SOFT COAL TROUBLES

Grievances of Miners Before Executive Board of Union.

WEST VIRGINIA SITUATION OMINOUS

Action of the Conference Kept i Secret, but It Is Quite Likely That a Strike Will Be Ordered.

INDIANAPOL18, April 9.- The trouble in the block coalfields of this state. where 2,500 men are on strike, has been called to the attention of the national executive board of the United Mine Workers' association, and the afternoon was spent in going over the situation there.

Negotiations have not been entirely broken off, it is understood, to effect a reconciliation before the national board takes any action.

It was decided to appoint a committee of two of the board members to act in concert with the district officers to arrange a settlement of the difficulty with the operators.

In case the operators do not yield to the demands of the men it is likely the strikers will be upheld and preparations made to wage a vigorous fight.

The West Virginia situation was taken up, although it had been set as a special order for today. The district president and several local officers of the field arrived yesterday and were heard. The utmost secrecy was maintained in regard to what action was taken, but it would not be surprising if a strike order is issued within a few days.

The miners, it is well known, have for two years tried hard to organize the district and force the operators to recognize the union. Their efforts have been resisted by the officers of the mining companies, who have always refused to treat with the union.

An order to strike would affect between 20,000 and 25,000 men, it is said. The situation in the anthracite field has not yet been taken up.

TWELVE HOTELS BURNED.

Atlantic City Visited by a Fierce Confingration.

ATLANTIC CITY, N. J., April 4 .-Twelve hotels and more than a score of small buildings adjoining the board walk which is built along the ocean edge have been destroyed by a fire which swept the beach front for two long blocks from Illinois avenue to New York avenue. The loss, it is believed, will exceed \$1,000,000. In this respect the conflagration is the most disastrous that has ever visited this city. The loss will be only partly covered by insurance, as the rate of 5 per cent charged by insurance companies on property here is regarded as almost prohibitive.

Fortunately no lives were sacrificed, though probably a dozen persons were slightly injured and burned during the progress of the fire. It was reported early in the afternoon that six men had perished in the flames, but the rumor

CECIL RHODES' WILL.

Scholarships For Americans and Germans as Well as British. LONDON, April 5 .- The will of Cecil

Rhodes provides for the establishment of colonial scholarships and two American scholarships to each of the present states and territories of the United States.

The will of Mr. Rhodes also provides for five scholarships for students of German birth at Oxford to be nominated by Emperor William, and, commenting on the bequest, Mr. Rhodes in a codicil, telegraphed from South Africa, said:

"For a good understanding between England, Germany and the United

States will secure the peace of the world, and educational relations form the strongest tie."

All the Rhodes scholarships-American, colonial and German-are at Oxford

Mr. Rhodes' will is a remarkable and voluminous document of more than 3,500 words. Even this is not the entire will, as the executors gave out only the portions which they consider to be of public interest. It was executed in 1896. There is a codicil attached on the day of the deceased's last departure from England, and another cabled from Cape Town leaves £4,000 yearly to keep up the spot in the Matoppo hills where his remains are to be buried.

The will further directs that a railroad extension be made into the Matoppo hills, so that visitors may go there at the week end to inspect the majesty and glory of their surroundings

Mr. Rhodes explicitly says he is to be buried in an aperature cut in solid rock, surmounted by a brass tablet bearing the words:

"Here lie the remains of Cecil John Rhodes."

No one else is to be buried there who has not deserved well of his country.

WASHINGTON.

From our Regular Correspondent. Washington, April 4, 1902.

For eight days, not counting the four days recess beginning last Thursday, the Senate has discussed the anti-oleomargarine bill which comes to a vote this afternoon. The amendment of Senator Harris of Kansas, which includes in the provisions of the bill "renovated butter" and all similar butter substitutes, has been accepted by Senator Proctor and will probably be adopted by the Senate. It is regarded as very probable, however, that it will be stricken out by the conference committee. It was freely whispered when this bill was up for consideration in the House, that the power which secured its passage was an organization of renovated butter manufacturers who desired to drive the oleomargarine manufacturers out of business. An amendment which included renovated butter, but which was patently unconstitutional, was accepted by the House leaders but was stricken out by the Senate committee. Those senators who are posing as the triends of the farmer dare not vote against Senator Harris' amendment, as to do so would be a clear violation of the interests of the farmers, but they have it in their power to instruct the Senate conferees to yield to the wishes of the House committee and strike out the amendment in conference, and there are many who believe that they will do so.

Through the efforts of Senator Penrose, the Chinese exclusion bill has been made the regular order following the oteomargarine bill and Senator Lodge is patiently waiting the consideration of the Philippine government bill which will probably follow and which will be attended with prolonged debate. The democrats have presented their views in regard to the future of the islands in minority report which provides for the establishment of peace and the negotiation, by the United States, of treaties with foreign powers which shall insure to the islands freedom from foreign intervention.

After passing the Army Appropriation bill the House of Representatives took up the Sundry Civil bill which was passed yesterday, almost without amendment. The Senate bill for the improvement of the Revenue Cutter Service is now the unfinished business.

On Monday, by a vote of II to 5. the Ways and Means Committee adopted the bill authorizing the President to grant 20 per cent reciproca reduction of tariff to Cuba. Repre

BRITISH CRUELTY CHARGED.

General Delarcy Alleges III Treatment of Boer Women.

AMSTERDAM, April 8.-General Delarey in a message to President Kruger accuses the British soldiers of placing Boer women as a screen against his attacks.

He charges that a number of Boer women have been killed. His own wife, he asserts, was persecuted by General Methnen, whom he defeated and captured on March 7 last. She is now wandering somewhere about the veldt with her six children. His mother, he says, has been driven from Klerksdorp after being robbed of her cattle.

General Delarey mentions many specific cases of women and prisoners who were murdered.

General Delarey sends the affidavits of Ignatius Ferreira, acting secretary of state, and Attorney Lichtenburg in support of the charges.

Thousands Get Higher Wages.

BOSTON, April S .- A general advance of about 10 per cent in wages of the cotton mill operatives in the southern half of New England has gone into effect in practically every mill town in the territory named with the exception of Fall River, where the increase was given last month. About 50,000 employees have begun to earn higher wages, and, added to some 27,000 in Fall River, more than 75,000 hands, or nearly half the entire mill force in New England, have already shared in the present change in pay schedules.

Rhodes' Remains at Bulawayo.

BULAWAYO, Matabeleland, April 9, -The functed train conveying the body of Cecil Rhodes, which left Cape Town April 3, has arrived here. The town was draped in mourning, and practically the entire population assembled at the railroad station and accompanied the coffin to the drill hall, where It is now lying in state. Masses of wreaths and other floral emblems are banked about the bier.

sentative Tawney placed the reput lican leaders in a most disagreeabl position by offering an amendmen removing the differential tariff from refined sugar. As is well known, th differential furnishes the major po tion of the enormous profits of th Sugar Trust and its removal woul not only benefit the consumers b reducing the cost of sugar, but would to some extent, dissipate the powe of that octopus,-a power freely use to the detriment of the beet suga producers. Facing the alternative of voting contrary to the interests of th consumers and the beet sugar producers on the one hand, and of votin against their friend, the Trust, on th other, the republicans were sore perplexed but Chairman Payne can to their rescue and, without rhyme reason, decided that the amendment was not in order. A similar rulin will probably save the members the House when the bill comes up for consideration there, as Mr. Tawne will again present his amendment.
