## WASHINGTON.

From our Regular Correspondent.

Washington, July 29, 1901. naval clique, which has done such thirty years service in the examination dirty work to try to discredit him in of mirrors, glass, leather, gloves, etc., the eyes of the American people, when who was transferred to the docks to he called Secretary Long's bluff and examine personal baggage, in order demanded a court of inquiry into his that his place might be given to a Mr. conduct during the hunt in Cuban McDonald, a clerk in the office of the waters for the Spanish fleet. Admiral Schley would have made this demand long ago had his triends, who knew of the intention on the part committee called Mr. Gage's attention of the clique which has controlled the Navy Department since the be- of examiners, which says: "No person ginning of the McKinley administra- shall be appointed such Examiner who tion to pack the court against him if is not at the time of his appointment he asked for it, not advised him to practically and thoroughly acquainted wait for a more propitious time. That with the character, quality and value time arrived when the clerk in the of the articles in the examination and Brooklyn Navy Vard wrote under appraisement of which he is to be emorders from the clique language con- ployed." Secretary Gage promised the cerning Schley that would have dis- committee that he would give his imgraced the lowest gutter-snipe publication in the country, and shameless. Mr. Wakeman may have to turn his ly labeled it "history" and sought to attention from trying to scare republihave it made a text book at the Naval can Congressmen who have declared Academy. The clique overshot the for tariff revision to trying to hold on mark. Instead of injuring Schley, the to his job. publication aroused the country's sense of fairplay, and today the demand for an inquiry that shall be conducted by men of honor, not puppets of a clique, is ringing from the Atlantic to the Pacific. It is now up to Secretary Long. He can easily name a court of inquiry that will command the respect of the country and that will not base its inquiries on the charge that Schley is a democrat, but on an effort to get at the truth, the whole truth, of what was done in the West Indian naval campaign, regardless of who is hurt or helped. That much the country demands, and it will take no less. Secretary Long has promised that such a court shall be named, and if President McKinley is as wise a politician as he is credited with being he will see that the promise is kept. No political question is involved in this inquiry, but any failure to give Schley the justice which every brave officer under accusation is entitled to at the hands of the powers that be will make it a political question of the most dangerous sort.

Most persons have heard the story it was impossible to imprison him on the charge against him, through the bars of the jail cell in which he was locked up. Although there is abundant knowledge, from those on the ground, that the land grabbers are speculating by wholesale in the certificates or numbers of those who have been registered as applicants for homesteads in the Oklahoma Indiana reservations about to be opened to settlement, Secretary Hitchcock still msists that speculation in these certificates is impossible.

President McKinley never neglects an opportunity to turn a financial trick, at public expense, for a friend. By and the appointment of Secretary Hunt as his successor, which has been definitely determined upon, until September, he enables his friend Allen to enjoy an extended vacation and continue to draw a big salary. Two Presidential proclamations were issued this week-one announcing that Porto Rico had a civil government, which might have been made many months ago, but was held back in order to prevent the Porto Rican legislature having the disposal of the revenue collected under the Foraker act, and the other proclaming free trade with Porto Rico.

New York business men are again after Wilber F. Wakeman, the Appraiser of merchandise at that port. official patronage to provide for inexis president, and which he successfuly have business with his office. A delegation from the New York Board of Trade and Transportation this week lessened the efficiency of his office by

\$100 REWARD, \$100.

The readers of this paper will be been able to cure in all its stages, and that is at arrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hondred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENEY & CO

Toledo, O.

putting men without experience in the places of those thoroughly familiar with their work. Among the instances cited as proof of the charges was the Rear Admiral Schley fooled the case of Examiner Levy, an expert of to the law governing the appointment mediate attention to the charges, and

### The Week's Volume of Business.

After a number of days of serious weather conditions in the corn and spring wheat States, advices of lower temperature and moderate rains came as a great relief to business throughout the country. Speculators, whose expressions of fear for the interests of the country were becoming daily stronger with their success in depressing values of securities, were brought up sharply, and were disposed to consider more fully the general undoubted prosperity. Labor matters took on a more hopeful aspect. Retail trade in the West from Chicago to Omaha has never been better in the summer season, and in view of this condition it is not surprising to find railroad earnings for half of July 10.3 per cent. in excess of last year and 23.9 per cent.

A fortnight of the steel 'strike has passed without materially altering the position of the contestants, or adversely affecting the industry as a whole. Instead of spreading to mills all over the country, as threatened by the labor of the lawyer who told his client that leaders, the controversy is confined to a comparatively small number of plants, and most of these needed an opportunity to make repairs. Exceptional activity is noticed at mill not affected by the strike, and the A skylight or window should be kept movement of structural for bridges, buildings and track elevation is still heavy. Steel bars for agricultural implement makers are firm in price and freely purchased. Railways seek of the day the warm, moisture-laden freight cars, and rails are sold for de- air enters the cellar and condenses on livery next January. Cotton ties, sheets and hoops are commanding a premium. Pig iron is accumulating, but producers offer no concessions. Orders for tin plates were not accepted for delivery before October 1st, when the strike began, owing to the postponing the acceptance of the re-tant contracts are still taken at un-Atlantic City, Cape May, Ocean City, signation of Gov. Allen, of Porto Rico, changed prices, but jobbers are receiving high prices for goods deliverable ist and r5th. These tickets will be immediately. Tin has fallen to the quotations prevailing in May, owing excursion on regular trains leaving to the lack of demand here and weakness in London.

New lines of woolen goods for demoderate reductions from last year's at Philadelphia going and returning prices, as generally expected by the trade. Supplies of heavy weight goods have been reduced to a satisfactory point, and the situation in all branches of industry is such as to engender confidence. Raw wool, however, thus far fails to reflect the improvement, quotations remaining unchanged at the lowest average price in four years. A tew of the most expensive grades are held above former figures, and the bulk of the new domestic clip has gone They object to Wakeman's using his into the hands of speculators, who await profitable terms. Cotton goods perienced hangers on of the American are dull, neither buyers nor sellers ex-Protective Tariff League, of which he hibiting any eagerness to make prop ositions. Withdrawal of prominent utilized to pull himself out of his last concerns from the Fall River Selling difficulty with the big merchants who Committee suggests lower prices for print cloths. Mills are not fully employed either north or south. Quiet conditions in the domestic manufactcalled on Secretary Gage and filed ure, light exports, and better weather charges against Wakeman for having on plantations caused further depression in raw cotton.

Shoe shops are producing at tull capacity, with orders arriving steadily, and salesmen are already placing pleased to learn that there is at least spring samples liberally in western one dreaded disease that science has and southern markets. Business improves as the season advances, and local jobbers report July trade in excess of the corresponding month in any previous year. Sales of summer goods have surpassed expectations, and wholesalers are endeavoring to secure prompt delivery from manufacturers to replenish depleted stocks. An unusually large number of buyers are in the Boston market. Prices are unchanged, the higher quotations for leather preventing even the smallest concessions. Union sole shows the most strength, and buying is for consumption rather than speculation. Belting butts are well bought up, but upper leather is more quiet. Dry hides are still in light demand, with values firmly held, while a few grades

of Chicago country hides are lower,

Alum in Food-How Can The Danger Be Avoided.

The reported cases of poisoning from the use of alum baking powder have awakened the public to the serious danger which menaces the health of the people of this country in the numerous alum powders which are arged upon consumers,

Generally, alum powders may be known from the price at which they are sold, or from the fact that they are accompanied by a gift, or are disposed imes as low as ten cents.

It is impossible to name all the alum powders in the market, but any baking powder sold at a low price, or of under any scheme, is of this class, detrimental to health and to be avoid-

These facts should incline consumties to buy the inferior powders. The hot, dry weather of the past few wise housekeeper will decline in all weeks. There has been little comcases to take them.

How to Keep the House Cool.

What Can be Done to Make it a Comfortable Restful Place in Hot Weather.

"Many things can be done to make even the smallest house a comfortable. restful place in hot weather," writes Maria Parloa, in the Ladies' Home Journa! for August. "Of course the windows must be properly shaded with blinds or awnings, and also well screened. All the heavy hangings should be removed, and when possible the carpets should be taken up or covered with linen. Cool colors, such as white, gray, light greens and blues, should take the place of the warmer colors. Thin white muslin curtains soften the light. The house should be well aired and sunned at least once a day. The early morning is best for this. Open all the windows and blinds and let the sun and air pour through the house. About nine o'clock close the blinds aud all the windows except one or two downstairs and two or three upstairs. In the open windows place wer grass screens, or cover the regular screens with wet flannel. When the sun goes down open all the windows and blinds. open night and day in the attic, except of course, when it rains. The cellar windows should be open only at night. If they are not closed during the heat walls, pipes, metals, etc., and in a few days will make it so damp as to be an unsuitable place for keeping food."

### \$4 50 Ten Day Atlantic City Excursion August 1st and 15th.

The Philadelphia and Reading Railway will sell round trip tickets to good going to Philadelphia on day of Bloomsburg at 7:10 a. m. and 11:30 a. m. and from Philadelphia on any livery after October 1st opened at time limit of ticket. Stop off allowed within time limit of the ticket. Round trip rate from Bloomsburg \$4.50.

### Effect of Heat.

Full recovery from heat prostration is not usually immediate. Persons who have suffered great depression during a heated term are liable to headaches and other distressing symptoms for weeks, or to "chronic heat stroke," as the doctors say. Those who have been actually overcome by the heat will find it necessary to guard themselves with uncommon care for many summers. "Chronic heat stroke" is by no means a new ailment, but is more in evidence now than ever before because of the unprecedented hot season.

To assure the hatching of canary birds' eggs more nearly at one time the first eggs are sometimes taken away by the fanciers and replaced by artificial ones, all being put back in the nest when the bird ceases to lay. While she is sitting the prospective father lives up to his responsibilities, and devotes his time to seeing that mate does her duty, and when she leaves her nest, if she shows an inclination to dally, sharp pecks drive her back .- August Ladies' Home Jour-

The Company of the Co Only 50 Cents to make your baby strong and well. A fifty cent bottle of

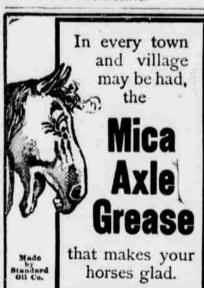

Scott's Emulsion will change a sickly baby to a plump, romping child. Only one cent a day, think of it. Its as nice as cream. Send for a free sample, and try in SCOTT & BOWNE, Chemists, 409-415 Fearl Street, New York, 50c, and \$1.00; all druggish.

If Not, Why Not.

A New York physican says, "If a man will take a hot bath and lie in bed sixteen hours he will rise three quarters of an inch tailer than when he turned in." And now a physican would like to know if, on the same principle, a man should take 9 hot baths and lie in bed sixteen weeks, would be arise three quarters of a yard

Unable to account for the mysterious disappearance of several hundred of under some scheme. The alum of his fowls, Jacob James, a farmer, powder costs but a few cents a pound near Shade Gap, made an investigato make, and is often sold at twenty tion and discovered sixteen skunks in or twenty-five cents a pound; some- his barn under his hay. Quickly callhis barn under his hay. Quickly calling assistance the destruction of the odoriferous animals was begun. After sunbury the extermination of the pests it was found necessary to burn several tons advertised as costing much less than of hay, which had been rendered the well-known, high class powders, or useless by the animals, and in addiaccompanied by a present, or disposed tion the building had to be funigated by disinfectants.

Reports from most of the peach growing districts are to the effect that ers to turn a deaf ear to all importuni- the crops have not been hurt by the plaint in any of the peach sections of Pennsylvania of any kind and the prospects are that the crops will be above the average, while not so heavy, perhaps, as last year. There will be a light crop of apples, as farmers everywhere report the caterpillars as numerous and destructive.
