#### Business of the Week.

Dunn's Review reports business during the past week as follows:

Development of fresh labor troubles is a feature of the week that has made for conservatism in many directions, but throughout the country jobbing and retail lines are busy, and are handling goods at prices which yield fair profits. There is a reflection of this activity in the continued imrovement in the textile markets in the East, and the uneasiness over the money market does not extend beyond the ranks of speculators in stocks. So far as the steel strike is concerned, it is significant that it is not a struggle for higher wages, but rather one to compel the recognition of the authority of the Amalgamated Association in the sheet mills heretofore non-union. Crop reports continued gratitying, much good having been done by rains in the middle west. Harvesting of winter wheat progresses favorably.

Manufacturing has been interrupted by the elements and humane employers to close mills during the most distressing hours, sheet and hoop workers were ordered to stop work until disputed points were settled. No immediate settlement is anticipated because many plants need repair and others are taking stock. Until the owners wish to resume their position will not be known.

Staple products are quiet, speculation being restricted by depressing weather, and the lenghy holiday at most of the exchanges prevented new commitments. News from the west was full of promise as to the growing wheat yield, causing a further decline in prices, although foreign needs are known to be heavy. Corn steadied somewhat because of reported injury from heat and drouth: Receipts continue light in comparison with last year's, but exports are equally unsatisfactory. Cotton holds firmly at a point little below nine cents, the free movement into sight of the old crop being disregarded. Strength is found in greater activity in the goods market, together with rumors of rain in Texas and a few other states where moisture is deficient."

### Ablaze in Mid-Air.

George Devan, who gives an athletic performance, terminating with a high dive into water after making a long slide on an inclined wire cable, ablaze with burning cotton, holding only by his teeth, while he shoots through space at the rate of a hundred feet a second, was horribly burned in mid-air at Sunbury Saturday night.

He had given his usual athletic exhibition and prepared to give his "sensational high dive." He covered almost his whole body with strand after strand of cotton saturated with will avoid disaster, they will seek to coal oil. Thinking everything was secure the match was applied to the which will be to help the rich without cotton and he started on his perilous regard to the poor." Of the future ride. Hardly had he gone fifty feet Democratic policy, Mr. Tillman said: when he was brought to a standstill "We will be against a carpet-bag govwith a jerk, suspended in the air ernment for the Philippines, because thirty feet, with the cotton rapidly burning into his flesh. Had he gone ment brings in its train. I do not know a little farther he could have dropped that the money question will figure in into the water, but directly under him was a crowd of fully one thousand people. With great presence of mind ac climbed hand over hand on the wire to the tree which was used as a support, and after reaching the tree man said: "I do not yet see a candihe tore the flaming cotton from his body and climbed to the ground.

Upon examination it was found that he was burned almost all over the body. Three strands of the cotton had become broken and formed a knot in the wire, which prevented the pulley from sliding over it, this causing the accident.

### When Not to Marry.

A New York minister says marriage is not a failure, and that more than 2,500 of his 3,012 couples he has united are happy. His advice to those who would wed and be happy is largely summed up in the following halfdozen don'ts: Don't marry when too young. Dou't marry until you can support a wife. Don't marry a girl who can't cook and sew. Don't live in six rooms when three are enough, Don't marry unless you suit each other. Don't come to me for a divorce.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. Cheney & Co. ## WASHINGTON.

Washington, July 8, 1901.

"Bonds, bonds, where are the bonds?" is a sort of game, something hke "Thimble, thimble"-etc. that numerous persons are engaged in playing. The bonds in this case are those alleged to have been issued by the agents of the Republic of Cuba, and the proceeds to have been expended in fighting Spain. Where Culp. those bonds are and how many of key to the game and not likely to be fully answered until the holders of them make a demand on the Cuban Sunday. Government, soon to be established. One man, who probably knows about all that is to be known about those bonds, and maybe has a big block of them himself, was in Washington last at home, as is usual at this time of week conferring with Secretary Root and Mr. McKinley. That was Gen. Maximo; Gomez, who commanded what the Cubans were pleased to call day evening, supplying the presiding an army when the Americans took possession of Cuba, and he came straight from the man who knows even more about the bonds than he does, because all that were sold had to pass through his hands. That man is Thomaso Estrada Palma, who was at the head of the Cuban junta in New York, where he still makes his home. Gen. Gomez talks a lot of rot about gratitude bringing him to Washington, but some very clear signs indicate that his real object is to secure administration influence for a Cuban Presidential candidate who can be depended upon not to turn the cold shoulder to Gomez and his friends who have Cuban Bonds. But why he didn't fix it up with Gen. Wood, in Havana, without bringing the matter to Washington, is a little puzzling, although the fact that Gen. Wood's private Secretary is with Gomez indicates that the visit to Washington was approved by Wood.

Senator Tillman passed through Washington last week, and he expressed some vigorous political opinions. For instance, he said: "It is stupid to talk about the Democratic party being the enemy of the business interests. We did endorse the free coinage of silver, but events have proven that our contention as to the need of more money was correct. The prosperity which the country has experienced is simply due to the large increase in the supply of gold through new discoveries. We are riding now on the crest of the wave; but it will not be long before we get into the trough. Hard times will come, and then what are the Republicans to do. They have enacted a high tariff and have given us a gold standard and when they find that neither of these find some other remedy, the result of we know the evils which such governthe next campaign, but I do know that there will be plenty of vulnerable spots in the Republican armor which we can attack." Of the probable Democratic candidate Senator Tilldate in sight, but I, for one, will not favor the nomination of any one who has not been identified with the party during the past four years. I do not see how it is possible for so-called Democrats to expect the Democratic party to endorse in 1904 the principles to which the Republicans are now wedded, and yet they are solemnly discussing such a proposition. They expect the Democrats to move side by side with the Republicans and then win. That is not my way of making a fight."

Col. R. M. Johnson, Texas member of the Democratic National Committee, who passed through Washington last week on his way to New York, said of the political outlook: The Democratic party is all right, and it has fully recovered from the deteat of 1900. What we want to do to win next year is simply to take advantage of our opportunities. The Republicans seem to be all at sea on the tariff question, and in my opinion the tariff will again come to the front as an issue. But there will be other live issues besides the tariff in the next campaign."

Senator Hanna sent his private Secretary to Washington to impress upon the mind of Mr. McKinley the necessity for his presence among the Ohio Republicans to prevent the present bickering growing into a reg-ular cut throat fight, and the result was that Mr. and Mrs. McKinley left Washington to-day for Canton.

As Mr. McKinley left Washington without appointing a new Pension Commissioner, it looks as though he had decided to allow Commissioner Evans to keep that position, notwithstanding the hubbub against him that has been aroused by the skillful agi-

tation of profession "old soldiers," on the ground that his construction of the law has not given the old soldiers all that was coming to them in the way of pensions. It is hinted that an attempt is to be made to force Mr. McKinley to act by carrying the fight against Evans into Ohio politics.

### "Dont's" For Use in Hot Weather.

Don't eat a big meal, drink a lot of ice water and then go out in the sun. Don't remain exposed to the sun any longer than you can help.

Don't fail to bathe often. It keeps the pores of the skin open, permitting free perspiration.

Don't wear tight clothing, especially around the neck and chest. Don't use alcholic drinks. It not only induces heat prostration, but

renders recovery more difficult. Don't drink ice water too frequently. A warm drink will alleviate the thirst and it is beneficial and cooling.

Don't sleep in a poorly ventilated room. Failure to follow this precept often induces heat exhaustion.

Don't walk or work hurriedly. Take your time in all things. Don't exercise when overheated.

### Fund for Indigent Soldiers.

Among the bills that Governor Stone will act on soon, is one authorizing county commissioners to levy a tax not exceeding one-tenth of 1 mill per dollar on the assessed value of property in each county for the purpose of creating a fund for relief of honorably discharged indigent soldiers, sailors and marines and for indigent wives, widows and minor children under 15 years of age of indigent or deceased soldiers, sailors or marines.

### A Piece of Stone-

The Bradford Argus says that while workmen were at work digging up the RAILROAD TIME TABLE remains of William Griggs, who had been dead nearly twenty four years, they were surprised upon reaching his coffin to find nothing but a piece of stone. A chain was fastened around the body and when the latter was raised from the grave the head and feet fell off from it. The petrification was so hard that not even the chain made an indentation.

### Why a Woman Is Able to Help Sick Women

When Doctors Fail. How gladly would men fly to wo-man's aid did they but understand a

woman's feelings, trials, sensibilities, and peculiar organic disturbances.

Those things are known only to women, and the aid a man would give is not at his command.

To treat a case properly it is neces-sary to know all about it, and full information, many times, cannot be given by a woman to her family physician. She cannot bring herself to tell everything, and the physician is

at a constant disadvantage. This is why, for the past twenty-five years thousands of women have been con-fiding their troubles to us, and our advice has brought happiness an health to countless women in the U.S. Mrs. Chappell, of Grant Park, Ill whose portrait we publish, advises al suffering women to use Lydia E. Pink ham's Vegetable Compound, as i cured her of inflammation of the ovarie and womb; she, therefore, speaks from knowledge, and her experience ough to give others confidence. Address Mrs Pinkham's Laboratory, Lynn, Mass.

### Many Peaches.

Reports from most of the peach growing districts are to the effect that the crops have not been hurt by the hot, dry weather of the past few weeks. There has been little compaint in any of the peach sections of Pennsylvania of any kind and the prospects are that the crops will be above the average, while not so heavy, perhaps, as

There will be a light crop of apples as farmers everywhere report the caterpillars as numerous and destructive. This section is perhaps worse affected than any other in this state. A Brave Girl.
