

THE KING ON HIS FEET

Doubts Regarding Coronation Laid at Rest.

IT WILL TAKE PLACE ON AUG. 9.

Apprehension That Edward Would Not Be Able to Stand the Strain of the Ceremony Allayed by Reports From Cowes.

LONDON, July 30.—The latest and most reliable information indicates that King Edward's doctors were not mistaken in fixing Aug. 9 as the date upon which his majesty could be crowned.

The apprehension that King Edward would be unable to stand the strain of the coronation ceremony has been greatly lessened by the announcement that his majesty is now permitted to use his feet and, with the aid of a stick, has done a little walking.

The apprehension that King Edward would be unable to stand the strain of the coronation ceremony has been greatly lessened by the announcement that his majesty is now permitted to use his feet and, with the aid of a stick, has done a little walking.

Those who drew inferences from the fact that the invitations to Westminster abbey were not dated have had their fears dissipated by the proclamation published in the Gazette fixing Aug. 9 as the date for the coronation, which postdates and is altogether more important than anything which might or might not have appeared upon the cards of invitation.

According to the present arrangements, King Edward and Queen Alexandra will leave Cowes either Aug. 6 or Aug. 8 for Buckingham palace and will return to the royal yacht Aug. 18, when the entire fleet will pass before King Edward and salute him, thus making a second naval review.

It is perhaps significant that Queen Alexandra, the Prince of Wales and other members of the royal family were all ashore yesterday playing lawn tennis and hockey.

TIDAL WAVE'S HAVOC

Ten Drowned and Six Ships Wrecked in California Gulf.

RESULT OF EARTHQUAKE SHOCK.

Reports From Nebraska Show the Seismic Disturbance to Have Been More General Than at First Told.

SANTA BARBARA, Cal., July 30.—Ten persons were drowned and six ships are wrecks in the gulf of California as the result of the tidal wave following the earthquake.

At Mazatlan the Pomery Ruby, a large passenger steamer, was driven ashore and sunk. Ten passengers were drowned, and the rest managed to reach shore on wreckage after being hours in the water.

At Guaymas five vessels in the bay were driven ashore and sunk. Two of them, El Graciano and El Principe, were large steamships engaged in coastwise trade.

The actual damage in Santa Barbara was slight, but citizens are in a highly nervous state, fearing a recurrence of the shocks.

The Lompoc valley experienced a shock Monday. About 10 p. m. a violent shock was felt which lasted fully thirty seconds and was so severe that dishes, clocks, house plants and other articles were thrown from shelves. The people were stricken with terror and ran from their homes, some fearing to return, as other lighter shocks continued for several hours afterward.

Another heavy shock was felt at 5 a. m. and one at 11 a. m. yesterday. A large water tank was knocked over, the earth cracked at many different places, and the Santa Ynez riverbed was slightly changed in places.

At Los Alamos, forty-five miles north of Santa Barbara, an unusually severe shock of earthquake occurred, doing damage to the property of the Western Union Oil company estimated at from \$12,000 to \$15,000.

The Shakeup in Nebraska.

Persons ran from the town into the country surrounding. Battle Creek reports that some damage was done at Tilden, O'Neill, Petersburg and Oakdale, but this report has not yet been substantiated.

On the Omaha and Winnebago Indian agencies a celebration and dance were in progress. Half an hour after the first shock not an Indian could be found near the festival ground. The celebration was broken up. Dispatches from various points in South Dakota in the vicinity of Yankton report similar disturbances. The shocks were heaviest throughout the Elkhorn River valley and covered a territory more than 100 miles square.

WAS IT A FAKE?

The Defeat of Fitzsimmons by Jeffries at Frisco So Reported.

SAN FRANCISCO, July 28.—Now that the Jeffries-Fitzsimmons contest for the world's championship is over the cry of "Fake!" has been raised, though without justification in the opinion of Referee Grauey, George Silver and the great majority of other sporting men who witnessed the contest.

A communication sent to Mayor Schmitz before the fight, to be opened after it was ended, stated that the writer had been informed that Jeffries was to win in the eighth round, which he did. The mayor stated that if the charge that the contest was a prearranged affair cannot be disproved he will be compelled to prohibit such exhibitions hereafter.

The fight Friday night was made in the presence of 8,300 persons gathered from all over the United States.

The battle was hard from the start, and for a time it looked as though the "old man of the ring" had a good chance to regain his lost laurels. Jeffries was bleeding badly and seemed tired before the fight was more than half ended, while Fitzsimmons appeared to be fairly fresh. In the eighth round Jeffries landed a left hook on the jaw, and Fitzsimmons fell and was counted out as he lay unconscious. He recovered soon after he was taken to his corner and, arising, said:

"I was fairly beaten. I have retired now permanently. If I had won this battle, it would still have been my last, and I would have turned the championship over to Jeffries to defend."

Panther Loose in New York City.

NEW YORK, July 28.—A young Mexican panther got away from Director William T. Hornaday's animal family in the Bronx Zoological park yesterday and spread terror not only among the visitors to the park, but also in the neighborhood for miles around. Night overtook a hunting party that included a squad of menagerie attendants, headed by Curator Dittmars, and platoons of police from three police stations, with the panther still at large.

When last heard from, he had crossed the Bronx river and was doing what-ever mischief he was capable of somewhere near Williamsbridge.

Lot Owners in Cemeteries

Have the Right to Select their Own Workmen.

Judge Pennycacker, in Philadelphia has decided that lot holders in cemeteries could select their own workmen, and he refused the motion of a special injunction made by the trustees of the Palmer burying ground to restrain Jacob G. Fenimore and others from constructing foundations for tombstones in the cemetery and from interfering in any way with Albert Emerick Jr., the superintendent of the burying ground, in the performance of his duties.

The equity suit arose from a dispute as to the right of an individual to select his own workmen to perform work on his own burying lot. The trustees of the cemetery appointed a superintendent to look after the ground and keep all property in good repair. His duties further required him to superintend the grave digging and to collect the fees for this and kindred services, which constituted his salary.

Several marble men insisted upon having their own workmen go to the cemetery and build the foundation for monuments and headstones sold by them. The cemetery company adopted a resolution giving the superintendent exclusive privilege of doing that kind of work, and when Fenimore insisted that lot holders had a right to select their own workmen, the company told him he was a trespasser and sought to have the court enjoin him from doing any more foundation building in the burying ground.

In retusing the injunction the court practically decided that Fenimore was right in his contention that lot holders could choose their own workmen.

Have your surgeon Shylock, on thy charge, to stop his wounds lest he do bleed to death. People can bleed to death. The loss of blood weakens the body. It must follow that gain of blood gives the body strength. The strengthening effect of Dr. Pierce's Golden Medical Discovery is in large part due to its action on the blood-making glands and the increased supply of pure, rich blood it produces. It is only when the blood is impoverished and impure that disease finds a soil in which to root. The "Discovery" purifies the blood and makes it antagonistic to disease. When the body is emaciated, the lungs are weak, and there is obstinate lingering cough, "Golden Medical Discovery" puts the body on a fighting footing against disease, and increases the vitality that disease is thrown off, and physical health perfectly and permanently restored. It has cured thousands who were hopeless and helpless, and who had tried all other means of cure without avail.
