NOW SOME CHEESE IS MADE.

The best quality of Gorgonzola takes two or three years to Ripen.

"Roquefort cheese, like many other unique tood productions, has its legend of accidental origin," says Mary J. Lincoln in The American Kitchen Magazine. "A shepherd lad having for once more luncheon than he could eat, while tending his flock of sneep, laid a large portion of his bread and cheese upon a natural shelf in one of the caverns nearby. Boylike, he forgot all about it, until several months later, on returning to that cavern, he found his luncheon. The cheese, instead of being dried up or rotten, was rich, moist and creamy, and streaked with greenish blue veins of mould, the remains of the bread which had lain on or under it. He probably told his mother of his discovery, and shared his piece of cheese with others. The villagers were quick to recognize the improved texture and quality of the cheese, and henceforth all their cheeses were taken to these caves to ripen. The caves are owned by a joint stock company, who employ about six hundred women to tend the cheese. Oak shelves on which the cheeses are placed and so arranged that each cheese may have one side next the cold wall of the cave, give over sixty-five thousand square yards of storing room.

"The women wear upon their chest a small oil lamp, like a miner's, to enable them to see their work, and the temperature is so cold that they wear thick woolen clothing even in the summer. The value of these caves to this little hamlet is inestimable.

"Gorgonzola, or Strachino, is an Italian cheese resembling Roquefort both in manufacture and quality.

"The hot and cold curds from two interstices, into which mouldy breadcrumbs are introduced, making a green mould called 'pars'ey.' The curd is hung in hempen cloths to ature never exceeds 10 degrees, even university. in summer. After six months it is ready for market, but the finer qualities are hung there for two or even three years. It has the piquancy of the Roquefort, but is not so strong, and costs about ten cents less.

"From the little town of Limburg, in Belgium, the odoriferous cheese known all over the world as Limburger originated, but it is now made in many other parts of Europe and the United States. It is a rich cheese, made with but little heat, and allowed to ripen until actual putrefaction has set in. It is wrapped in tinfoil to hide the offensive odor, which is so unmistakable that this cheese should hobbies has been the extension of would hang well."-Philadelphia Bulnever appear at table unless you are commercial education in American letin. sure all the company can tolerate it. colleges and universities. He was The American Limburger is made with rennet in the usual way; the curd is drained in a perforated box, then salt, parsley, tarragon and onions all mashed to a pulp are mixed with it. It is then put into moulds, grained, and after two days taken to a well aired room, laid on an osier hurdle covered with wheat straw, and left for six or eight days. It is then salted and placed in a cellar on shelves covered with fresh straw. The salting is repeated and the cheese turned fre quently, and at the end of three months the cheese is ripe.

"When in its best condition Limburger is soft and waxy, and to those familiar with its merits it is considered one of the most nourishing and appetizing of the cheese products, and has no stronger nor more decided odor than a properly ripened Brie or Camembert. All of these strong cheeses should be kept at a very low temperature.

"The natural repugnance to these highly odoriterous cheeses may be overcome, as is proved by the popularity of Roquefort and Gorgonzola at the present time, as compared with twenty years ago. Some one who has evidently not yet acquired a liking for all of them, says the "Gorgonzola is a good cheese to swear by and the Limburger a cheese to swear at."

"Holland sends us some of our most valuable and satisfactory varieties, the Edam and Gouda. Occasionally we find the Dutch spice cheeses, which are flavored with cloves and caraway seeds.

"The utmost cleanliness is used in are unrivalled in this respect.

CURED FOR 35 CENTS .- Dr. Agnew's Ointment relieves in one day, and cures tetter, salt rheum, scald head, eczema, Barber's itch, ulcers, blotches, and all eruptions of the skin. It is soothing and quieting and acts like magic in the cure of all baby humors. 35c. Sold by C. A. Kleim.

ton high school, where he remained for two years. He then became principal of the state high school at Normal, Ill., and remained in that position for four years. In 1883 he was called to the university of Pennsylvania.

It was in the University of Pennsylvania that Prof. James' work in economics first attracted attention. milkings are used, and the imperfect He was made professor of public adunion of the two causes minute ministration, and soon he organized the graduate school of the university. He also was director of the Wharton school of finance and economy-the first school of finance and commerce and industry in America. He was edterment, and is slowly cured in caves itor of the Political Economy and near Lake Lecco, where the temper- Public Law Studies, issued by the

> For 13 years Prof. James remained at the head of the University of Pennsylvania public administration department, until it became one of the strongest of any American university. In February, 1896, he was called to the University of Chicago.

> Prof. James is known outside of university life for his active interest in public affairs, as a writer and speaker. He was one of the organizers of the American Economic association, and the organizer of the American academy of political and social science. He was president of the society and editor of its publication for 11 years.

One of Prof. James' educational sent to Europe by the American Bankers' association in 1892 to report on the education of business long time." men in Europe.

HON. JOHN F. DRYDEN.

Chosen to Succeed the Late William J. Sewell as United States Senator from New Jersey.

John Fairfield Dryden, the choice of New Jersey republicans for United States senator, has been the archi-

JOHN FAIRFIELD DRYDEN. Gust Elected United States Senator from

tect of his own fortunes. He is rated as a millionaire and is known throughout the country as the founder and president of the Prudential Life Insurance company, of Newark, N. J., but his wealth and prominence were attained solely through his own efforts and by dint of extraordinary energy, persistthe Dutch dairies, and their products ence and hard work, unaided by speculation. Born on a farm near Farmington, Me., August 7, 1839, his life has been as rugged as the moun-ITCHING, BURNING SKIN DISEASES tains of his native state. His first essay for himself was at Yale, whither he went to fit himself for the bar, but his health gave way under close study and he turned his attention to life insurance, a subject in which he had become greatly interested while at college. He began active operations 27 years ago, with an office staff numbering only three persons and an outfit costing not more than \$200. To-day he has under him is said to have been played for the more than 30,000 persons in all parts of the country. Besides being a man of rare executive ability, Mr. Dryden is a good talker. He lives in a modest way, and it is doubtful if iam, Crown Prince of Germany, in one in ten of his Newark neighbors 1858."-March Ladies' Home Jour- knew until recently what political party he supports.

## BUILD YOURSELF UP

Your Blocd Is Poor and Thin, Your Nerves Weak, You Are Run Down in Kealth.

Take Dr. Greene's Nervura, Best of All Spring Medicines. Most Wonderful Restorative and Strengthener Known to Science--Makes Pure Blood, Strong Nerves, Vigorous Bodies,

Spring finds you with thin, poor, impoverished blood, weak, relaxed, and unstrung nerves. You are without your usual strength, energy, and vim; you feel that you are out of order, without being exactly sick. The cold wind seems to blow clear through you, a storm chills your mar-

row, and you perhaps have rheumatism, neuralgia, biliousness or kidney disease because of your disordered condition. You must take the best medicine to give you renewed strength and vitality, the best blood builder and purifier, the best nerve strengthener and invigorator. Dr. Greene's Nervura blood and nerve remedy is the best medicine in the world to do all this. It purifies and enriches the blood, feeds, strengthens, and invigorates the nerves-in fact, it makes the weak strong, the sick well, and will cure your stomach trouble, your billous-ness, your kidney trouble, rheumatism, or neuralgia.

Dr. Orlanda Kiser, 954 Reese Ave., Lima, Ohio, writes:

"Many years ago I was unfortunate enough to lose my health, and, while endeavoring to regain the same, gradually grew worse, until I became a complete wreck in every respect. My nervous system was entirely shattered, the nerves controlling the heart became weak and the heart's action irregular, which was a source of great alarm to me. I was unable to sleep, digestion was interfered with, and, generally speaking, I considered my time short for this earth. I became discouraged and gave up the thought of ever being a well man again. To-day I am a well man in every sense of the word, and all through the use of Dr. Greene's Nervura blood and nerve remedy, of which I am proud to speak and stand ready to give a helping word to suffering humanity. My health is my greatest blessing, and words fail to express the gratitude I feel for Dr. Greene and his wonderful remedy."

Take Dr. Greene's Nervura blood and nerve remedy now for your spring medicine. This grand remedy has the confidence of the people as no other remedy has because it is the prescription of a regular physician. Dr. Greene, 101 Fifth Avenue. New York City, who has the largest practice and makes the most cures of any physician in the world, and who can be consulted without charge by anybody, personally, or by writing about your case.
