WHAT THEY SAY

Extracts From Various Sources, indicating Democratic Opinion Regarding Questions of the Day.

"We favor an immediate declaration of the nation's purpose to give the Filipinos, first, a staple form of government; second, independence, and, third, protection from outside interference, such as has been given for nearly a century to the republics of Central and South America."

The Democrats of New York had an able and stainless candidate for mayor, yet he was defeated because he was held responsible for Tammany's sins.

Every American soldier who dies or gets killed in the Philippine contest dies a martyr to the greed and avarice of commercial Republicanism in this country.

A Republican paper points to the fact that Mr. Bryan is building a house (not so expensive as the Republican paper reports, but still a good house) as evidence that he is getting "his share of Republican prosperity."

One hundred and twenty-five years after the Declaration of Independence was made by the thirteen colonies against Great Britain and denying the right of Great Britain to tax the colonies without giving them representation, we find the same colonies, now a great power, enforcing the same doctrine upon the Porto Ricans and Philipinos as the British government attempted to fasten upon the colonies one hundred and twenty-five years ago.

The depths of national infamy are sounded by the order of General Bell applying Weyerler's policy of reconcentration in all its details to the Filipinos of Batangas province.

Congressman Hill, of Connecticut, who visited the Philippines last summer, has a poor idea of them as a "stepping-stone" to the Chinese trade.

Baltimore, March 12.—John Kelly, forty-four years old, according to a statement made by his wife and supplemented by a statement written on a sheet of paper by himself and presented to Justice White of the Northern district police station in this city, was suddenly stricken dumb while cursing and blaspheming. The prisoner, when brought before the Justice, laboriously made all his statements in writing.

SICK, WEAK, AILING WIFE

Dr. Greene's Nervura is the Remedy Sure to Make Her Well.

The man who has a sick wife has a great burden upon him, but his burden is light compared to that of his sick wife. She may not be sick abed, but she is ailing all the time; she is weak, nervous, irritable, and tired out.

How quickly will the weight of her burden of disease be lifted if she will use that greatest boon to woman-kind, Dr. Greene's Nervura blood and nerve remedy!

Mrs. James Roake, a well-known lady living at 145 Washington Street, Peckskill, N. Y., says: "About fifteen years ago I was taken very sick. After seven months I got over that, but have never been well since."

Do not fail to try this wonderful Dr. Greene's Nervura blood and nerve remedy. You should specially take it now, for everybody needs at this season this grandest of spring medicines.

Not Resentful. "Don't you resent these cheap jests about the mercenary methods of some politicians?" "Not a bit," answered Senator Sorghum; "not a bit. So long as people are laughing they are all right."

Jenious, Perhaps. Mr. Snappe—I saw Peckman to-day and he was very drunk. Mrs. Snappe—Well, there's some excuse for him. He lost his wife last week.

Prospect of Relief. "Why, I couldn't begin to tell you half the things she has said about you," quoth Mrs. Seldom-Holme, pausing at last for breath.

Life Guards.—The Life Guards are two regiments of cavalry forming part of the British household troops. They are gallant soldiers, and every loyal British heart is proud of them.

Some people are so fond of talking that they don't know the difference between conversation and a monologue.

EAST BENTON.

Operations are suspended at the Pine Creek Oil Co's works, above Register, for the present. Owing to much bad luck in breakage and other hindrances by floods, storms, &c., operations will not be resumed until all proper repairs are consummated.

The streams on both sides of us were rampant during the great flood, but we were too securely bound to terra firma to be moved by the mad torrents.

The condition of the roads is reduced to the point to which there is neither sleighing nor wagoning. In spots the roads are muddy and in other spots full of snow drifts.

Charged With Attempt to Kill. Physician and Farmer Said to Have Shot at Woman in Her Home Through a Window.

Dr. Charles W. Fisher and William Singmaster, residents of Lavelle, a farming town, near Ashland, were arrested Friday and placed under heavy bonds to answer at court to a charge of attempted murder preferred by Stephen Heivert, who alleges that the defendants attempted to assassinate him and his wife last Wednesday evening.

The principal witness against the defendants was Heivert. It is said that bad blood has existed between himself and Dr. Fisher for some months past. They are neighbors. On Wednesday evening, as Fisher and Singmaster were passing Heivert's home, it is alleged that one of them drew a revolver and fired through the window at Mrs. Heivert, who was sitting at a table reading.

Her husband, thinking she was dead, ran out and saw Fisher and Singmaster passing the house. He accused them of killing his wife, when Singmaster turned and fired two shots at him. He claims that Dr. Fisher also fired at him twice, but he was not hit.

Heivert hurried into the house and found that his wife had revived. She has since been in a highly nervous and hysterical condition. The bullet that so nearly cost her her life was found imbedded in the framework of the door on the opposite side of the room from which it entered.

Neither Fisher nor Singmaster denied the shooting. Singmaster said that it was Fisher who fired the shot through the window. Fisher said that he fired at a dog and the bullet glanced through the window.

Dr. Fisher is a physician engaged by the borough of Ashland, and had charge of the small box hospital maintained there during the past summer.

Numerous reverses and ill health combined to reduce the spirits of William Umstead of Washingtonville to such an extent that he decided to kill himself on Friday. Unbeknown to any one he entered the office of Dr. Hoffa who resides near by and securing some tablets of what he supposed was morphine, he dissolved them in water and administered the dose hypodermically.

Spring will no doubt see a big rush to the gold fields. Millionaires have been made in a single day as the result of some recent big finds. From a claim that was about to be abandoned, one man took out \$150,000 in eight hours. Many other rich discoveries have been made.

All Ready For Baby.

The young mother thinks, when she has completed the baby garments that are to clothe the little form. But she is not all ready for baby's coming, unless she has done something more for the baby than merely to prepare his clothes.

Sick and ailing women are invited to consult Dr. Pierce by letter absolutely without fee or charge. As chief consulting physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., Dr. R. V. Pierce, assisted by his staff of nearly a score of physicians, has in the past thirty years and over treated and cured more than half a million sick and suffering women.

Hoped for Death.

"For the sake of poor suffering women, I feel it my duty to inform you of the great benefit your medicine has given me." writes Mrs. P. S. Douglas, of Mansville, Bromo Co., Quebec.

Very Thankful.

"I will be very glad to say a few words for Dr. Pierce's Favorite Prescription," writes Mrs. P. S. Douglas, of Mansville, Bromo Co., Quebec.

Now Look Out!

"Take care of yourself," say our friends. "I'll try to," we answer. We do take a little care, yet in spite of warm clothes, rubbers and mackintoshes, an army of people were bowled out by pneumonia and other lung and chest diseases last winter.

Blasphemer Stricken Dumb.

Equalizing Things.
