. Mumm von Schwartzenstein refused to tell, but said there would be enough to get through to the Chinese capital.

The Chinese commissioners immediately dispatched an alarming message to the empress dowager, in which they inher that she must hurry and formed agree to the terms and that the Germans would surely start for Singan-fu if she did not settle by the date mentioned. Later in the day an attache of the British legation visited Li Hung Chang and Prince Ching and told them that the English were tired of waiting to hear from the Chinese government. Their troops were anxious and enthusias tic to join an expedition and would start next Saturday with the Germans. They would never rest until they got the en tire court in their hands, and once they had succeeded in doing this there was no telling what would happen.

This alarmed the Chinese commissioners still more, and they rushed a second telegram to the empress dowager, in which they urged the necessity for quick action on her part. A little later an attache of the Japanese legation visited Li Hung Chang's temple and told the Chinese envoys that the Japanese were un der Count von Waldersee's orders and would be compelled to join the expedi-tion next Saturday. The Japanese attache advised quick compliance with the demands of the ministers as the only way of preventing the dispatch of the expedition.

Thereupon the Chinese commissioners hustled off a third telegram to the empress downger. This time they told her that there were only two heads in ques tion-those of Chao Shu Chao and Ying Lien-while if the expedition should start thousands of her loyal subjects would be killed, and there would also be a termendous property loss. All these tele-

### WEST POINT REPORT. The Senate Rejects It as Being Too Drastic.

WASHINGTON, Feb. 20.-By the emphatic vote of 42 to 18 the senate late yesterday rejected the conference report on the Military scademy appropriation bill. This action came at the conclusion of a spirited debate upon the provisions against hazing inserted in the report by the conference committee of the two branches of congress. Discussion of the provision which was precipitated at the se of Monday's session by Mr. Daniel of Virginia occupied the greater part of yesterday's session, and the report of the conferees was rejected because it was regarded by a large majority of the senate as too drastic, and while no in structions could be given the conferees by the senate it was understood that to secure favorable action by the senate a modified provision as to the penalty for hazing would have to be presented and

agreed upon by the conferees, Early in the day Mr. Deboe of Kentucky delivered his announced speech upon the Nicaragua canal. He reviewed at length the proceedings which led up to the present situation and strongly advocated the construction of the waterway by the United States.

An effort was made to obtain consid-eration for the bill reviving the grade of vice admiral of the navy for the benefit of Rear Admirals Sampson and Schley, but it was unavailing.

The house spent the day upon the sun dry civil appropriation bill and reached the ninety-ninth page. There are 135 pages in the bill. The features of the day were the debates upon the question of national irrigation of arid lands in west, which came up incidentally and a local proposition to buy some additional ground for the government hospital for the insane which has been agitated here for several years. No ma terial amendments were placed upon the

### Funds For St. Louis Exposition.

WASHINGTON, Feb. 19.-The bill to authorize the holding of the international exposition in celebration of the centennial anniversary of the Louisiana purchase at St. Louis in 1903 and appropriating \$5,000,000 therefor passed the house yesterday under suspension of the rules by a vote of 191 to 41.

Nearly the whole of yesterday's session of the senate was devoted to consideration of the postoffice appropriation bill.

### TAX BILLS FAVORED.

### New York Senate Committee Rendy to Report.

ALBANY, Feb. 20.-The senate com mittee on taxation and retrenchment has decided to report favorably on those amended tax bills that will, if they be come law, net the state in the neighborhood of \$3,000,000 annually. ### Belgian Consul at Manila Implicated In the Carman Case-He Fled In Order to Avoid Arrest.

MANILA, Feb. 20,-General MacArthur's reception at Malacanan exceeded anything in the Spanish regime. The ralace was beautifully decorated and brilliantly illuminated. Thousands of persons attended from the army, navy,

official, consular, clerical, business and social circles, American and foreign. The Filipino population was well repre-General Barry was master of sented ceremonies.

General MacArthur and the ladies of the United States commission received the guests. The reception lasted till 11 There was dancing afterward. o'clock. The affair was thoroughly enjoyable, and the Filipinos were especially pleased at being accorded a privilege never before afforded them. Genetal MacArthur's tact and courtesy were greatly apprecinted.

The Women's Peace league met at Judge Taft's house yesterday and passed resolutions to the effect that they in tended to unite the Americans and Filipinos in the efforts to promote loyalty and hasten peace.

M. Andre, the Belgian consul at Manila, left here yesterday for Brussels, M. Haeltman, his associate in business, has been arrested by the police on a charge of having violated a parole issued by General Bates. He is also implicat-ed in the case of D. M. Carman, who is said to have furnished the rebels with supplies. It is reported that the consul fled in order to escape being involved in the matter. He said that he was going to Europe on business.

Correspondence now in the hands of private individuals dated last year confirms the previous belief that a number of persons were involved with Carman in his dealings with the insurgents. The transport Resecrans, which sailed

for Guam with a number of deported rebels some time ago, has returned here. She reports that she arrived at Guam on Jan. 24 with 32 prisoners, and the So-lace arrived on Jan. 31 with 11 prisoners, After quarters had been prepared for these prisoners and six months' supplies provided they were all landed on Feb. 12. The officers of the Rosecrans report that the Guam islanders express great satisfaction at the American methods of administration.

Over 500 residents of San Pablo, in the province of Laguna, under the lead of the local officers, have taken the preliminary steps toward the formation of a branch of the Federal party.

### Frenk of Nature.

NEW YORK, Feb. 18.-Miss Ellen Leek, 65 years of age, died at Babylon. Y., yesterday of old age. Her case had attracted much attention in medical circles. She never heard a sound, never spoke a word, never walked a step, and the doctors believe she hardly knew any sensation of pain or pleasure. The doctors do not think she ever realized anything. The heart and other organs of the trunk always seemed normal, but there appeared to be a total absence of brain activity beyond what was absolutely es-sential to life. She was never able to feed herself and throughout her life had to be fed like an infant. The nearest approach to anything normal she is said to have ever attained was that when a child she learned to creep and for years moved about as does an ordinary infant

THE VANCOUVER DISASTER. FILIPINOS. No Hope For Entombed Miners-Sixty-one Lives Lost.

VANCOUVER, B. C., Feb. 18.-Additional details continue to come from the Union mines on Vancouver island, where the terrible fatality occurred Friday forenoon. The accident has thrown the towns of Cumberland and Nanaimo into a state of gloom. The Canadian Pacific Railcompany's steamer Tartar arrived at Vancouver yesterday afternoon from the coaling station at Union, 12 miles from Cumberland. She brought two passengers, H. R. Raymond and George Bennett, both conl miners. Neither had any theory as to the cause of the explo-sion in No. 6 shaft, in which the accident occurred. They say the cause is not known and that it will never be known.

When the Tartar left Union at 7 o'clock yesterday morning, the late news from No. 6 shaft was that the flooding process was still being continued. The fire was still burning, although not so fiercely as during the preceding 36 hours. The tremendous volume of water pouring into the mines from the continuous supply furnished, by an eight inch main was gradually performing the desired serv-ice, and by today it is confidently expected the fire will be extinguished. It will be several days, Raymond says, be-fore the bodies of the 61 entombed miners can be recovered, because after the fire has been put out it will be necessary to pump the water out of the mine b fore a rescuing party can hope to get at the corpses now lying at the bottom of the change of system adopted by the shaft.

### KIDNAPER CAUGHT.

#### Young Cudaby Identifies Man Under Arrest us One of His Captors.

OMAHA, Feb 20,-The police have under arrest James Callahan, charged with complicity in the abduction of Edward Cudnhy, Jr., on the night of Dec. Callahun was arrested last Saturday, but the police have kept it a secret until yesterday in the hope of securing other arrests. Young Cudahy has posi-tively identified him as the man who accosted him near the Cudahy residence and represented himself to be a sheriff from an adjoining county and forced him into a buggy and also as the man who kept guard over him at the Melrose Hill use during the 30 hours he was kept a prisoner pending the negotiations for the ransom of \$25,000 which Mr. Cudahy paid for the return of his boy. Daniel H. Burris, who sold a horse and buggy to two men who are suppos-

ed to have used it to procure the abduction, also identified Callahan as one of the men with whom he made the deal. Marie Larsen, a servant in the employ of J. N. H. Patrick, of whom the kidnapers rented a house, was the third person to identify Callahan and says he is the man who paid a month's rent in advance for a cottage in Happy Hollow which the bandits abandoned two weeks before the abduction, fearing dis-

### General Otis for Filipino Independence.

General Otis, according to the Chicago Journal, has committed himself to the independence of the Filipinos at some time, near or remote. In an interview, printed by that paper, he says : "To my mind the great problem is, how can we get rid of the islands?" He believes that "after a series of years" it will be possible to establish home rule there. "How long it will be before this can be done," he continues, "I am not prepared to say. I think, however, the sooner it can be done the better for this country." meaning the United States. This is the frankest statement we have had from any one who has held command in the islands since we took possession of them. We wish we could say as much for another statement of the General in the same interview. He says, "The backbone of the rebellion was broken before I left Manila." General Otis left Manila on the 5th of May, 1900. General MacArthur's report of October 1 following covers the intervening time. While noting Aguinaldo and his men from regular field service to guerrilla warfare, he says that the new warfare 'has demanded more of discipline and as much of valor as was required during the period of regular operations against the concentrated field forces of the insurrection." There is nothing to show that there has been any less backbone since General MacArthur wrote .- New York Post.
