WASHINGTON.

From our Regular Correspondent.

Washington, Oct. 5, 1901. From chance remarks dropped in hotel lobbies and government corridors, it may be easily surmised that Republican leaders, that is the Republican party workers, are very much of the impression that they have in the White House an entirely unknown, not to say erratic, quantity. When Roosevelt was Civil Service Commissioner he was enthusiastic for Civil Service reform, insisting that merit was the only qualification for governmental employment and, at times, seriously irritating those politicians who considered that party fealty should receive its reward in patronage.

When Mr. Roosevelt became governor of the State of New York, he found himself so seriously obligated to the politicians that it was impossible to disregard their advice and their claims. Nevertheless in his attitude towards the great corporations, in his efforts to effect State civil service reform and in his defeating the scheme for making the New York police force the tool of the Republican politicians, he so antagonized "the machine" that Senator Piatt exerted his utmost effort to "lay him on the shelf" by shoving him into that political graveyard, the vice-presidency.

As a result of all this Mr. Roosevelt has assumed command untrammeled by any promise or debt to any individual or faction and, while he has proved urbanity itself to those politicians who have had occasion to call upon him, no one can in the least foretell how he is going to handle the practical side of Republican politics and every faction is on the apxious

Another source of anxiety is the probability of the Democratic candidate being a dark horse. If Mr. Roose velt will subordinate his personal views to the party good the party will, its leaders believe, stand every chance of erratic from the politician's standfactions and does not enable the party bosses to properly reward the line workers there is no telling what havoc a good Democrat, brought forward at the last moment and properly managed

are trying to reassure themselves by the report that Mr. Roosevelt has summoned Mr. Platt to Washington for a conference on the situation in New York and that he will bring to Platt's aid all the resources of his experience both as candidate for Mayor and as Governor of New York. It is certain that, if he will, the president can put some valuable ammunition into the hands of the New York Senator, in the way of patronage. But It is Full of Kickers and Their Name is Mule. will he? that is the question.

that notwithstanding it was during those six months the great strike occurred, is not one that is likely to prove of benefit to the Republican party. After the all too realistic pictures we have seen of the suffering among laboring men caused by the strike and the comfortless, cheerless and crowded condition of the laborers' homes even before the strike, we cannot help asking where is the benefit to the American laboring man which this Government fed "infant" is supposed to work? This is a question the Republican party will probably have to answer in the next campaign.

He has not yet seen the President, his only conferences having been with Secretary Hitchcock but there seems to be defence of Governor Dole as opposed to the representations of Judge Humphreys, et al. Judge Humphreys, before he left Washington declared himself unconditionally in favor of the candidacy of Harold M. Sewall.

When it was first heralded abroad the proposition of Jno. W. Mackay and others to lay a cable to Hawaii and the Philippines without asking of the Government a cent of bounty seemed most worthy of acceptance and certainly preferable to the proposition submitted to the last Congress that a large share of the expense of laying a cable, which was to become the property of private individuals, should be borne by the Government.

purely legal question as to whether the concession granted by the Spanish Government would obligate the administration to refuse a landing to all other companies. It now transpires, however, that portions of the wording of the proposition are so obscure as to lead to the suspicion that an acceptance of the proposition would involve permission to land cables on Cuba and Porto Rico. After being discussed at the Cabinet meeting yesterday the whole matter was referred to Atty. Gen'l. Knox for eluci-

Tuesday evening, Oct. 1, marked an event, the memory of which will be long cherished in the home of Mr. and in her life, and many of her friends and neighbors taking advantage of the occasion met and gave her a most pleasant surprise. The evening was spent in a very enjoyable manner, and all present will ever look back with much joy and pleasure to this happy occasion.

Our Working Girls.

Life to the most favored is not always full of sunshine, but to the average American girl or woman who is obliged to work for her living, and, perhaps to help others at home, life is often a heavy drag in consequence of illness.

Women who work, especially those who are constantly on their feet, are peculiarly liable to the development of organic troubles, and should par-ticularly heed the first manifestations, such as backache, pains in the lower limbs and lower part of the stomach, irregular and painful monthly periods,

faintness, weakness, loss of appetite

and sleep. The young lady whose portrait we publish herewith had all these symptoms, and in addition lencorrhoea, and was cured by Lydia E. Pinkham's
