From present indications Bloomsburg will have a ball team all summer. The only obstacle to be overcome is in the pitching department. If two good ones can be secured a winning team will be placed in the field. Dr. Aldinger will be the manager and three games a week will be played.

Misfortune came double to the electric railway Sunday afternoon. One car jumped the track at the lower end of East street, and another was derailed at the same time below Berwick. The schedule was broken up and during the balance of the afternoon cars were nearly a half hour behind time.

Charles Hiday, a Milton bicyclist, was thrown from his wheel at Rupert on Saturday and quite painfully injured. The accident was caused by a pig. The animal darted across the road and the rider could not stop in time to save himself. He was on his way to spend Sunday with his mother on Iron street.

Rev. Dr. McAtee, pastor of Grace Presbyterian church at Danville, died very suddenly Saturday morning in a hospital at New York city, to which place he went a few days ago for treatment. Rev. McAtee had many personal friends in Bloomsburg and the announcement of his death brings sorrow to the hearts of all of them.

It would seem that Mr. and Mrs. George Hufnagle of Roaringcreek township are having more than their share of sorrow. On Friday their youngest child, aged sixteen months, died, making three children lost by them within the short space of one week, all from black diphtheria. Genuine sympathy is extended to them in their great affliction.

Saturday at midnight the lights were turned off and the Charleston Exposition was declared over. The exposition opened on December 1st last. The first three months were not very prosperous but during March, April and May great crowds attended. The enterprise, while it has made a brilliant season for Charleston will be a great financial loss.

To Catawissa on the trolley is a pleasant ride and notwithstanding the dissatisfaction on account of the fare charged, the traffic is large. Upwards of one thousand fares were registered in the car running on Friday, and when the line is extended across the bridge into the town, travel will be still larger. The scenery is beautiful particularly between Rupert and Catawissa, and everybody speaks of it.

There will be a meeting of the Centennial Executive Committee this evening at 8 o'clock in the rooms in Hartman's building.

Rain is badly needed, and unless it comes soon there will be a shortage in crops. Farmers say that it is too late now to help the clover, and that crop will be a failure.

One of our exchanges says that there is a lot of men going around over the country trying to preach who ought to either put more fire into their sermons or more sermons into the fire.

Invitations have been issued for the marriage of Miss Martha Brugler of Third street and Mr. Harry Creasy of Catawissa. The event will take place in the M. E. church on Wednesday June 18th.

The strike of the coal miners still remains unchanged. There is no more prospect of an agreement than there was at the beginning, and there is no telling where the price of coal will go to unless the trouble is adjusted soon.

The Alonzo Hatch Moving Picture Company gave a pleasing entertainment to a good sized audience in the Opera House Saturday evening. The pictures were not as large as are those exhibited by Lyman H. Howe, but in every other respect were just as good.

The June number of the Quarterly will be published this week, and will be fully up to its high standard. It is profusely illustrated, and contains cuts of the Normal Base Ball team. Prof. Dennis, the Quarterly manager, is a hustler, and the magazine shows the good results of his work.

Over two thousand one hundred dollars have been subscribed to the Centennial fund. The Columbia & Montour Electric Railway Co. have agreed to give ten per cent. of their gross receipts for the two days of the Centennial. There is no longer any doubt but that sufficient money will be raised to make this the greatest celebration this county has ever seen.

The thirty third annual convention of the Columbia County Sabbath School Association is in progress. The sessions are being held in the Methodist church. Delegates representing the various denominations throughout the county are in attendance, and much interest is being manifested. The music is a special feature. Lack of space this week forbids further notice.

Locusts at Catawissa.

Seventeen year old locusts are swarming in Catawissa township. The COLUMBIAN was informed by telephone on Tuesday that some sections of the township are alive with these harbingers of war and already much damage has been done to crops and trees. Much alarm is felt among the farmers and they are making earnest efforts to get rid of the terrible pests.

The Rescue Hose Co. is arranging for the purchase of uniforms.

Normal won from Tamaqua yesterday afternoon 9 to 5. There were several brilliant features. A catch of a long drive by Demott of the visitors and one by Lewis of Normal. Sheep made a home run. The same teams play again today.

Harry Bowers of Berwick and Miss Nellie Strausser of town were married by Rev. G. H. Hemingway, at the home of the bride's parents on Catharine street last evening.

Cuyamaca Ranch and Mining Company,

OWNERS OF

The Famous "Stonewall" Gold Mine

AND

Cuyamaca Ranch, Containing 20,400 Acres.

Mineral Bearing, Agricultural and Timber Land. Situated in South West portion of San Diego County, California.

Company's Bankers in California, } San Francisco, San Francisco National Bank.
Los Angeles, Broadway Bank and Trust Co.

Principal Eastern Office,

Continental Trust Building, Baltimore, Md.

Reasons Why shares in the Cuyamaca Ranch and Mining Company may be expected to yield a greater profit than any other equally substantial investment now offered. The Company owns thousands of acres of mineral ground on the great Mother Lode of California, which has produced more gold in the past fifty-three years, since the discovery of gold in California, than any other gold bearing formation in the world has ever yielded. This great gold belt runs through the property of this Company for about twelve miles from North to South. It is doubtful if any other Company in the world owns gold bearing territory of equal extent and importance; that it is very rich seems to be proved by the fact that the only mine opened on this estate, the famous Stonewall, has yielded from the surface to a depth of six hundred (600) feet, probably over Two Millions of Dollars (\$2,000,000), more than Nine Hundred Thousand (\$900,000) Dollars of which was taken out during a period of three years and four months. This record has been verified by the books of the Bank, in San Francisco, to which the bullion was shipped, and by the United States Mint in San Francisco. We give below the detail of this very remarkable record, which, competent authorities state, might have been greatly exceeded by different management:

(Signed) JAMES K. WILSON

(Signed) L. I. COWGILL

Trustees for

THE SATHER BANKING CO.

(Now San Francisco National Bank.)

Mr. Wilson writes, under date of March 3rd, as follows: "Have spent several days with the people of the United States Mint here proving our figures, to which you wished me to affix my name.

"These figures are not only absolutely correct as verified by the United States Mint returns at San Francisco, but we can increase these figures previous to January, 1888, if you desire us to do so. In my researches at the Mint, between 1880 and 1885, I have already found \$188,958.00; \$20,466 output January, 1880, from a little ten stamp mill; February of that year \$21,492.00; then in 1885 running but a little time only, \$75,000.00 more was taken out. I have invited here the Statistician of the United States Mint, Mr. Yale, to look up further history. It seems that this Mr. Yale, as a young man, worked as an assayer at the mine away back in early days. From the croppings at that time he took away about one hundred pounds of very rich ore showing free gold largely (so he says), which he brought here to melt up and make a present to his wife.

"He has that ore now and I presume if the parties who are promoting the sale of this property wished it, it could be obtained at its value. It seems to me it would be a great thing to have it, because what I am saying to you is entirely reliable and authentic.

"You may think I have delayed, but you do not know the amount of effort I have put into this since the receipt of the draft which you wished me to sign, and herewith enclosed. I could not, nor would I, affix my signature until I knew these figures were exactly correct."

This mine has not been worked since the death of the late owner, as the insolvency of his estate caused prolonged litigation, from which the estate has been extricated and an absolutely perfect title vested in this Company, who will now proceed to work this mine, which is perfectly equipped with a 20-stamp mill in perfect working order, and all the necessary machinery for pumping, hoisting, etc., and will also begin immediately, and prosecute as rapidly as possible the exploration of all the gold mining portion of the estate, and to develop its other industries.

The value of the Company's ground, for gold mining, is also proven by the large number of mines, opened in the same formation, in the well-known mining districts of Banner and Julian to the North, and by the development of equally productive mines to the South of the Company's boundaries.

Accurate accounts of the details of the operations of the Stonewall mine and mill are not obtainable, but the record in the Bank shows that Six Hundred and Fifty seven Thousand, Sixty Dollars and Thirty six Cents (\$657,060.36) of value in bullion was produced from January, 1888, to July, 1890, during which time only an old 10-stamp mill was in use. The full capacity of such a mill would be thirty (30) tons for each twenty-four (24) hours, and if worked continuously, during the time named, the amount of ore handled should have been about twenty-seven thousand (27,000) tons, thus showing an average value per ton for the ore of about Twenty-four Dollars (24). This is extraordinary, and perhaps unequalled, on a strictly free milling proposition. Nothing whatever was done with the tailings, under the old management.

Col. S. H. Lucas, our General Manager, states strongly his belief that he can so open up the Stonewall mine as to block out, during the next eighteen months, sufficient reserves of ore to enable him to work continuously a 40-stamp mill which would have a capacity of one hundred, and twenty (120) tons per day, which, at the same average, as is shown in the past, would mean the production of Twenty-eight Hundred and Eighty Dollars (\$2880) per day in gold. As the operation of a stamp mill is practically continuous, barring accident, it is safe to figure on three hundred and fifty (350) working days in the year; this would show a product of One Million and Eight Thousand Dollars (\$1,008,000), equal to 17 per cent. per annum on the entire capital stock of the Company, from a single mine, out of the dozens that may be discovered on the property of this Company, to say nothing of its other great resources.

The complete Official Prospectus of this Company, handsomely illustrated, giving the Directors and containing full reports on all resources of the Company, and detailing its plans for development, is now in press, and will be furnished, on application, to those contemplating investment.

PRESENT PRICE, \$2.00 PER SHARE.

The Company reserves the right to advance the price without notice.
