The two latter items in Liabilities are included in the charges of seated and unseated lands against the Treasurer in the settlement of years 1900 and 1901 and for which he is entitled to credit from the County when the same is paid over to the different Townships and Boroughs.

The foregoing is a statement of the expenditures for the county of Counbla for the year 1901, which is hereby submitted to the Auditors of said County.

NEREMIAH KITCHEN,
WM. KRICKBAUM,
W. H. FISHER,
Commissioners.

Attest:—R. F. VANDERSLICE, Clerk.

Attest:—R. F. VANDERSLICE, Clerk.

We, the undersigned Auditors of Columbia County, being elected to adjust and settle the accounts of the Commissioners and Treasurer of Columbia County do hereby certify that we met at the Court House in Bloomsburg, Pa., on Monday, January 8th 1900, at 10 o'clock a. m. Organized and proceeded to audit the accounts of the above named officers. After examining and correcting the same from January 4th 1901, to January 18t 1902, we do certify them to be correct as above stated.

There having been several bills in the fore going statement to which exceptions were taken, that in our judgment required legal advice, we employed same, and have disposed of them upon his advice.

WM 18th GERT.

Z. A. BUTT, Attest:-R. P. VANDERSLICE, Clerk.

## WASHINGTON.

From our Regular Correspondent. Washington, February 28, 1902.

Republican autocracy with many of its attendant evils has marked the course of events in Washington during the past week and scenes have been enacted in the United States Senate Chamber more disgraceful than any that have violated the dignity of that body since the exciting days immediately before the war. The two Senators from South Carolina, Tillman and McLaurin, have engaged in a personal encounter on the floor of the Senate, Wellington and Mc-Comas of Maryland have indulged in accusations and recriminations which must have ended in violence but for the prompt suppression of the former by the chair and, as if to create a fit ting climax to these deplorable happenings, the president of the Senate, Mr. Frye of Maine, by an assumpof the senators from South Carolina.

As soon as order could be restored after the brawl engaged in by the against our best customer, Great South Carolina senators on last Saturday the Senate went into executive pelled to discriminate against our session and unanimously adjudged the offenders "in contempt." On Monday when the roll was called on an amendment to the Lodge Philippine-bill, it became evident that Senator Frye had erased the names of the South Carolinians from the rolls and an immediate protest was entered by the democrats. Mr. Bailey of Texas appealed in an eloquent speech to the republican majority not to establish such a precedent. By an extremely logical presentation of the law he demonstrated the unconstitutionality of the action of the chair. Pledging the democrats to act with the republicans in imposing any proper punishment on the senators who had violated the dignity of the Senate, he begged the republicans not to violate the constitution and insult the state of South Carolina by disfranchising her. Admitting that by a two-thirds vote the Senate might expell the offenders from membership, because then the governor of their state could send others to take their places and "the sovereign state would not be deprived of her voice in the Senate" he proved that if it lay within the power of the Senate to deprive a state of suffrage for a day it might do it for years and, in fact, the majority could, according to this precedent, declare every member of the minority "in contempt" and so bar every democratic state from voice or vote in the proceedings. Senator Bailey's argument was clear, concise and eloquent but his words fell upon ears speech the chair recognized a motion from Senator Aldrich to proceed with the regular order, the precedent was established and several votes, including the final ballot by which the Lodge bill was passed, were taken without South Carolina's having an

missing names to the Senate rolls around the base of each plant.

opportunity to vote yea or nay.

but expressed the opinion that they would not be permitted to vote. It is feared the matter will not end until a bitter controversy has taken place in the Senate. There is no attempt to palliate the offense of the South Carolina senators, as shown by the readiness to vote for the resolution declaring them in contempt and by the further expression, by several democratic senators, of the hope that, when this controversy is ended, they will both have the good taste to resign; but the blow at the rights of a sovereign state and at the constitution itself is one that the democrats in Congress cannot permit to pass without a struggle. The democrats of both houses are aghast at the length to which the republicans in the Senate have gone. A democratic representative said to me yesterday, "I regard it as an outrage on the people of South Carolina and on the whole

United States." The Senate held very brief sessions on Tuesday and Wednesday, no business being transacted, and it is hoped that the Committee on Rules and Privileges will report tomorrow in favor of some action that will be acceptable to both parties.

The republicans who have been inclined to speak with derision of the alleged lack of harmony in democratic ranks are realizing the position of people who live in glass houses this week for the republican mempers of the House are presenting a sad spectacle in their division over the question of Cuban reciprocity. The republican members of the Ways and Means Committee adopted a resolution tavoring a concession of 20 per cent of the Dingley tariff rates in return for similar concessions from Cuba and determined to submit their decision to a caucus. The caucus met on Tuesday evening and no soon er had Chairman Payne read a bill which he had prepared in accordance with the conclusions arrived at, than half of the members present were on their feet and pandemonium was let loose. A counter bill was presented by Representative Tawney of Minnesota which provided that 20 per cent of the duties collected on imports from Cuba should be paid into the Cuban Treasury, and of that amount, all that had been collected on Cuban sugar and tobacco should ment to the growers of those products. After a bitter controversy caucus adjourned until next Monday

## Helen Keller's Own Story of Her Life.

Helen Keller, the remarkable deaf. dumb and blind girl, who has not only learned to talk, but enjoys every privilege of those who hear and see, has just finished writing with her own hands the story of her remarkable life for The Ladies' Home Journal. In this she describes her first awakening to the realization of life and the world, and all that both contain; her first impressions and feelings and emotions, and the first rays of understanding that came to her. From that point she tells of the unfolding of her mental and physical powers, how she learned to think and act, how she received instruction, and finally became capable of acquiring an education which places her among the best educated women of her age in the world to-day. It is a wonderful story, wonderfully told. It will begin in the April number of The Journal.

## McKinley Postal Cards-

A new postal card known as the McKinley card has just been issued. In the upper right hand corner of the card is a picture of the martyred president produced from a favorite likeness. Around this engraving there that heard not and in the midst of his is the inscription, "Postage one cent" and directly below, "McKinley

## Trim Your Grape Vines-

The trimming of grape vines should be done while the ground is cold. The portions cut away, as well as the refuge around each vine, should be On Tuesday, Senator Frye, evident- burned if there are evidences of rot ly appalled at his work, announced last season. It will also be an adunofficially that he had restored the vantage to scatter air-slacked lime

# WHY MEN GROW WEAK.

## Dr. Greene's Nervura Makes Men Healthy, Strong, Vigorous, Powerful.

'Tis indeed the pace which kills. It is not work which injures, it is overwork, worry, confinement, over-taxing the strength, strain upon nerve and body, dissipation or spring debility, which breaks down the health, weakens the nerves, exhausts the body. You become weak, nervous, restless, or fretful; have dizziness, bad-feeling head and unsteady and trembling nerves, strange sensations, a feeling of anxiety, gloom, and discouragement; you are sleepless, and wake tired and unrefreshed; appetite and digestion fail, and you have kidney and liver complaint, constipation, rheumatism—and finally nervous prostration, heart failure, paralysis, insanity—death.

prostration, heart failure, paralysis, insanity-death.

Now, what is the remedy? Obviously something which will rebuild the shattered nerves, restore tone and vitality to the blood, brain, and nerves, and strengthen and invigorate all the organs of the body. There is nothing else known which will so completely and perfectly do this as Dr. Greene's Nervura blood and nerve The well-known druggist, Charles W.

Eggleston, Esq., 329 Park Ave., Worcester, Mass., says:

Worccster, Mass., says:

"Some time ago I was taken with nervous prostration. I suffered terribly with my nerves and could get no sleep at all. I became fearfully exhausted, my stomach was in a terrible condition from dyspepsia, and I could eat hardly anything.

"I used several medicines, but without benefit. Being in the drug business myself, and having had many customers speak in the highest terms of Dr. Greene's Nervura blood and nerve remedy, I determined to try it. After taking only one-half bottle I began to feel much better. I slept soundly all night, and my appetite was splendid. After taking three bottles, I ate three square meals a day and had not the slightest distress. My nerves were perfectly strong and I felt like a new man, being completely cured of all my troubles. Out of the respect I bear the manufacturers of Dr. Greene's Nervura blood and nerve remedy, and my desire to have the sick and suffering made well and strong. I heartily recommend it to people who are sick, and especially to people who are the same as I was, nervous and inclined toward dyspepsia and indigestion, and suffering from not being able to sleep well at night."

Especially do men grow weak in spring from the change of season, and

Especially do men grow weak in spring from the change of season, and every one needs a spring medicine and should take this best of spring remedies, Dr. Greene's Nervura blood and nerve remedy. It is not a patent medicine, but the prescription of a famous physician, and is therefore exactly adapted to cure. It has standing behind it the most famous and successful specialist in curing nervous, chronic, or lingering diseases, Dr. Greene, 101 Fifth Avenue, New York City, and an added value and assurance of cure is given to this wonderful remedy because the Doctor can be consulted, without charge, about your case, personally or by writing to him. case, personally or by writing to him.

Hens on a Strike-

The egg shortage in many tocalities in Pennsylvania, caused by the continued cold weather, has sent rence. There is also a scarcity of I asked a democratic member of than eighteen cents a pound. This pose that we negotiate a reciprocal burg the price was eighty cents per

Babies and children need proper food, rarely ever medicine. If they do not thrive on their food something is wrong. They need a little help to get their digestive machinery working properly.

# WITH HYPOPHOSPHITES OF LIME & SODA

will generally correct this difficulty.

If you will put from onefourth to half a teaspoonful in baby's bottle three or four times a day you will soon see a marked improvement. For larger children, from half to a teaspoonful, according to age, dissolved in their milk, if you so desire, will very soon show its great nourishing power. If the mother's milk does not nourish the baby, she needs the emulsion. It will show an effect at once both upon mother and child.

30c. and \$1.00, all druggists. SCOTT & BOWNE, Chemists, New York,

remedy, that grandest of medicines, which is restoring the health of the people, recognized at the present day as the master remedy of the world.

Removing Ink Stains from Uloth-

The removal of ink stains is always a problem, because inks are made by so many processes. Soap and water prices to a higher figure than usual at will remove some inks, while strong be returned by the Cuban govern- this season. In many sections the chemicals make little impression on weather has been so cold that hen's others. The sooner the stain is treatfeet have been frozen and the fowls ed the more easily it is removed. which lasted until nearly midnight the never lay for months after this occur- Washing and soaking in cold water, or in sweet or sour milk, will remove poultry in the city where it is impos- the greater part of the ink and fresible to buy dressed towls for less quently the stain. Spots on washable articles should be soaked in milk the Ways and Means Committee if he has also shortened the egg supply, as or water. Rub the spot and change would vote for a 20 per cent reduct farmers are inclined to kill their hens the liquid frequently. After two or tion on reciprocal lines, yesterday, and ship them to market at these three days, if a stain remains, wet it and he said, "No. I regard reciprocity prices. The decrease in the egg with a strong solution of oxalic acid as a chimera invented by James G. supply has caused a great demand on and place it in the sun. After this Blaine to save the protected interests the storage nouses and a consequent rinse very thoroughly .- March Ladies'

The lover of flowers will find it a difficult matter to select from the seedsmen's catalogues for next summer's garden. Every flower mentioned is described so attractively that it will seem as if the garden must be more must be more flowers as if the garden must be more flowers for the Summer of the Summer of the Summer's garden. Every flower mentioned is described so attractively that it will seem as if the garden must be it will seem as if the garden must be sadly incomplete without it. But do not let enthusiasm get the better of your good judgment. Make up your mind to have only as many flowers as you can grow well, and having done this select such kinds as will adapt themselves most readily and most fully to the care you can give them. Do not experiment with "novelties."-EBEN E. REXFORD, in the March Ladies' Home Journal.
