## THE PANAMA HAT.

They are the Finest Example of Weaving in the World-Made in the City of Jipilapa

In the work that he has just completed on basketry. Professor Otis T. Mason, of Washington, discovered that the finest example of weaving in the world is the Panama hat. These provide the appropriate raiment ar hats are made in the city of Jipijapa (pronounced hippyhappy), in the province of Montecristi, Ecuador, and the industry constitutes one of the greatest resources of that republic. The reason why this hat is known to Europeans, Americans and foreigners in general under the name of "Panama" is owing to the fact that nearly two conturies these hats have reached the markets of the outside world through the ports of Panama, on the Isthmus of Darien, the great distribuing center for the products of the South and Central America countries. The correct name is, therefore, the "Jipijapa hat."

The "toquilla" or leaf of a small plant is used for this purpose. It grows abundantly all throughout Ecuador, the leaves coming up in the shape of a fan. The technical name of the plant is the "carludovica pa!nata" and it is this plant that furishes the material for making the fipijapa hat. There are Jipijapa hats af all qualities from those costing a

narvels of fineness) consists as much n the scarcity of the toquilla straw as n the difficulty of the weaving, and, herefore, it is exceptional to find hese hats on the general market. the hats of current sale cost from a ew cents up to \$25 and \$35, while rebuke to King Edward, which was very fine ones have been known to etch as high as \$85.

In buying a Panama, or, more proprly speaking, a Jipijapa hat it is necesary to ascertain two things-that the oquilla straw is whole and that it is aot stiffened. It is not easy to recogsize this first condition. In order to aake two from one the professional at weavers of the city of Jipijapa plit the toquilla straw with such perection that unless a person is accusomed to such examination it is alnost impossible for him to distinguish ne difference. The second condition seasily recognized, for the poorer rade of hats are stiffened to make he straw firmer and white. Good oquilla straw is white and stiff enough ot to need any gum, and only the rdinary Panama hats are stiffened.

Panama hats, ranging in price from 4 00 to \$15 have had a good sale in loomsburg, while there are a few ud to have cost \$25 and even \$50, orn here. The supply of the better rade of Panama hats appears to ave become exhausted, at least one f the local dealers was so informed king does is likely to be imitated by y one of the big city firms.

## ondon Preacher Who Rebuked King Edward for Brewing Beer and Sabbath Breaking

There was a striking scene in the City temple of London, when, during the course of a sermon, Rev. Joseph Parker, D. D., administered a pointed loudly applauded by the congregation. Having alluded to public houses as "trapdoors of hell," Dr. Parker referred to the King's recent brewing of beer while visiting Lord Burton. "Pray for me," said the divine, "that I may speak delicately, loyally. If the

If the the Englishman's Sunday. The king cannot attend a nonconformist place of worship, but he can go to a Sunday concert.' This remark called forth cries of

"Shame," and Dr. Parker continued: "If the king, who is the head of the church and defender of the faith, can

violate the English Sunday, what can the people do but follow in his steps? I would rather give a great sum of gold than appear to be disloyal; but I cannot he disloyal to Christ, and it is better that these things should be said." Rev. Dr. Joseph Parker is a Congregationalist, and has been preaching since 1848. He is noted for his frank utterances. He once startled Christendom by calling on God to damn the sultan. "I say," he exclaimed, "God damn the sultan!"
