

INJUNCTION ISSUED. AN ANARCHIST PLOT

Petition Against Beef Trust Is Granted.

LITTLE OPPOSITION IN COURT.

Judge Grosscup's Order Is So Wide In Scope Packers If Persistent May Be Taken Into Court For Contempt.

CHICAGO, May 21.—The temporary injunction asked for by the government against the members of the so-called packers' combine is now in force. It was issued last evening by Judge Peter S. Grosscup after the close of arguments in the United States circuit court room. The order gives the relief prayed for in the bill filed by District Attorney Betha on May 10. It is so wide in its scope that if the packers or their agents continue with their present alleged uniform arrangements they will be taken into court on contempt proceedings, and the burden of the proof will be on them to show that they have not violated the order in any particular.

Little opposition was raised against the government's petition. Attorney John S. Miller, who was the sole representative of the packers present, pointed out some objectionable clauses in the draft of an order presented by Mr. Betha. These concerned the alleged agreements for credit, blacklisting and cartage. Judge Grosscup thought some of these minor clauses had been made too prominent, and he himself drew a form of order that pleased both sides. At the same time the order was entered numerous affidavits and other exhibits were filed for the government.

The courtroom was crowded as it has seldom been before. General Counsel Miller sat alone to represent the defendants, though there were many office employees of the packers among the spectators. For the government District Attorney Betha was the leader and was aided by Solicitor General J. K. Richards and Special Counsel Day of Washington and Assistant District Attorneys Morrison, Pugin and Davis. There were also present District Attorney Worthington of Springfield and District Attorney Keeler of Indianapolis.

Unless the defendants decide to make a fight at an early date in an effort to have the order set aside they will have until Aug. 4 to make reply to the complaint. Attorney Miller said that he could not tell whether a demurrer, a plea or an answer will be filed, though the first named is the most likely to be the form of the packers' defense. The subpoenas served recently on the defendants commanded them to file their appearances separately before July 7.

A MINE DISASTER.

Only One Out of About Two Hundred Survives Explosion.

KNOXVILLE, Tenn., May 20.—Information just received from Coal Creek, Tenn., where the terrible explosion of gas occurred, says the rescue party has entered the Fraterville mine. Every man within it is dead. The list of dead will reach between 175 and 225.

Out of the large number of men and boys who went to work yesterday morning developments show that only one is alive, and he is so badly injured that he cannot live. This man was William Morgan, an aged Englishman, who was a road man in the mine and was blown out of the entrance by the force of the explosion. One hundred and seventy-five miners were checked in for work by the mine boss. In addition to these were boys who acted as helpers and drivers, road men and others to the number of perhaps fifty.

The men had not been at work long before the terrible explosion occurred. All day long the rescuers toiled at the slate obstruction, and not until 5 o'clock in the evening did they force an entrance through it. Up to that hour only five dead bodies had been recovered, and hope was still high that many within were safe. The hopes of the living were doomed, however, for when once the rescuers could enter and proceed they walked through a continuous tomb of death. There was not a sign of life. Every man had perished, they believed, although all the rooms have not as yet been entered.

Creed Revisionists Victorious.

NEW YORK, May 16.—That element of the Presbyterian church which calls itself liberal on the subject of creed revision achieved what its adherents considered a notable victory in the first skirmish of the general assembly which convened at the Fifth Avenue Presbyterian church by electing as moderator of the body for the coming year the Rev. Dr. Henry Van Dyke of Princeton, N. J., acting pastor of the Brick church of this city.

Six Lives Lost in a Storm.

CINCINNATI, O., May 21.—A terrific wind and rain storm, accompanied by a waterspout, swept over this locality yesterday, causing the loss of six lives and injuring many others. The fury of the storm continued only thirty minutes, but the damage wrought in that time will amount to more than \$1,000,000 in the business section of Cincinnati and as much more in other parts of the city and its suburbs.

A Hundred Horses Burned.

MILWAUKEE, Wis., May 19.—One hundred and two thoroughbred horses were killed by the burning of the Andrew Uehlein stock farm near Racine. Mr. Uehlein is a prominent business man here and has raised fine breeds of horses at his country place. The fire was caused by lightning.

Plan to Kill Spain's King Proves a Failure.

SIX CONSPIRATORS UNDER ARREST.

Particulars of the Assassination of Alfonso XIII. to the Throne—Imposing Military Paces—Young Ruler Takes Solemn Oath.

MADRID, May 19.—An anarchist plot against King Alfonso has been discovered, and six arrests in the matter, including that of Gabriel Lopez, an employee of an insurance company, have been made. Dynamite cartridges were found on the premises where Lopez was arrested. Lopez says he received a package of cartridges from another anarchist, with instructions to throw them at the moment of the passage of the royal carriage in Saturday's procession.

A pretty incident occurred while the royal procession was passing through the streets of the city. After the royal coach left the chamber of deputies a group of young girls approached the carriage, and one of them offered a bouquet of roses and carnations to his majesty, while her companions released a number of doves. Several of the birds flew to the royal coach, and one of them was caught by the king. His majesty accepted the bouquet and warmly thanked the donors.

A special bullfight in which eight bulls appeared was held in the afternoon at the Puerto del Sol. No fewer than fifteen bullfights are to take place in connection with the festivities, and over 100 bulls are to be killed. Free dinners were given to 3,000 poor persons. This charity will be repeated daily until May 24. Fifty thousand pesetas have been distributed to the poor, and small sums will be deposited in savings banks in the names of all children born Saturday, May 17, the day the king took the oath. Altogether gifts amounting to 200,000 pesetas will be distributed.

King Alfonso attained his majority Saturday and became king in fact as well as in name, having reached the age of sixteen, prescribed by the constitution.

The royal procession was formed on the Plaza de Armas in front of the palace shortly before 2 p. m. and proceeded to the chamber of deputies, where, in the presence of the senators and deputies, the king took the oath to uphold the constitution.

The House of Representatives is now considering the Naval Appropriation which it is believed will occupy the remainder of the week. It has been practically decided, though not yet officially announced, that nothing will be done during this session with the Crumpacker resolution, which provides for a Congressional investigation of election methods in the Southern states with a view to reducing the representation of those states in which negroes have been disfranchised. The resolution will be permitted to remain on the calendar, however, for action at the short session. Judge Crumpacker is indignant at the treatment he has received but like other insubordinate republicans he can do nothing but make the best of his discomfiture.

The President has finally listened to the blandishments, or the threats, of Senator Hanna and has consented

BIG STRIKE VOTED.

Mine Workers Will Fight Operators to the Bitter End.

HAZLETON, Pa., May 16.—The anthracite mine workers in convention have decided to continue the strike of the 145,000 men against the mine owners and to fight it out to the bitter end. The matter of calling out the engineers, firemen and pump runners will be decided by the delegates today. The vote to continue the suspension was as follows: Total vote cast, 811; for strike, 461 1/2; against strike, 349 1/2; majority for strike, 111 1/2. President Mitchell, however, in compliance with the rules of the United Mine Workers, announced to the public that the action of the convention was unanimous.

President Mitchell's advice to the miners was peace, and he gave it to them in the plainest and most forceful of language. He was ably assisted by President Fuhy and Secretary Hartlin of the lower district and Secretary Dempsey of the upper territory. President Nicholls of the First district was the great champion of the strike advocates. Mr. Mitchell, who was the last to speak, was listened to with the greatest attention.

A Cathedral For Manila.

NEW YORK, May 16.—The Rev. Dr. Brent, Protestant Episcopal bishop of the Philippines, who sails for his post tomorrow, telegraphed from Boston that \$100,000 had been given him to be used in building a cathedral, school and bishop's house in Manila. The name of the giver is withheld. The land upon which the buildings are to stand is already owned by the Episcopal board of missions. Apart from this gift and the land there has been raised a considerable endowment fund for the support of the episcopate, the Church club of New York alone contributing \$16,000.

General Funston Ill.

DENVER, May 20.—General Funston is confined to his bed by an attack of remittent malarial fever. His temperature rose to 103 1/2, but subsequently dropped to 101. His illness is not regarded as serious.

WASHINGTON.

From our Regular Correspondent.

Washington, May 19, 1902.

The debate on the Philippine bill is at last drawing to a close and, while there are still a number of Senators who wish to speak on the subject, the end is regarded as in sight. Senator Rawlins, who is senior democrat on the Philippine Committee, told me yesterday that there would be no filibustering on the part of the democrats and that all the sensational stories to that effect had emanated from unreliable sources as such tactics had never been contemplated by the party leaders. When one or two more democratic senators have expressed their views on the policy of the administration, the minority will make an effort to secure the amendment of the bill along lines calculated to curtail the autocratic power conferred on the Philippine Commission and to reserve to the Filipinos a larger share of the special rights and privileges of their country. The mining law, which was drawn up by a sub-committee of which Senator Rawlins was chairman, is satisfactory to all concerned. The land laws, the minority hopes to amend by substituting the homestead laws of the United States with a reduction of the amount of land granted to each individual to probably, forty acres, and they will contend for the greatest possible reduction of the amount of land which the commission will be empowered to lease or sell to corporations. It is also hoped that the judicial provisions regarding the right of appeal to the Supreme Court of the United States and to accord to the Filipinos the right of trial by jury. "If cases are to be tried by Filipino judges it certainly seems reasonable to assume that Filipinos would be competent to serve as jurors," said Senator Rawlins, speaking of this phase of the bill.

It is now thought that the question of Cuban reciprocity will take precedence of the Nicaraguan Canal bill, following immediately after the Philippine bill. Nothing so far disclosed by the investigation of the Committee on Relations with Cuba has shown any ground for the belief that the Sugar Trust will be benefited by reciprocity and the republican leaders are confident that there will not be serious opposition to the bill which the committee will report. While the leaders are non-committal on the subject of the isthmian canal bill it is manifest that there is a decided disposition on the part of certain republican senators to avoid all canal legislation. They fear the effect of a large appropriation, which such legislation would entail, on the Fall elections and particularly is this true of the Western senators who have been unable to secure any action in the House on the irrigation bill.

The House of Representatives is now considering the Naval Appropriation which it is believed will occupy the remainder of the week. It has been practically decided, though not yet officially announced, that nothing will be done during this session with the Crumpacker resolution, which provides for a Congressional investigation of election methods in the Southern states with a view to reducing the representation of those states in which negroes have been disfranchised. The resolution will be permitted to remain on the calendar, however, for action at the short session. Judge Crumpacker is indignant at the treatment he has received but like other insubordinate republicans he can do nothing but make the best of his discomfiture.

The President has finally listened to the blandishments, or the threats, of Senator Hanna and has consented

to order a new trial of the defaulter, Rathbone. One Washington correspondent declares that Senator Hanna said to him that he would raise a scandal in regard to the expense account of General Wood which would bring a storm about the ears of the administration, if his demands in regard to Rathbone were not heeded. Whether Rathbone's acquittal is accomplished or not, Senator Hanna, by his steadfast friendship to Rathbone, has won the admiration of that element of his party which always tries to have a friend at court to protect them from the strong arm of the law. The Cuban Supreme Court will review Rathbone's case and from now on Mr. Hanna's energies will probably be directed toward Havana.

Dr. Eugene F. Ware yesterday assumed the duties of Pension Commissioner, vice H. Clay Evans, but it was not with any great complacency that Dr. Ware entered upon his arduous labors. Before going to the Pension Office he had a long conference with Mr. Roosevelt during which the latter enjoined upon him the necessity of carrying out the policy of his predecessor. As there are at least 25,000 cases which were rejected by Mr. Evans and which will doubtless be renewed before Dr. Ware, and as the rejection of these cases formed the chief ground of complaint which the G. A. R. had against Evans, the Doctor feels that the President has practically instructed him to commit official suicide. If he follows to the letter, as Mr. Roosevelt wishes him to do, the policy of Mr. Evans and administers his office with the same strict regard for the law the G. A. R. will be equally dissatisfied with his services and will be soon organizing a movement looking to his dismissal. The politicians say that Mr. Roosevelt is committing his own political suicide by giving such instructions as the G. A. R. will oppose his election even if they do not prevent his nomination.

RAILROAD TIME TABLE. LACKAWANNA RAILROAD. BLOOMSBURG DIVISION. Includes departure and arrival times for various stations like Scranton, Pittston, and Harrisburg.

It was a surprise to many who were present when Senator Bailey urged the adoption of his resolution providing for an investigation of the constitutional right of the President to appoint special ambassadors to the court of Edward VII and the young Alfonso, to hear Senators Lodge and Spooner admit that they believed the President had exceeded his rights, and there were many republican senators who by nods of approval appeared to agree with them. Mr. Roosevelt himself is said to be sorely chagrined at the action of his chief supporters in the Senate whom he believes should have stood by him whether he was right or wrong. There is no great likelihood that the resolution of the Texas Senator will be adopted but the assent to the correctness of Mr. Bailey's proposition by such men as Lodge and Spooner is a source of mortification to Mr. Roosevelt.
