

TOUR TO WASHINGTON. Special Four-Day Personally-Conducted Trip Via Pennsylvania Railroad

The Pennsylvania Railroad Special Four-day Personally-conducted Tour to Washington on Monday, April 1, from Central Pennsylvania, offers an excellent opportunity to visit the National Capital...

Special train will be run from Wilkes-Barre through to Washington; connecting trains will leave at time indicated below, and round-trip tickets covering transportation, hotel accommodations from dinner on date of tour until after luncheon on April 4, will be sold at rates given:

Wilkes-Barre (special train) leaves 8:45 a. m. rate \$13.60. Sunbury (special train) leaves 10:50 a. m. rate \$11.70.

Arrive at Washington at 4:20 p. m. Proportionate rates from intermediate stations.

Returning, special train will leave Washington at 3:30 p. m., Thursday April 4. Passengers from points west of Williamsport, and from Dewart, Bellefonte, Centre Hall, Mifflinburg, Lewisburg, Selinsgrove, Lykens, Dillsburg, Lebanon, Lancaster, Columbia, Wrightsville, and points on the Shamokin Division will use regular trains from Washington returning. All tickets will be good to return on regular trains until April 11, inclusive.

Guides to Washington will be distributed free on the train.

For rates and time of trains from intermediate stations, itineraries, tickets, and full information apply to ticket agents; E. S. Harrar, Division Ticket Agent, Williamsport, Pa.; or address Geo. W. Boyd, Assistant Passenger Agent, Broad Street Station Philadelphia.

Pinehart and Southern Pines N. O.

IMPROVED THROUGH PULLMAN SERVICE VIA SEABOARD AIR LINE RAILWAY. The Seaboard Air Line Railway is now operating through drawing-room sleeping cars from New York to Southern Pines and Washington to Pinehurst, N. C.

These famous health and pleasure resorts are model New England towns nestled among the pine-clad sand hills of North Carolina, only eighteen hours from New York City. The finest and largest hotels in the State, with numerous private cottages and first-class boarding houses. Every variety of outdoor sports, with the finest eighteen hole golf links in the South.

Want Game Laws Changed.

The many subordinate granges throughout Pennsylvania will petition the governor and the state legislature to give the land owner fuller control over his premises with reference to killing and trapping game. It is contended that the land owner should have first right. The game seasons being short, the agriculturist oftentimes is busy engaged with his work, and consequently the "sportsman" captures all the game. At the same time this "sportsman" parades over the cultivated grounds of the agriculturist at his own will and frequently does considerable damage.

Lumber Supply Nearing Its End.

The American Lumberman publishes some figures which should stir congress and state legislatures to prompt action touching the preservation of American forests. They ought also to move owners of forest lands to consider whether self interest would not require them to take steps to prevent the destruction of their industry.

In 1890 the states of Michigan, Wisconsin and Minnesota produced 8,597,000,000 feet of pine lumber. Since then the product has steadily declined and in 1900 was but 5,485,261,000 feet. During the last two years prices of lumber have been high, and there has been every inducement for the mills to turn out a heavy product. Every resource has been strained, but without avail.

While the destruction of the forests in the states named has perhaps been more rapid than elsewhere by reason of the proximity to markets and favorable shipping facilities, all forest sections of the country are suffering irreparably from the woodman's ax. Chief Geographer Gannett of the United States geological survey, from the best data obtainable, estimates the total stand of timber throughout the United States at 1,380,000,000,000 feet. In 1890 the cut was about 25,000,000,000 feet, and since that time it has steadily increased throughout the country at large, though decreased in some sections by reason of the practical exhaustion of the supply.

At the present rate of consumption the available supply will last not to exceed 50 years and perhaps not so long as that. The present generation is likely to feel the pinch of scarcity. Aside from the meteorological influences of land denudation and its effect upon the water courses there is shameful waste of natural wealth which is justly a part of the heritage of coming generations. The preservation of the yet remaining forests is one of the most important matters to which legislators, state and national, can direct their wisdom and energy.

Another Fine Volume.

Standard books are ever welcome when they come to us in forms and bindings representing all the embellishments of the art of bookmaking. Such a book is "Our New Possessions," published by the Dominion Co., Chicago, a copy of which has just come to our desk. The contents are well arranged, the illustrations are fine, the print is clear and neat and the binding is superb.

Her Impetuosity was Costly.

A good story comes from Pittsburg. A young man in wondering what he should give his sweetheart for a Christmas present, sent her a sandwich containing four ten dollar gold pieces. His sweetheart became angry on the receiving of the sandwich and threw the same into the fire. When the messenger boy told the man what had been done with the present he rushed over and pulled the precious metal from the fire. The coins were sent to the Treasury Department to be redeemed.

The Coal Output.

The anthracite production for February last was 4,098,000 tons or 900,000 more than was produced in the same month last year notwithstanding many collieries were handicapped by the drought last month. In February 1899 the production was 2,810,000.

NEW JERSEY LEGISLATURE. Annual Session Closed—Important Measures Passed.

TRENTON, March 25.—The final adjournment of the one hundred and twenty-fifth New Jersey legislature took place about 11 o'clock last night, although the nominal hour for the dissolution of the session was fixed for 3 o'clock. Just before that hour the hands of the clock in the two houses were set back, and the passage of bills continued until nearly 6 o'clock, when a recess was taken in order to give the governor an opportunity to consider the bills that had passed both houses, but had yet failed to receive his signature.

Among the important measures that were enacted by the present legislature were the anti-spurring election bill, the congressional redistricting bill, the bill appropriating \$50,000 for the preservation of the Palisades, Assemblyman Lewis' pure food bill, the bill placing the members of the state board of arbitration on a per diem basis, the bill authorizing the governor to appoint commissioners to change the ward lines of cities, the Trenton armory bill, the bill providing for two additional vice chancellors and the resolution providing for constitutional amendments, reorganizing the judiciary system of the state and providing for biennial sessions of the legislature.

Another important action of the legislature was the diversion from the surplus of the state treasury of \$800,000 to be used toward reducing the state school tax this year and a like amount for the same purpose next year.

MRS. NATION IN OHIO. Cincinnati's Mayor Gets a Strong Denunciation.

CINCINNATI, March 27.—Mrs. Carrie Nation began the day by attending early mass at the Roman Catholic cathedral, though she is not a communicant of that church.

Mrs. Nation called on Mayor Julius Fleischmann at the city hall in the afternoon and scolded him for operating a distillery here. On her arrival the mayor greeted her cordially and asked her if he could do anything for her. She said: "Yes, I want you to give me some advice as to how to close the hell holes in this city. You will never die well as long as you are a man who manufactures intoxicating drinks. You will have some serious questions to answer when you face your God. I can do no more than warn you, and that I must do."

For 20 minutes the mayor listened to perhaps the strongest denunciation that a chief executive ever received in his own office. When she had finished, Mayor Fleischmann remarked blandly: "I am sorry that we cannot agree. I am afraid you have struck a hard position—the mayor of a wicked city and a whisky manufacturer. I am going to have met you and hope that you may do much good."

From the mayor's office Mrs. Nation called on Chief of Police Deitch and asked him to send her an escort for her slumming. He assured her that she should have an officer, and she left she said, "Goodby, and if I don't meet you in this world I hope to see you in heaven."

Boston Building Collapses.

BOSTON, March 27.—A three story brick building in process of construction in Roxbury which had been completed as far as the roof collapsed yesterday. The building inspector found the construction faulty and ordered the building to be pulled down. No workmen were in the building when it collapsed.

Rich Discovery of Coal.

CUMBERLAND, Md., March 26.—There is much excitement at Cherry Run, W. Va., on the Baltimore and Ohio railroad, 90 miles east of Cumberland, over the discovery of a rich vein of anthracite coal at the depth of 87 feet while boring a well on the Anderson farm.

Exports of Merchandise.

NEW YORK, March 27.—The exports of merchandise from the port of New York for the week ending yesterday were valued at \$10,069,656.

Why a Woman Is Able to Help Sick Woman When Doctors Fail.

How gladly would men fly to woman's aid did they but understand a woman's feelings, trials, sensibilities, and peculiar organic disturbances. Those things are known only to women, and the aid a man would give is not at his command.

To treat a case properly it is necessary to know all about it, and full information, many times, cannot be given by a woman to her family physician. She cannot bring herself to tell everything, and the physician is

at a constant disadvantage. This is why, for the past twenty-five years, thousands of women have been cured of their troubles, and our advice has brought happiness and health to countless women in the U. S.
