

A CITY'S WELCOME.

Visiting Frenchmen Given the Freedom of New York.

AN IMPOSING MILITARY DISPLAY.

Rochambeau Mission Visited West Point Earlier in the Day—A Banquet at the Waldorf-Astoria in the Evening.

NEW YORK, May 28.—New York's official welcome was extended yesterday afternoon to the distinguished visitors sent across the ocean to aid in the ceremonies of unveiling the Rochambeau monument at Washington.

There was nothing lacking to make the occasion enjoyable for hosts and guests but the weather, which had been unpromising all day.

When the party returned to the city from a visit to West Point, they were escorted by soldiers and sailors of two countries from the Battery to city hall, where Mayor Low read an address of welcome.

M. Cambon responded for the commission, expressing the appreciation of its members for their reception and making a few remarks complimentary to the city.

The assembly then adjourned to the governor's room, where the line was formed to proceed to the carriages.

The order of the first division of the parade was as follows: General Roe and staff, French band and 200 French marines from the Gambia, 200 American marines, forty carriages, Squadron A and band, Troop C of Brooklyn, the Twenty-third regiment of engineers, the Thirteenth regiment of heavy artillery, the First and Third batteries.

The second division of the parade, composed of the Second brigade and made up of the Fourteenth, Twenty-third and Forty-seventh regiments of Brooklyn and the Seventeenth company of Flushing, was next.

The French delegates at the dedication of the Rochambeau memorial were the guests of honor last night at a banquet given at the Waldorf-Astoria hotel by members of the Order of the Cincinnati in commemoration of the victories of the American and French forces in the war of independence and of the institution of the order.

The scene was one of great brilliancy, all the military and naval officers appearing in full uniform and the diplomats and members of the order wearing their official ribbons and decorations.

A DISTRESSING ACCIDENT.

Three Killed and Many Injured by a Bridge Crash.

NEW YORK, May 28.—Three persons were killed and more than a dozen injured by a bridge collapse here yesterday afternoon.

The accident happened while thousands lined Fifth avenue watching the parade in honor of the French mission that was officially welcomed to the city.

The visit to West Point. WEST POINT, May 28.—Count de Rochambeau and party reached the United States Military academy here with the rain falling in torrents.

NEW YORK, May 28.—Supreme Justice George P. Andrews died at his home in this city at 2:15 o'clock this morning in his sixty-sixth year.

Justice Andrews suffered a stroke of apoplexy a week ago. Pneumonia developed and was the immediate cause of his death.

PALMA'S MESSAGE.

Great Gratitude Expressed to the United States.

HAVANA, May 28.—President Palma's message was published here last night and will be delivered to the Cuban senate today.

The message opens by giving thanks to the Almighty for his assistance in carrying out the work of obtaining Cuban independence and asks divine aid in the establishment of a firm and stable government.

"Never did a people fight with more perseverance," says President Palma in the message, "and sacrifice more for liberty than have the Cubans. No people, therefore, are more entitled to see their just efforts crowned with success."

"Impelled by this sentiment, the powerful republic of the north recognizes, through its illustrious president, the republic of Cuba. The promise formally made has been carried out. In this moment when we feel our right as an independent nation it is impossible to suppress our gratitude to the United States."

"While the question of reciprocity is still pending," the message goes on, "it is impossible to state now what measures should be adopted to meet the pending crisis. This crisis is due to the ruinous price of sugar caused by excess production of beet sugar in Europe. An immediate remedy would be the reduction of the American tariff on sugar, to obtain which the executive will at once devote his efforts and will negotiate a treaty in order to obtain benefits for the Cuban sugar producers."

ALL FOR HANNA.

Ohio Republicans in Convention Honor the Senator.

CLEVELAND, O., May 28.—The feature of the Republican state convention here yesterday was the unanimity of sentiment in favor of Senator Hanna.

His friends had claimed eighteen out of the twenty-one districts and more than realized their expectations. Interest centered in the selection of state committee men, as the new state central committee selected will have control next year when members of the legislature are elected who will choose the successor to Hanna in the senate.

Above the platform were suspended large portraits of McKinley and Roosevelt. Secretary of State Laylin, who will be renominated today to head the state ticket, and other state officers and leaders were seated on the platform.

Judge Seymour Too Outspoken.

ST. JOHN'S, N. F., May 28.—Owing to reports published in Canadian newspapers that District Judge Seymour in a speech at a dinner in Toronto last week had declared himself in favor of the confederation of Newfoundland with Canada the Newfoundland cabinet has recalled Judge Seymour, who was on leave of absence.

WASHINGTON.

From our Regular Correspondent. Washington, May 26, 1902.

The debate on the Philippine bill, which still occupies the attention of the Senate, was marked by a very able speech by Senator Bacon of Georgia on Tuesday in the course of which the Senator compared the concentration camps in the Philippines with those established by Weyler in Cuba.

It is safe to assume that the Philip pine bill will be followed by the Nicaraguan Canal bill and that, in turn, by the Cuban reciprocity bill. Were there harmony in the republican ranks the Cuban bill would be next considered as that is the wish of the President and the republican leaders, but the insurgent beet sugar senators are still firm in their opposition and in the hope that the approaching heated period and the pressure from the House for adjournment will break their resistance.

The Committee on Interstate Commerce recently gave a hearing on the bill introduced by Representative William Sulzer of New York providing for the establishment of a Department of Commerce which was offered as a substitute for the Senate bill, Hon. H. B. Martin, national secretary of the Anti-Trust League and Mr. H. J. Shulters, chairman of the National Legislation Committee of the Knights of Labor, appeared before the committee and warmly advocated the provisions of the bill which are calculated to secure that publicity of the affairs of the trusts which was so strongly recommended by the President in his message to Congress.

The House, after days of consideration, has at last passed the naval Appropriation bill. An amendment which makes it illegal to purchase any copies of Maclay's history for use in the Naval Academy at Annapolis was adopted and also one changing the title of what are now "naval cadets" to "midshipmen."

Children's Fertilizer.

That's a good name for Scott's Emulsion. Children are like young plants. Some will grow in ordinary soil. Others need fertilizers.

The nature of some children prevents them from thriving on ordinary food. Such children grow right if treated right.

All they need is a little fertilizer—a little extra richness. Scott's Emulsion is the right treatment.

Fertilizers make things grow. That's just what Scott's Emulsion does. It makes children grow in flesh, grow in strength, grow rich blood, grow in mind, grow happy. That's what we make it for.

the members do not care to have to answer the inquiries of the labor organizations who have labored industriously for this end, when they learn that republican senators are responsible for their defeat.

There are various stories going the rounds at the capitol, the actual truth of which I have not yet been able to ascertain, in regard to the test of disappearing gun carriages which recently took place in the presence of a number of senators and representatives near Washington.

Three hundred and eighty-seven coal and iron police have been commissioned at the State department at Harrisburg to guard the property of the coal operators, in the hard coal fields, and prevent intrusions by strikers. They are empowered to carry rifles and pistols.

Millions Owned by Americans.

According to an estimate recently published in the New York Herald, there are 3,828 millionaires in the United States, owning real and personal property to the aggregate value of not less than \$16,000,000,000.

It is this colossal sum of money which would be parcelled out among the people of this country, every man, woman and child would receive \$210, or it divided out among the people of this state the per capita would be \$8,000.

All of the real and personal property in this country is valued at \$81,000,000,000, and one fifth of this amount is owned by individuals worth more than a million each.
