

WHITE HAS RESIGNED

American Ambassador to Germany Soon to Quit Post. TO TAKE EFFECT, IT IS SAID, NOV 7

Tower at St. Petersburg and Storor at Madrid Mentioned in Connection With Appointment of Successor.

BERLIN, Aug. 6.—Embassador White mailed his resignation to the United States several days ago, and it may now be in the hands of President Roosevelt. The date set by the embassador for his resignation to go into effect was Nov. 7. He is now at Hamburg, where he is taking the waters and where he probably will remain till the end of the month.

There is much gossip at Berlin concerning Mr. White's probable successor, and one circumstantial story is that the president intends to transfer Embassador Tower from St. Petersburg to Berlin, Minister Storor from SpuA to be embassador to Russia and to appoint Henry White, secretary of embassy at London, minister to Spain.

Mr. Tower, who has been dissatisfied with St. Petersburg, expressed months ago a wish to be transferred to some other equally desirable post, preferably Berlin.

Andrew D. White was appointed embassador to Germany April 1, 1897. In March last it was announced that he contemplated resigning because of ill health.

Not Unexpected. WASHINGTON, Aug. 6.—No information has been received at the state department indicating that Embassador White had resigned, but the announcement was not unexpected, as a report was current some time ago that he would retire from public life upon reaching his seventieth birthday.

Several gentlemen in the diplomatic service have been mentioned in connection with the Berlin embassy should Embassador White retire, the most prominent being Dr. David Jayne Hill, now first assistant secretary of state, and Hon. Bellamy Storor, at present minister to Spain.

Gentleman Burglar Confesses. CHESTER, Vt., Aug. 4.—A partial confession by Clarence Adams, the gentleman burglar of this town, covering incidents of the past six years, has added to the excitement over this case. Adams had his legs peppered with shot one night last week, and while he claimed that he had been held up on the road and shot, his statements show that he ran into the gun set for burglars in the grain mill of Charles Waterman. Adams admits burglaries covering six years back, but adds that he is being charged with too many of them. The only explanation he gives for his depredations is "amusement."

Great Salt Lake Drying Up. SALT LAKE CITY, Utah, Aug. 6.—Great Salt Lake, which for several years has been slowly but steadily receding, has, according to Director Murdoch of the United States weather bureau, now reached the lowest level recorded since observations have been taken by the department. Up to Aug. 1 the lowest mark ever recorded was on July 11. Since that time the lake has receded four inches. The fall of the water since 1894 amounts to nearly six feet, and on the low, flat eastern shore this has resulted in a recession of the water line during that time of fully three-quarters of a mile.

Three Pensions: Entitled to None. NORFOLK, Va., Aug. 6.—Richard Swinton of Milwaukee, who was admitted three months ago as an inmate of the Hampton (Va.) National Soldiers' home, has been arrested, charged with drawing three fraudulent pensions from the government under different names until an application for a fourth was filed and the fraud discovered. The prisoner, it is charged, was never in the Federal army, but served during the civil war with the Confederate forces.

Miraculous Restoration of Sight. DENVER, Aug. 6.—Mrs. Sarah Nessler of this city, who has been blind for seven years and whose case was pronounced incurable by oculists, claims to have recovered her eyesight in a miraculous manner. She says that while praying at a revival meeting of the Holiness sect at the Pentecostal union a white light broke upon her eyes, and soon she was able to distinguish objects. Her vision, she declares, is now nearly as good as it was before she became blind.

Office of Oldest Postmaster Robbed. ITHACA, N. Y., Aug. 6.—The office of the oldest postmaster in the United States has been robbed. It is that of Postmaster Roswell Beardsley of North Lansing, near this city. Mr. Beardsley is ninety-three years old and has been postmaster since 1828, but this is the first loss of the sort he has sustained. Stamps and postal cards to the amount of \$50 were removed from the office. No clue was left by the burglars.

Monthly Debt Statement. WASHINGTON, Aug. 2.—The monthly statement of the national debt shows that at the close of business July 31, 1902, the debt, less cash in the treasury, amounted to \$975,910,397, which is an increase as compared with July 1 of \$4,453,126. This increase is accounted for by the reduction in the amount of cash on hand.

Earthquakes in Tuscany. ROME, Aug. 6.—The meteorological bureau reports that earthquake shocks have been experienced at Carrara and Massa, in Tuscany, and other places.

DEMANDS REJECTED.

Strike Threatened on Manhattan Elevated Road.

GRAND MASTER ARTHUR SENT FOR.

Five Hundred Engineers and Motormen Ask For a Nine Hour Day, a Relay System and Other Important Concessions.

NEW YORK, Aug. 6.—Vice President Skitt of the Manhattan Elevated railway gave to a committee of seven that called upon him, representing the 500 engineers and motormen of the road, a refusal of their request made two weeks ago for a nine hour day and other concessions.

When the company's reply became known among the men, there was immediate talk of a strike. The committee after leaving Mr. Skitt's office went at once to a telegraph office and sent the following message to P. M. Arthur, grand master of the Brotherhood of Locomotive Engineers: "Come at once. Everything refused."

Chief Jenks of division No. 105 of the brotherhood says of the grievances: "Since the introduction of motor cars into the service we have been compelled to make six round trips daily between One Hundred and Twenty-ninth street and South ferry, consuming ten hours and traveling on the average 108 miles a day. On the engines we never made more than five trips, and four and a half was the usual number. The company claims that the motor cars being faster we should be able to make the additional trip. They also say that the strain on us in running the electric trains is less. The first statement may be true, but the second is not. We are under just as great a strain as we were on the engines. We are willing to make five trips a day in nine hours and no more. We also want a relay system that will give each man a chance to get a bite to eat and a few minutes to himself at the end of each run."

Grand Master Arthur is expected to arrive tomorrow.

Million Dollar Fund Pledged. NEW YORK, Aug. 2.—The international committee of the Young Men's Christian association announced yesterday that it had pledged the million dollar endowment fund for which it had been striving and for which the impuse had been given during the jubilee year by the promise of \$250,000 from one of its best friends.

Of the amount pledged six persons gave \$62,200. Only 150 persons besides association secretaries were asked to subscribe, and of that number fifty-six contributed.

President Made Five Bulleyses. OYSTER BAY, N. Y., Aug. 4.—President Roosevelt has beaten the Dutch—that is to say, he defeated a Boer officer at target practice, making a remarkable record with a .32 caliber revolver at fifty yards. He drove five bullets, one after the other, through the hole made by the first in the center of the bullseye. No such shooting has even been done before around Oyster Bay, and Commandant W. D. Snyder, an officer on General De Wet's staff, declares he never saw such skill in South Africa.

To Follow Dowle. CLAYTON, N. J., Aug. 6.—D. Wilson Moore, the wealthy glass manufacturer of this place and who has heretofore been a pillar in the local Presbyterian church, announced that he would renounce that faith and devote his time in the future to the cause of the doctrine preached by John Alexander Dowle, the healer and high priest of the Christian Catholic church of Zion. It is not yet known whether he intends to place his great wealth at the disposition of Dowle or not.

Lord Derby Won. HARTFORD, Conn., Aug. 4.—Borlma won the first heat of the Lord Derby-Borlma match race here in 2:08. Lord Derby had the pole, but lost it in the first half mile. Lord Derby won the second heat in 2:09 1/2 and the third in 2:18 1/2. At the end of the third heat the race was awarded to Lord Derby, Borlma having been withdrawn on account of injuries. Borlma was injured in the leg while scoring for the first heat. The injury will keep him off the track for a long time.

An Australian Mine Horror. SYDNEY, N. S. W., Aug. 1.—An explosion resulting in heavy loss of life has occurred at the Mount Kimbula colliery at Wellington, a port forty miles from here. Twenty-seven bodies have been recovered. The buildings at the mouth of the pit were wrecked. One hundred and forty-nine miners were rescued, but a hundred are still entombed. It is feared their release is hopeless. A portion of the colliery is on fire.

Turks Kill Many Brigands. CONSTANTINOPLE, Aug. 6.—Turkish troops have attacked a large band of Albanian brigands in the neighborhood of Okhrida, European Turkey. The chief and thirteen of the brigands were killed, and others were captured by the troops.

The Latest In Strikes. CHICAGO, Aug. 4.—Twenty-five graveldiggers of Concordia cemetery have laid down their spades and are on strike for higher wages.

POLE SEEKER FOILED.

Baldwin Turns Back After a Year's Work—Will Try Again.

HONNINGSVAAG, Norway, Aug. 2.—Evelyn B. Baldwin, the arctic explorer, has arrived here. He reported all his men in good health and said: "We have been baffled, but not beaten. The year's work has been successful in that enormous depots of condensed food have been established by means of sledges, one in Hudof Land, within sight of the Italian expedition headquarters, another in latitude 81 degrees 33 minutes and a third at Kane lodge, Greely island."

"These depots, together with houses and stores left at Camp Ziegler, will afford the means for a large polar dash in 1903."

"The breaking up of ice early in June compelled the use of reserve supplies; hence the departure from Camp Ziegler on July 1 in order not to imperil the expedition."

"I discovered Nansen's hut, recovering original documents and securing paintings of the hut."

"In the field work 30 men, 23 ponies, 60 sledges and 170 dogs were employed from Jan. 21 to May 21, and this severe work resulted in the destruction of sledges and depletion of the food for ponies and dogs, thus rendering our return imperative."

BABE PROPHECIES. Strange Story of Russian-Hebrew Child—World's War Foretold.

WASHINGTON, Aug. 1.—"In one year's time there will be a great war between the world powers, and in three years we will witness the coming of the millennium."

This startling prophecy, it is declared, was recently made by a male child only three months old, born in a small village near Warsaw, Russia.

S. Berlin, a Seventh street merchant, recently received a letter from his father, in Russia, relating the incident.

Soon after Mr. Berlin received his letter with the story of the wonderful child another man in Washington received a letter from a different person relating the same incident as told in the first letter. It is said that the prediction has created great consternation among the Hebrews of Russia. According to the Torah, the millennium is due in about three or four years, and Hebrews consider this prophecy as a verification or reminder of the approaching reign of their race.

THE POPE'S PRIAR PLAN. Obnoxious Orders at Manila to Be Removed Quietly.

ROME, Aug. 2.—According to statements obtained from reliable sources, it is the intention of the Vatican that the friars of the Augustinian, Dominican, Franciscan and Recolette orders now in Manila, who number about 450 men, should leave there in small numbers at different times, so that when the moment comes to resume negotiations between Governor Taft and the apostolic delegation all the friars will have left the archipelago in such a way that the friar question will have resolved itself without the necessity of further discussion.

The foregoing plan is interpreted as a late but significant recognition by the Vatican that Secretary of War Root's first propositions made to the Vatican through Governor Taft were the most liberal that could be devised for the settlement of the question.

Apostolic Delegate to Manila. ROME, Aug. 6.—Italia announces that Mgr. Guidi, at present in the office of Cardinal Rampolla, the papal secretary of state, has been appointed apostolic delegate to Manila.

Ministers New Plan.

The Methodist Ministerial Association of Williamsport has adopted a decidedly novel scheme to counteract the effect of hotel and liquor advertisements in street cars. Cards bearing Scriptural passages are posted in the cars. In one of the cars, fitted in between two hotel advertisements, is a card bearing the words, "Wine is a mocker, strong drink is raging, and whosoever is deceived thereby is not wise." In the same car are the advertisements of three hotels and three kinds of beer and whiskey, with another brand of beer advertised outside. In another car are these words: "Wine—at last it biteth like a serpent and stingeth like an adder." In this car were the advertisements of five hotels and brands of whiskey and beer. In still another was the warning: "Woe unto him that giveth his neighbors drink, that putteth the bottle to him, and maketh him drunk also." In this car were five advertisements of the drink referred to. Money is being collected to keep up the fight for a year.

Thoughtlessness of Passengers. Considerable complaint has been coming to the Pennsylvania railroad in regard to passengers stumbling and falling over dress suit cases, which are placed in the aisles of passenger coaches by other passengers. The attention of tramm men has been called to this nuisance by a special order, stating that when suit cases cannot be put between the seats or in them they should be placed in the baggage car. The thoughtlessness of passengers often causes officials great annoyance.

There are some women who seem to be perennially youthful. The grown daughters are companions as well as children, and the color in the mother's cheeks, the brightness in her eyes, the roundness of her form, all speak of abounding health. What is her secret? She is at the middle age of life when so many women are worn, wasted and faded, and yet time has only ripened her charms. The secret of this marvellous health and beauty may be told in the brief phrase, Dr. Pierce's Favorite Prescription. The general health of woman is so intimately related to the local health of the delicate womanly organs, that where these are diseased, the whole body must suffer. "Favorite Prescription" dries the debilitating drains, heals ulceration and inflammation, cures female weakness and imparts to the delicate female organs natural vigor and vitality. Women who have lost their health and their beauty have been made "robust and rosy checked" by the use of this marvellous medicine.

THE FOLLOWING RULES ARE LAID DOWN BY THE GOVERNMENT FOR THE PROTECTION OF NEWSPAPERS: Subscribers who do not give express notice to the contrary, are considered as wishing to continue their subscription.

If subscribers order the discontinuance of their periodicals, the publishers may continue to send them until all arrearages are paid.

If subscribers move to other places without informing publishers, and papers are sent to the former direction, they are held responsible.

The courts have decided that refusing to take periodicals from the office before moving, and leaving them uncalled for, is prima facie evidence of intentional fraud.

If subscribers pay in advance they are bound to give notice to the publisher at the end of that time, if they do not wish to continue taking it; otherwise the publisher is authorized to send it on, and the subscriber will be responsible until an express notice, with payment of all arrears, is sent to the publisher.

It is a dangerous trick for a man to allow his subscription account to run on from year to year unpaid, and then tell the postmaster to mark "refused," or to send the editor a notice to discontinue the paper.
