BOSTON'S LABOR WAR.

Preight Handlers and Tenmsters Fighting Two Railroads.

BOSTON, March 12.—The second day of the great strike of organized labor against the demands of railroad and steamship companies that merchandise delivered at freight depots by the R. S. Brine Transportation company be not discriminated against witnessed large additions to the ranks of the strikers. Nearly 6,000 union men were ordered out, bringing the grand total of idle men up to about 16,000, with the prospect that this number will be increased

by several thousand. One of the most important developments was the ordering out of the longshoremen at the docks of the Philadeiphia and Metropolitan Steamship companies, in consequence of which steamers of those lines were compelled to depart with only partial cargoes, while their wharfs are partially filled with the freight which the men refused to handle. Other docks along Atlantic avenue are in similar condition, and

business there is practically tied up. The members of the General Teamsters' union, comprising 1,400 brick, sand, lime and cement teamsters, are also out, which virtually ties up the building trades by depriving them of material with which to work.

The force under General Delarey was almost entirely dressed in British uniforms. This made it impossible for the infantry to distinguish between their own men and the enemy when the mounted troops were driven in on them. The enemy numbered 1,500 men. They had one 15 pounder and a pom-

Between the ages of fifteen and forty-five, the time when womanhood begins and motherhood ends, it is estimated that the aggregate term of woman's suffering is ten years. Ten years out of thirty! One third of the best part of a woman's life sacrificed! Think of the enormous loss of time! But time is not all that is lost. Those years of suffering steal the bloom from the cheeks, the brightness from the eyes, the fairness from the form. They write their record in many a crease and wrinkle. What a boon then to woman, is Dr. Pierce's Favorite Prescription. It promotes perfect regularity, dries up debilitating drains, heals ulceration, cures female weakness, and establishes the delicate womanly organs in vigorous and permanent health.
