The N. Y. World - Thrice-a-Week Edition-Widely Read Newspaper in America.

Time has demonstrated that the Thrice-a- Week World stands alone in its class. Other papers have imitated its form but not its success. This is because it tells all the news all the time and tells it impartially, whether that news be political or otherwise. It is, in fact, almost a daily at the price of a weekly and you cannot afford to be without it.

Republican and Democrat alike can read the Thrice-a- Week Worla with absolute confidence in its

Distance.

There are some people who can read and sew for almost any length of time without becoming tired. They do not have headache or any of the usual symptoms of eye strain. But there distance vision is not good. They find it difficult to read signs distinctly or to recognize people when they meet. This is a defective condition and should receive professional attention without delay. While there seems to be no symptoms of overwork, the eyes are really upon a strain almost constantly. They are not in perfect focus and are compelled to make an extra effort at all times. This effort will eventually injure the eyes and the symptoms and irritation will appear when it is too late. If you find that you do not see at a distance as well as you ought to, I want to see you. I want you to tell me all about your eyes. I will show you glasses that will make your vision clear and will advise you how to care for and preserve your sight. I do not charge for consultation.
