FROM FRIGID ALASKA

Annual Report of Department Commander Randall.

THEEGRAPH AND ROAD CONSTRUCTION

geer Four Hundred Miles of the Milimay Line Finished Under Difficult Conditions-Frequent Change of Troops Recommended.

WASHINGTON, Oct. 8 .- The war department has made public the annual oport of Brigadier General Randall, ommanding the department of Alaska. General Randall lays much stress on he rigors of an Alaskan winter. The sold, he says, is intense and continues to from November to April, with severe and frequent blizzards. There is to dockage for ocean vessels at the supply port, Fort St. Michael's, and all supplies must be lightered from ships in open roadstead. If the weather is sough, the work of lightering becomes mpossible.

General Randall says that the most important work in the department aftsr providing for the housing and supply of troops was that of constructing the military telegraph line and military sond through Alaska. The total length of line constructed up to the date of the report, Aug. 15, was about 400 miles. The work is being pushed as fast as aossible, and by the close of navigation this year it is hoped that telegraphic communication between Fort St. Mishael's and Fort Gibbon, 420 miles disant, will have been established. The construction of these lines. General Randall says, is attended with many lifficulties peculiar to an arctic climate. Owing to the isolation of army posts in Alaska and to the lack of facilities for instruction in drill and for convening court martials General Randall says troops left to serve there for sevscal years must deteriorate in military efficiency. He therefore recommends that troops stationed in Alaska be redeved every two years and that only men with more than two years to serve be ordered there.

Death Ends Long Pastorate. OGDENSBURG, N. Y., Oct. 8 .- The Bev. L. Merrill Miller, D. D., dean of the state presbytery, is dead at the Presbyterian parsonage. He was born In Rochester Oct. 18, 1819, and had wen an ordained minister for fiftyseven years, last May celebrating the aftieth anniversary of his pastorate in Igdensburg. It is said Dr. Miller inclated at 1,890 weddings, 1,460 fuserals, preached 9,125 sermons, baptimed 1,480 persons and received 1,330 sersons into his church. At noon yeserday he visited the house of mournng of his oldest communicant and was to preside at the funeral in the aftersoon, but was taken ill, returned home and died of heart failure.

American Shipbuilding.

WASHINGTON, Oct. 8 .- The commissioner of navigation in his quartery report shows that 393 vessels of all tinds were built in the United States und officially numbered during the bree months ended Sept. 30. Of this number 870 were built of wood and 23 teel. The total gross tonnage was 68,-95 tons. Of the whole number built 361 were built on the Atlantic and gulf

HODGSON TESTIFIES. Story of Battle of July 3 Repeated In Schley Court.

WASHINGTON, Oct. 8.-Lleutenant Commander Hodgson again occupied the greater part of the Schley court of inquiry yesterday as a witness. He

was followed on the stand by Captain W. M. Folger, formerly chief of the bureau of ordnance of the navy department, but commander of the New Orleans during the Spanish war. Lleutenant Dyson also was recalled to add some details to his former testimony concerning the coal supply of the American fleet during the Santiago blockade.

Commander Hodgson repeated and extended his story of the battle of July giving the opinion that Commodore 8, Schley's conduct on that occasion was such as that of a commander in chief should have been. He also explained some length his correspondence at with Admiral Schley concerning the alleged colloquy between them while the Santiago engagement was in prog-He said he had had no conress. troversy with the commodore, but he repeated that the commodore had said, "Damn the Texas!" when told that that vessel was in danger.

Captain Folger said that the bombardments of the Cristobal Colon on May 31 had been eminently successful in developing the strength of the Spanish shore batteries and had shown them to be very weak. He also said that if the Spanish vessels had attempted to escape at night they could not have been seen by the blockading fleet in bad weather.

TREATY RUMORS.

England Hears of Provision to Abrogate Clayton-Bulwer Agreement, LONDON, Oct. 8 .- The Washington correspondent of The Daily Chronicle gives the alleged substance of a provisional canal treaty abrogating the Clayton-Bulwer treaty.

Commenting editorially upon these advices. The Daily Chronicle says:

"Englishmen will be startled to learn that we have abandoned our rights under the Clayton-Bulwer treaty and surrendered every disputed point without any compensation. The new treaty is apparently another instance of Lord Salisbury's placid indifference and Lord Lansdowne's impulsive generosity.

"It is said that President Roosevelt will recommend its adoption to the senate. Doubtless Great Britain will agree to it. Although it gives us nothing at all, it will have the advantage of getting rid of all our outstanding grievances with the United States."

WOMAN KIDNAPED.

Philadelphia Newspaper Men In Queer Business.

PHILADELPHIA, Oct. 7.-Charged with kidnaping a woman and holding her a prisoner for four days, robbing her of jewels worth more than \$2,000 and compelling her to sign bank checks for large sums of money is the story which the police unfolded here when they announced the arrest of two newspaper men, a stenographer in another newspaper office and a barber. all of whom are charged with complicity in the crime.

The men now locked up at the central police station are Howard K. Sloan, an unemployed reporter; Henry Wallace, society editor of one of the morning newspapers; J. Knight Findlay of Wayne, near here, stepographer in the business office of another morning paper, and Oscar S. Dunlap, a barber employed in one of the most prominent shops in the city. The victim is Mrs. Mabel Goodrich, the proprietress of an establishment on North tries. Tenth street.

CONDENSED DISPATCHES.

Notable Events of the Week Briefly and Tersely Told. Charlos Hartzell of Colorado has been

appointed secretary of Porto Rico. Nineteen fishermen were reported

drowned in the bay of Peniche, Portugnl. Kidder, Peabody & Co. have received

\$43,959 toward the ransom of Miss Stone. Connecticut held town elections to de-

elde whether to have a constitutional convention.

A fight in which four were killed and four wounded occurred at the Big Springs Union Baptist church, in Tennessee.

Former Governor Jones has been appointed United States district Judge for the northern and middle district of Alabama.

Monday, Oct. 7.

Disquieting reports of the political condition in Haiti have been received. Sir Henry Irving and Miss Terry have salled from London for New York.

Secretary of Agriculture Wilson estimates the beet sugar production for 1901 at 198,500 tons.

Miss Helen Morton, daughter of former Vice President Levi P. Morton, was married to the Comte Boson de Perigord in London.

Labor leaders in Fall River, Mass., have proposed a two weeks' postponement of the big strike of cotton mill operatives for higher wages.

In Saturday's football games Columbia beat Williams, Harvard beat Bates, Yale beat Tufts, Princeton beat Haverford, Pennsylvania beat State college and Cornell beat Bucknell.

Saturday, Oct. 5.

London gave Sousa's band an afternoon reception.

The sultan of Jolo refused to see the congressional party from Washington.

Apache Indians are said to have killed five persons near Albuquerque, N. M.

A strike of electric railway and light. ing company employees was threatened in Chicago

Former President Kruger of the Transvaal is reported failing physically and mentally.

The court of appeals did not hand down a decision in the Molineux case, as had been expected.

The Social alliance of Boston circulates a petition for commutation of Czolgosz's sentence to life imprisonment.

Friday, Oct. 4.

The strike among Belgian coal miners is spreading.

France is to lay a new cable from Tonguin to Amoy and Port Arthur.

Serious disturbances were reported at Hungarian parliamentary elections.

Gold dust worth \$500,000 was brought from Nome, Alaska, to Puget sound. Free Society, a Chicago anarchist pa-

per, was temporarily barred from the mails.

Evidence has been found that Russians long ago worked Nome gold deposits.

The total value of minerals produced in this country last year was \$1,070.-108,889.

A strike at all collieries of the New York and Scranton Coal company is threatened. Wisconsin G. A. R. ordered members

Fought to a Draw.

THE REAL BITTERNESS.

Mamma-But, darling, why should you object to taking the good doctor's advice?

Bobby-It isn't his advice, mamma, it's his horrid old medicine that I hate to take .- Chicago Daily News.

THE ROYAL MONTH AND THE ROYAL DISEASE .- Sudden changes of weather are especially trying, and probably to none more so than to the sciofulous and consumptive. The progress of scrofula during a normal October is commonly great. We never think of scrofula-its bunches, cutaneous eruptions, and wasting of the bodily substances-without thinking of the great good many sufferers from it have derived from Hood's Sarsaparilla, whose radical and permanent cures of this one disease are enough to make it the most famous medicine in the world. There is probably not a tity or town where Hood's Sarsaparilla has not proved its merit in more homes than one, in arresting and completely eradicating scrofula, which is almost as serious and as much to be feared as its near relative-consump-

tion.

The Reason, Perhaps We often praise the faithful dog Whose friendship will not balk. He never lies nor goesips; but He never learned to talk -Washington Star.

An Unreasonable Man.

Mrs. Inswym-The Gadsbys don't appear to get along very well together. Mrs. Galey-No wonder; the brute will neither agree to a separation nor

give her any grounds for divorce .--Brooklyn Life.

Caustie Meanness.

"Apples, raw apples, are now said to be good literary diet."

"Yes; and for some poets I'd prescribe green apples-to keep them from writing."-Detroit Free Press.

Nature has just one pigment on her pall ette with which she produces all the marvelous tints of beauty, and that one pigment is the blood. The shell-like pink beneath the finger nails, the delicate rose of the cheek, the cherry ripeness of the lips, the irridescent brilliance of the eyes are all produced by the blood. Just as the permanence of a beautiful painting will depend upon the pur-ity of the colors with which it is painted, so the permanence of beauty depends on the purity of the blood. Paint, powder and cosmetics won't avail to preserve beauty. Beauty begins in the blood. Dr. Pierce's Golden Medical Discovery is a true beautifier, because it provides for nature that pure blood with which alone she can paint. The use of this medicine will cleanse the skin, brighten the complexion, brighten the eyes, and give to face and form that radiance of

health which is the greatest charm of beauty. Dr. Pierce's Pleasant Pellets are very effective in ridding the system of clogging residuum, which accummulates with constipated habit.

A flier in the stock market often proves that riches take unto themselves wings.

CATARRN AND COLOS RELAEVED IN TEN TO SIXTY MINUTES .- One short paff of the breath through the blower supplied with each bottle of Dr. Agnew's Catarrhal Powder diffuses this powder over the surface of the It may seem peculiar, but the average actor would rather have a long run than a nasal passages. Painless and delightful to use. It relieves instantly, and permanendy cures catarrh, hay fever, colds, headache, short walk. sore throat, tonsilitis and deafness. Sold by C. A. Kleim. 21

Silk imports yielded in 1900 more than \$15,000,000 of duties.

Capital Stock, \$1,000,000. Divided into 200,000 Shares of Par Value of \$5.00 Each.

FULL PAID AND NON-ASSESSABLE

We call special attention to the fact that one share of this Company whose entire Capital Stock consists of only 200,000 shares of the par value of Five Dollars each, secures an interest in its property equal to 5 shares in a Company of One Million Shares of the par value of only One Dollar each, as is the case with nearly all Mining Companies offering shares at a price seemingly lower than the present price of the shares of this Company, but in reality much higher.

PILL-OSOPHY .- There are pills and pills -but Dr. Agnew's Liver Pills at to cents a vial lead in demand. Sluggish liver, constipation, or irregular bowels are the precursors of many physical disorders. These little wonders remove the cause. 40 in a vial for 10 cents. 100 Pills 25c.

Sold by C. A. Kleim. 21

The people who never pay their debts seem to regard this as the land of promise.

Convince yourself that Ely's Cream Balm deserves all that has been said of it as a means of quick relief and final cure in obstinate cases of nasal catarrh and hay fever. A trial size costs but ten cents. Full size, fifty cents. Sold by druggists or mailed by

Ely Bros., 56 Warren street, New York. Mt. Olive, Ark., May 17, 1901. Messrs. Ely Bros. :-Please send me one bottle of Cream Balm, family size. I think it is the best medicine for catarrh in the world. Very respectfully, J. M. SCHOLTZ.

The fellow who laughs and grows fat usually finds that the laugh is turned on him.

valvular disease of the heart," writes Mrs. J. S. Goode, of Truro, N. S. "I suffered terribly and was often speechless and par-tially paralyzed. One dose of Dr. Agnew's

oasts, 1 in Porto Rico, 30 on the Pacife coast, 40 on the great lakes and 52 m the western rivers. This is an inrease over the corresponding quarter of the previous year of 85 in the numter built and a decrease of 20,395 tons n the gross tonnage.

Violent Storms In Europe.

PARIS, Oct. 8 .- Violent storms are aging along the French coasts, particularly Britanny. Many wreeks are eported in the channel. The harbor of Dunkirk and other northern harsors are crowded with vessels that ave sought refuge. The storm exends even to the Mediterranean, Much lamage has been done by wind and ain at Belfort and at other places inand. Telegraphic and telephonic comnunication has been interrupted. There las also been a sudden fall in temperaure, and the first snows of the seaon are reported from Remiremont, Contarlier and the Vosges mountains.

Secretary Long's Daughter Dead. HINGHAM, Mass., Oct. 5 .- A Meautiful life went out, bringing sorrow to he household of Secretary John D. Long, in the death last night of Helen, is second daughter. The end came alnost sooner than expected, although when the secretary was summoned nome from Washington earlier in the week it was known that his daughter's ondition was critical. Miss Long died of pulmonary trouble, which had its ineption after close attention to the soial duties during Secretary Long's first erm in the cabinet.

A Hazardous Ocean Trip Begun. ATLANTIC CITY, N. J., Oct. 7 .-'aptain William Andrews, the veteran uariner, has left here for Europe in his ourteen foot boat, the Dark Secret. recompanying him on the daring trip s his young bride, whom he wedded a ew weeks ago. The captain is sixty ears old, and this is said to be his sevnth trip across the ocean in small noats. He expects to reach the English hannel in about twelve weeks. In the soat were provisions for four months.

Filipinos Starving.

TACOMA, Wash., Oct. S .- Steamer 16, dvices say the island of Panay, in he Philippines, which has been afected by the plague, is now visited by One hundred and thirty amine. eaths from starvation are reported to gi save occurred at Capiz alone. To precent the spread of the plague Manila aas inaugurated a war against rats, paying 2½ cents for each rodent deilvered to the board of health.

Many Refugees Dying.

BLOEMFONTEIN, Oct. 7 .- There are now 6,500 white persons in the various refugee camps® here, while there are nearly 46,000 in the various camps in the Orange River Colony. These require sixteen railway truckloads of foodstuffs weekly. The weekly death rate averages 220, mostly from measles. Fifty per cent of the victims are children under three years of age. The trains passing north are filled with women and children returning to the Rand.

American After Russian Railways.

ST. PETERSBURG, Oct. 8 .- William A. Heydecker, representing Murry A. Verner of Pittsburg, has presented to the municipal council a memorial offering to take over the entire surface traction of this city and to form a company under Russian law with a capital of 100,000,000 rubles. The lines will be largely extended and electrified. The prospects of a favorable answer are excellent.

RAILROAD NOTES.

PENNSYLVANIA RAILROAD. REDUCED RATES TO WILLIAMSPORT-CARLISLE INDIANS-BUCKNELL FOOTBALL. On account of the football game between the Carlisle Indians and Bucknell College, to he played at Williamsport on Saturday, October 12, the Pennsylvania Railroad Company will sell excursion tickets to Williamsport, good going on October 12 and return-ing until October 14, inclusive, from Bellefonte, Renovo, Elmira, East Bloomsburg, Mt. Carmel, Lykens, Harrisburg, Middlecurg, Coburn, and intermediate stations, at rate of single fare for the round trip (minimum rate, 25 cents.

PHILA, & READING RAILROAD.

CARLISLE INDIANS AT WILLIAMSPORT-SPECIAL LOW RATES-TICKETS GOOD 3 DAYS .- Account Bucknell vs. Carlisle In-dians football game at Williamsport, Saturday, October 12th, the Philadelphia & Reading Railway will sell special excursion tick-ets from Mt. Carmel, Catawissa, Bloomsburg, and intermediate stations, to Williamsport, at the rate of one fare for the round trip, with a minimum of 25c. Tickets will be sold for and good going on all trains Saturday, October 12th, and will be good re-turning until Monday, October 14th, inclu-Sive.

Level means flat, but there's a distinction between level-headed and flat-headed.

Property of Company.

This is very extensive, consisting of four mining properties, each over one mile in length, on a great copper vein over 100 feet in width, pronounced by Copper experts as among the widest and richest copper veins known, lacking only the necessary development to place same in the front rank of the greatest dividend and copper producing properties.

It is on the same great Copper Mineral Belt upon which are located the world's present greatest copper mines, each paying many millions of dollars annually in dividends and developed to the depth of from 1000 to 2000 feet, thus fully establishing the fact that the veins are not alone inexhaustible, but widen and become even more profitable with depth.

The great vein on this property is of such unusual width and so prolific in copper ore from surface that only moderate developments are needed to begin the production of ore on a scale to insure large dividends on the shares of this Company.

The Company is sinking a shaft now nearly too feet in depth on the voin of one of its four properties, the "Pay Roll," This shaft is entirely in ore, which, by tests, gave values four properties, the "Fay Ron," this sum is control in the depth of fifty feet tests gave values of at the surface of from 3 to 4 per cent, copper; at the depth of seventy feet tests gave values of from 12 to 14 per cent in copper, while selected samples show values as high as 12 per cent. copper and nearly \$15 in gold and silver per ton.

The value of the gold per ton will enable the Company to produce copper at very low cost.

As showing that this great vein is not alone of unusual width, but also of rare richness in ore as compared with some of the richest copper mines, we refer to the great "An-aconda Mine," paying over \$5,000,000 annually in dividends from ore averaging less than five per cent in copper; or to the "Boston and Montana" paying over \$6,000,000 annually from ore averaging less than six per cent, in copper; or to the "Great Verde," paying nearly \$5,000,000 annually in dividends from ore averaging less than six per cent. in copper.

To give an approximate idea of the amount of ore and its value, that can be opened by a moderate development in only a small part of such a vein, the following estimates are given : Estimating pay ore vein at only 25 feet in width, depth of shapft, 500 feet, length of 500 feet, would open up 6,250,000 cubic feet of ore, or over Five Hundred Thousand Tons.

Estimating the net Profits at Twenty Dollars per ton, would give total net profits of Ten Million Dollars, or Ten Times the Amount of the Par Value of the entire Capital Stock of the Company, and sufficient to insure dividends to amount of Ten Dollars for each share of the stock. As the length of the vein on this one property, the "Pay Roll," is over onequarter mile in length, and the depto to which is me can be worked many thousands of feet. t will be seen that as a copper investment the shares of this Company offer an unusual op portunity.

The property of the Company is situated in Rio Arriba County, in the northern part of New Mexico (only 40 miles from the southern boundary line of Colorado), convenient to Railroad Station and in a section heavily timbered and one of the healthiest in the United States.

The Company has no debts or mortgages. Its property is free and clear and its management is under able mining experience.

One-quarter of the entire Capital Stock of the Company being 50,000 Shares of the par value of \$250,000 has been placed in the Treasury of this Company as a working capital, of which a limited amount is offered for sale at

\$1.00 PER SHARE Until October 1st, when the price will be advanced to \$1.50 per share.

As there are only 200,000 shares in this Company it will require net earnings of only \$200,000 to pay dividends at rate of \$1.00 yearly upon each share. This will require only a moderate development.

Those wishing to purchase shares can make remittance, by check or otherwise, to

The Keystone Copper Mining Co., Harter Building, 208 Main St., BLOOMSBURG, PEN'A.
