#### EVELYN B. BALDWIN.

North Pole Expedition Under His Command Will Be Well Supplied with Every Convenience,

A part of the equipment of the Baldwin-Zeigler north pole expedition will be 40 large gas balloons, which have been made in Quincy, Ill., and have been shipped to the supply steamer of the expedition at Trumsoe, Norway. Each balloon has a capacity of 4,000 feet of gas and has a lifting power of 150 pounds, exclusive of the balloon itself and netting. One of the balloons is much larger than the others and will be used for making scientific observations. The other balloons will be used for signaling purposes and for sending

EVELYN B. BALDWIN. (In Command of the Zeigler Expedition to the North Pole.)

messages. With the balloons he will take 400 small buoys, in the interior of which the messages will be placed. These buoys are spherical in shape, about three inches in diameter, and are made of copper and cork. There is & small weight on one side, to act as a keel when dropped in the water, and a small metal flag on the other. This fing or pennant rises about ten inches above the buoy, and its purpose is to attract attention. On the pennant these letters are stamped: "Baldwin-Zeigler, 1901." When one of these balloans is to be sent up ten of the buoys are attached to it by a long cord, one under the other. By an ingenious device each buoy will automatically release itself the moment it comes in contact with ice or water and will float away. The buoys weigh about ten pounds each, and the release of that much weight on the the descent of the balloon will cause it to rise in the air again and drift for another long distance. In this way the ten buoys, each with a message inside denoting the latitude and longitude of the ship when sent up, will be distributed over a wide area. Evelyn Baldwin has sailed from New York for Tromsor, Norway. The expedition steamer America is now at Dundee, Scotland, being fitted out, and is expected to reach Tromsoe by the time Mr. Baldwin gets there. The supply steamer Frithjof is now at Tromsoe, and as soon as Mr. Baldwin arrives the two steamers will proceed to Franz Josef Land. The start for the pole will be made from there the latter part of July. The expedition will consist of

#### 40 men, 15 Siberian ponies and 400 dogs. WILLIAM H. NEWMAN.

New President of the New York Central Is a Thoroughly Trained. Clever Railroad Man.

William H. Newman, who has just actively entered upon the duties of his new post as president of the New York Central & Hudson River railroad, is, as may easily be imagined.

WILLIAM H. NEWMAN. (Newly-Elected President of the New York Central Railroad.)

one of the eleverest and most thoroughly trained railroad men in Amer-He has worked his way up practically from the bottom. It is more than 30 years ago since he began his career in his profession as local ticket three years he had been promoted to said, on the post of general freight agent, and he was next made third vice president. The Chicago & Northwestern offered him a similar post, which he at once accepted, and in 1896 the serving when called to the presidency of the New York Central. His knowledge takes in all departments of a railway.

Legsey Wanted to Dance.

"Legsey" is a one-legged beggar, whose beat is on the Bowery, New York. Lately, while overloaded with alcoholic stimulants, he forced his way into the Bellevue hospital. The night superintendent, Mr. Rickert, is also minus a leg. The beggar became chummy at once with him, and tried to persuade him to engage in a lively. waltz. The superintendent waltzed ty of Charles Fleming and Clarence Fleming. him off to the alcoholic ward. In his pockets were \$278 in money.

#### A FAINTING ROOM.

One of the Attractions of the Women's Building at the Pan-American Exposition.

"What's this about a fainting-room n the women's building at the Pan-American exposition?" asked a man correspondent of the New York Tribune of Miss Marian De Forest, secretary of the board of women managers.

"That's exactly what we've got; ome upstairs and I il show you the room," said Miss De Forest, and suiting the action to the word she a few minutes later flung open the door.

"There!" said she, proudly. "Isn't that just a love of a room to faint in? Our board of women managers said a fainting-room was a capital idea the minute I suggested it. You know, lots of women travel around on nerve force rather than on real musele, and they go till they're ready to drop. We've got this fainting-room for just such. You observe it is done in dark green, with tilies of the valely in the wallpaper. It looks out on the upper balcony, which will be covered with flowers and vines. Everything about the roomthe carpets, furniture and picturesall is soothing."

Women managers who go to the length of providing a fainting-room for their weaker sisters can be depended on to look after all the other necessaries of a woman's building.

The doctor sometimes passes a harder sentence than the judge. But the sen-tence of the doctor is more often set aside or overruled than is that of the judge. In the case of Mrs. Reveraft given below, the doctor sentenced her to about eighteen years of physical punish ment and misery. But she rebelled against the sentence, and commenced the use of Doctor

Pierce's Favorite Prescription. a few weeks she was a well woman. It's a peculiarity

of the cures ef-fected by the use of Doctor Pierce's Pavorite Prescription, that they are generally cures of chronic diseases, woman suffers

with diseases peculiar to her sex, she takes medical treatment, gets no better, and has no hope held out to her of improvement. Then in her discouragement she turns to Dr. Pierce's Favorite Prescription and finds a prompt and lasting cure. "Pa-vorite Prescription" establishes regu-larity, dries unhealthy drains, heals inflammation and ulceration and cures female weakness.

female weakness.

"Pour years ago my health began to fail," writes Mrs. Nellie M. Reycraft, of Glenwood, Washington Co., Oregon. "I had a very heavy dragging and weight in the region of the uterus, pain in back and loins, could not lift anything heavy, rest at night very poor; stomach deranged, One physician said! was overworked, another said I had congestion and falling of uterus. He treated me nine months and said I would not be well until I had passed the change of life. I was only twenty seven years old then I became discouraged, and began using Doctor Pierce's Favorite Prescription. Took a teaspoonful three times a day; began feeling better right sway. Am using my third bottle now, and feel I am in good health. I believe Dr. Pierce's Pavorite Prescription has restored me to health. If suffering women would give it a fair trial they would give it praise."

Dr. Pierce's Common Sense Medical

Dr. Pierce's Common Sense Medical Adviser, paper covers, is sent free on receipt of 21 one-cent stamps to pay 21 one-cent stamps to expense of mailing only. Address Dr. R, V. Pierce, Buffalo, N. Y.
