

CUBAN RECIPROCITY

House Republicans Hold Prolonged Caucus.

MANY SPEECHES FOR AND AGAINST.

Exhaustive Argument by Long of Kansas in Favor of a Twenty Per Cent Concession—Strong Opposition is Developed.

WASHINGTON, March 12.—About 130 members were present at the fourth conference of house Republicans called to consider the question of Cuban reciprocity.

Representative Cannon (Ill.) presided, and an arrangement was made for a division of the time between the advocates and opponents of reciprocity.

He argued that the maintenance of a protective tariff was not involved in the proposition of the ways and means committee, but that the policy of reciprocity was, "The defeat of this bill," said he, "means that the Republican party has refused to follow the leadership of Blaine, of McKinley and of Roosevelt, and it would mean that reciprocity was no longer a part of the Republican faith."

He pointed out that the Republican platform of 1896 referred to the repeal of the reciprocity agreements under the McKinley law as a national calamity and demanded their renewal and extension.

"If this legislation fail and no concession be made to Cuba, if the policy of President McKinley and President Roosevelt be defeated by this house, it does not mean that the beet sugar industry, by the control of this house, can prevent free sugar from Cuba.

When Mr. Long finished speaking, Mr. Taylor (O.) presented a protest against the plan of the ways and means committee. The protest was drafted at the conference which the Republicans opposed to reciprocity held Sunday night.

Mr. William Alden Smith (Mich.) made a rousing speech of over an hour against reciprocity, eliciting frequent applause from his supporters.

At 11:40 Speaker Henderson moved an adjournment until next Tuesday, and Littlefield (Me.) moved to amend and strike out "Tuesday," which would have caused a sine die adjournment, but his amendment was lost by a vote of 61 to 79.

WASHINGTON, March 11.—The bill to classify the rural free delivery service and place the carriers under the contract system, which had been debated in the house for over a week, was passed yesterday, but in a form that completely changed the purpose for which it was framed.

ST. JOHN'S, N. F., March 12.—The sealers' strike here is ended, and the sealing steamers have sailed for the ice floes.

DEMOCRATIC REPRESENTATION

The Meaning of the Rule Followed by Chairman Cressy in Determining Number of Delegates.

Harrisburg Star-Independent. Whatever else the Philadelphia Democrats may justly claim, their demand for 60 seats in the next state convention is absurd.

The language of the rule is clear and unequivocal. "The representation in Democratic state conventions shall consist of representative delegates, one for each 1,000, or a majority fraction of 1,000, of the average vote cast for the Democratic candidates for state office at the last preceding state election in the respective representative districts of the state; provided, that each representative district shall have at least one delegate."

Besides, the intent of those who made the rule in question, was that it should produce the precise results that have followed. That is, it was observed that once in four years the Democrats of Philadelphia humped themselves, so to speak, and got out a fairly full vote in order to get big representation in the state conventions.

The lawyer upon whose opinion the decision of Chairman Cressy is predicted is known throughout the state and at the bar of the supreme court of the United States as among the most distinguished and capable lawyers in the United States.

When Mr. Long finished speaking, Mr. Taylor (O.) presented a protest against the plan of the ways and means committee. The protest was drafted at the conference which the Republicans opposed to reciprocity held Sunday night.

Even Republicans who opposed the free coinage of silver on the grounds that it would give us too much money are now willing to concede that by increasing the volume of money in the past five years nearly six hundred millions dollars, the country is experiencing much better times.

Colonel James M. Guffey, member of the national Democratic committee for Pennsylvania, has no choice among the several fit and available gentlemen who are recognized as party leaders, for the nomination of his party for governor, according to an esteemed Philadelphia contemporary.

There are less influential people in the Democratic party of Pennsylvania who take a different view of the question, however. Every now and then we hear of a proposed conference in Washington, or Philadelphia, or this town, or somewhere else, of alleged Democratic leaders, for the purpose of selecting a candidate for governor.

Colonel Guffey's attitude is infinitely the better and fitter. The Democrats of Pennsylvania will not endure bossism. They believe in the liberty of speech, conscience and action. They are well informed, both with respect to measures and men and will select their own candidate for governor.

APT IN OPTICAL WORK.

Women Are Said to Have a Peculiar Faculty for Conserving the Eyesight.

One of the professions that seem admirably suited to women is that of the optician, and many have entered that field of endeavor and are winning success purely on the ground of merit.

Professors of optics frequently prefer women as assistants because of their accuracy and discrimination, things which are absolutely essential in the measurement and fitting of spectacle frames and the fitting of glasses to the eye.

Many of the various schools for instruction in optical science now admit women on equal terms with men. Professors and teachers are coming to regard women opticians with favor, finding that in nearly every case they are careful and conscientious.

12 Minutes for Lunch. That is the average time spent in a large city restaurant by three thousand lunchers. It takes three hours to digest a fresh egg soft boiled; three hours to digest a boiled apple dumpling; three hours to digest fresh roast beef. In fact, three hours is about the time required to digest the average twelve minute lunch.
