END OF METHODIST YEAR.

There Will be no Shake up of Appointments This Year.

The pastors of the Methodist Episcopal church in the Harrisburg District are closing up their business for the fiscal year, and getting their reports ready for presentation at the conference which meets at Chambersburg, Pa., on Wednesday March 27, to remain in session until the calendar is cleared of business.

This will be the first meeting since the general conference decided against a general exchange of pastors at the close of each year. As a result there will be comparatively few pulpits exchanged this year. This revision of the rule is agreeable to most of the ministers of the conference who say that it will be redound to prosperity of the church in general. A number of those in the minor charges do not favor it, as they say it gives the "good" pulpits of the conference to a few for life, and confines others to lives of hardship for themselves and families. This view is not generally taken however, for the reason that it is true in church circles as well as business that a man who is worthy always has his material reward and the able man always reaches the top.

THE MANCHURIAN CONVENTION

Russia Agrees to Certain Important Modifications.

LONDON, March 20,-Dr. Morrison, wiring to The Times from Peking, says: "Prince Ching received me today and confirmed the information as to Russia's modifications of the Manchurian conven-tion. The Chinese minister at St. Petersburg officially reports that Russia has agreed to eliminate the clause grant-ing her exclusive privileges in Mon-golia and Turkestan and also to modify various other clauses objected to by

"Prince Ching warmly appreciates the assistance rendered China by the inter-vention of England, the United States and Japan, but he is not optimistic concerning the return of the court to Peking "The Russian amendments do not seem

to modify sensibly the character of the convention as creating a permanent pro-tectorate. The amended clause giving Russia the right to construct a railway joining the Manchurian line to the great wall declares that the concession of the railway between Shan-bai-kwan and Newchwang to a foreign company was a breach of a previous agreement between China and Russia.

The English Withdraw.

PEKING, March 20.-The English have withdrawn their guards from the railway switch at Tien-tsin, and the right of way incident which threatened to cause trouble recently is considered closed, so far as the authorities here are concerned.

CONVICTS REVOLT.

Three Hundred Hold a Conl Mine and Their Guards.

LEAVENWORTH, Kan., March 20 .-Nearly 300 convicts in the state peniten-tiary have revolted, captured a coal mine, are holding their guards as hostages and threaten to kill them if their demands are not granted. These demands include immunity for the ringleaders of the re-

The miners have threatened to wreck the mines, but the threat is laughed at by Warden Tomlinson, who says they would not attempt this, as such action would endanger their lives. He says he

will starve them out.

A communication was received from one of the guards stating they were hungry and tired, but so far as he could learn all were alive.

The first outbreak in the mine took place shortly after the moon meal Mon-day and was started by the convicts in division No. S. BOTHA DECLINES.

Kitchener's Peace Terms Not to His Liking.

LONDON, March 20.—In the house of commons yesterday Mr. Chamberlain, secretary for the colonies, said that General Louis Botha, commander in chief of the Boer army, had informed General Kitchener that he did not feel disposed to recommend the British terms of sur-render to the consideration of the Boer government. General Botha added that his government, through its chief officers, agreed with his views, Mr. Chamberlain said he would make Lord Kitchener's terms public at once.

The issuance of parliamentary papers on the negotiations between Lord Kitchener and General Botha is delayed, General Botha's refusal to accept the peace terms offered him is commented upon with an evident sense of relief. The idea that Lord Kitchener initiated the negotiations instead of General Boths, as had been supposed, is unpalatable to the British press. The Daily Mail, under the editorial caption "Our Rejected Suit," asks why the government instructed Lord Kitchener to sue for peace after the murder of the peace envoys and concludes as follows:

"Let the war be pressed to the utmost and let further re-enforcements be pre-pared, for they may be needed, but above all let us have no more 'negotiations.' '

India's Finances.

LONDON, March 20.—The viceroy of India, Lord Curzon of Kedleston, has telegraphed to the Indian office to the effect that the financial statement to be submitted to the legislative council today shows the surplus for the last fiscal year to be £1,640,000 in spite of the famine relief of £4,227,000. It is estimated that the surplus for this year will be £691,000. The general results are considered to be exceedingly good in view of the famine and the plague. As to the countervailing sugar duties, no conclusion is yet possible, but the importations from British colonies during the last ten months have shown a large proportionate increase.
