The students will be back to resume their studies in September, but the graduates are leaving, or at least some of them, for good. Will Teach Philipinos.

Among the list of names recently announced by the United States Government for teachers in the Philipinos are T. H. Edwards and E. Joe Albertson, both of Benton, this county. The former graduated from the Normal in the class of 1900, and later received a diploma at the commencement of the Normal this week. They will leave San Francisco in company with the other successful ones, numbering altogether about four hundred and fifty, on a transport especially fitted out for the purpose. They have signed contracts with the government to teach for a period of three years at a salary of \$1000 a year. There was absolutely no influence, political or otherwise, exercised in behalf of the young men, and their success is due wholly to good character and scholarship.
