The N. Y. World—Thrice-a-Week Edition.
The Most Widely Read Newspaper in
America.

Time has demonstrated that the
Thrice-a-Week World stands alone
in its class. Other papers have im-
itated its form but not its success.
This is because it tells all the news
all the time and tells it impartially,
whether that news be political or
otherwise. It is, in fact, almost a
daily at the price of a weekly and
you cannot afford to be without it.
Republican and Democrat alike
can read the *Thrice-a-Week World*
with absolute confidence in its
truth.

In addition to news, it publishes
first-class serial stories and other
features suited to the home and
fireside.

The *Thrice-a-Week World's* reg-
ular subscription price is only \$1.00
per year and this pays for 156 pa-
pers. We offer this unequalled
newspaper and THE COLUMBIAN
together for \$1.70.

The regular subscription price of
the two papers is \$2.00.

Silk tassels and pencils for pro-
grams for sale at this office.

longer the days are getting?

gested condition of the channels is
causing the water to run into many
cellars.
The Hess Iron Manufacturing
Company's plant on Iron street
below Sixth has been purchased by
the Beaver Lake Copper Company and
will be transformed into a re-

the brick hotel in Orangeville and
has leased the same to his brother
Lloyd Dietterich. Joseph Turner
who has conducted the hotel for
several years past will vacate on
Monday and the new landlord will
take charge.

State College put up an excellent
article of basket ball in the gym-
nasium Tuesday evening. At the
close of the first half the score was
in their favor 19 to 18, but in the
last half they weakened and Normal
won out handily. There was not
the semblance of an objection raised
at any decision of the officials, which
of course added to the enjoyment of
the game. Score 44 to 28.

Frederick H. Eaton, William H.
Woodin and Sterling W. Dickson
of Berwick will make application to
the Governor on March 21st for the
charter of an intended corporation
to be known as the Berwick Land
and Improvement Company. The

proved, and holding, leasing and
selling the same in such parcels as
may be determined.

The unusual feature of a pastor
proposing that his salary be re-
duced was presented at a congrega-
tional meeting of the First Lutheran
church of Chambersburg, Pa., the
other evening. Rev. Dr. E. H.
Leisenring proposed that because of
the extraordinary demand upon
the treasury during the past year
his salary be fixed at \$1,400
instead of \$1,500. The proposition
did not carry, the rejection of the
plan being emphatic and enthusias-
tic.

The presentation of the drama
"Hazel Kirke" at the Normal Sat-
urday night was an event of more
than ordinary importance, it being
the reunion of the Callepian Society.
The disagreeable weather kept many
people away, but still a good sized
audience was present. Great care
had been exercised in giving the
parts out, and the finished manner
in which the play was given proved
the wisdom of the selections made.
The piece is one of deep heart in-
terest and intensely dramatic. The
climax aroused the enthusiasm of
the audience and recognition of the
work of the performers was made
with good spirit. Unfortunately
there was a great delay in starting
and as a result it was within a few
minutes of midnight when the enter-
tainment was over.

Shakespeare's tragedy "Hamlet,"
Wilson Barrett's arrangement will
be presented by a local cast shortly.
James Koehler, of Fowlersville,
has accepted the readership of the
Bloomsburg *Morning Press* office.
Frank Roys left on Tuesday for
Philadelphia to attend a technical
school. He will take a month or
six week's course in watch making
and hand engraving.

Miss Lulu Girton employed in
the Danville Knitting Mill threw
back her head to give vent to her
irritabilities while joking on Saturday
and her hair caught in the moving
machinery. Her escape from death
was miraculous.

The personal column of certain
papers are receiving considerable
attention from a set of young peo-
ple in town. Beware of answering
personals. Though, after all, if
you're that kind of a person, possi-
bly it doesn't very much matter
what you do.

After suffering for over twenty-
five years, or in fact from infancy,
from what appeared to be an over-
growth in her nose, Mrs. Joseph D.
Parker, of Hughesville, on Thurs-
day, succeeded in dislodging a
cherry seed, which had been there
all that time.

Joseph Pursel has been promoted
from the delivery wagon to a clerk
in the United States Express office
by agent E. P. Williams. This is
a deserving recognition, and Mr.
Pursel is to be congratulated. His
former position is now being filled
by Ira Hassert.

The ladies of the M. E. Church
were most unfortunate with their
supper Friday evening. The
weather was disagreeable and the
walking especially bad. Owing to
these unfavorable circumstances the
supper was continued on Saturday
evening, and was largely attended.

If prices are any criterion, horse
flesh is scarce. The value placed
on the animals at Geo. H. Welli-
ver's sale last Thursday afternoon
was considerably in advance of
that of previous auctions. Price
had little effect, however, as a large
number was sold. The attendance
was very large.

Rev. M. E. McLinn delivered
the opening address at the North
Branch Conference of the Susque-
hanna Synod of the Lutheran
Church, which was held in Zion's
Lutheran Church, Sunbury from
Monday to Wednesday, inclusive.
Clergymen and lay delegates were
present in large numbers.

A general invitation is extended
to the public by the Catawissa
Grange to attend a meeting to be
held in the Catawissa Opera House
Saturday evening. Lee F. Lyborger,
an eloquent speaker has accepted
an invitation to be present and will
address the meeting on "The effect
of our Philippine possessions upon
the American Farmer."

When the brick crossings were
being laid everybody but those who
were doing it said they were too
low. This has been fully demon-
strated by the storm of Friday.
The crossing at J. G. Wells' corner
was covered with slush to the depth
of several inches for two days.
There didn't seem to be any official
whose duty it was to look after it.

Mrs. Elizabeth Rawlings, of
Center Street, while in Philadel-
phia with her mother last week,
had her purse, containing about
fifteen dollars stolen. The purse
was taken from her coat pocket,
while walking with her mother on
Montgomery Avenue. She had
purchased some flowers, and when
she reached for her pocket book to
pay for them it was missing.

A little fellow sauntered down
Center Street about half past seven
Saturday night. His clothes were
torn and his shoes were so badly
worn that his feet protruded.
His condition touched the heart
strings of a member of the "Jolly
American Tramp Co.," and he took
the little fellow up town and pur-
chased a pair of shoes for him.
There is a lesson in this for those
who contend that across the water
is the only place to exercise charity.

The disarrangement of the tele-
graphic service by the storm cut
Philadelphia off from the outside
world for several days. In order
to get news from New York on
Monday it traveled 2700 miles by
wire, though the distance between
the two cities is only 92 miles.
The telegram went by the follow-
ing route: From New York to
Buffalo, thence to Chicago, Louis-
ville, Atlanta, Jacksonville, Wash-
ington, Baltimore, to Wilmington,
27 miles from Philadelphia, the
nearest point with telegraphic ser-
vice to the latter place.

TALK NO. 11.
Adjusting Lenses.
The science of adapting lenses to the sight is a complicated and exacting
one. An optician must be thoroughly conversant with all the laws of light
and physical optics. He must understand the action of mirrors and lenses.
The formation and construction of different kinds of glass and lens material.
He must be familiar with all the intricate workings of the human eye and be
able to detect the slightest flaw in its adjustments. He must take an exact
measurement of every curve and surface. If the eye is stronger in a vertical
than in a horizontal direction he must prescribe and supply a lens that is
strongest horizontally in order to equalize the defect. If a muscle is weak he
must select a lens that will strengthen that particular muscle. I devote especial
attention to this work. I study my science and study my customers. I try
to do a little better each day than I did the day before. See me about your
eyes.
