STARVED

Slow growth of hair comes from lack of hair food. The hair has no life. It is starved. It keeps coming out, gets thinner and thinner, bald spots appear, then actual baldness.

The only good hair food you can buy is —

Ayer's Hair Vigor

It feeds the roots, stops starvation, and the hair grows thick and long. It cures dandruff also. Keep a bottle of it on your dressing table. It always restores color to faded or gray hair. Mind, we say "always."

\$1.00 a bottle. All druggists.

"I have found your Hair Vigor to be the best remedy I have ever tried for the hair. My hair was falling out very bad, so I thought I would try a bottle of it. I had used only one bottle, and my hair stopped falling out, and it is now real thick and long."
