# WASHINGTON.

THE COLUMBIAN, BLOOMSBURG, PA.

From our Regular Correspondent.

Washington, August 25, 1902. The echoes of the unsavory Philippine transport scandal have hardly died away, but another is ready to take her place. This time it concerns the lighter system at Manila. As may be known, it is necessary to transfer goods for Manila to lighters which in turn, land them at the wharfs and warehouses. 'These lighters are employed by the quartermaster in charge and are paid at a given rate per trip, the rate being based on their tonnage capacity. When the situation became known, the officials of the Treasury Department demanded that a register be furnished them showing the names, speed and capacity of the lighters. Since then, the Treasury officials have apparently paid no attention to the disbursements made for lightering purposes by the army quartermasters and no more than was necessary was revealed by the War Department. Recently, however, the Treasury Department, availing itself of the figures already furnished it and the reports of the quartermasters as filed monthly with the Auditor for the War Department, has been making some comparisons which have proved the old adage that The "comparisons are odious." amounts paid out for freight far exceed the capacity of the lighters, ton nage and speed taken into consideration, and the Auditor has demanded an' explanation of the discrepancy. Secretary Root is in Europe in blisstal ignorance of the discoveries of the Auditor and until he returns it is not probable that any of his subordinates will dare to make a statement but, in the meantime, a secret investigation will be made and probably a scapegoat will be selected.

The determination of the Grand Army of the Republic to invite General Miles to head the grand parade at the encampment to be held in Washington next October, is a source of serious annoyance to the friends of the President. Of course, General Miles is the most distinguished member of the G. A. R. He is the most noted survivor of the Civil War, since Grant, Sherman, Sheridan and a number of others have passed away. Coming from the people, without the aid of a West Point education, General Miles has attained the highest rank in the army and that, together with the fact that he served shoulder to shoulder with the men of '60'65, makes him dear to the G. A. R., but he is in disgrace with the administration. Colonel-President Roosevelt has had occasion to scold him and would have retired him had not an influential delegation of Senators and Representatives gone to the White House and threatened to blockade all legislation recommended by the

by the reply to a letter which has been sent to her family. Meanwhile she is the guest of Mr. and Mrs. Fiske Warren, of Boston, studying American institutions and making special efforts to become mistress of the English language. She finds as much difficulty in endeavoring to understand our social and economic conditions as she does in comprehending the vagaries of our tongue. The senorita, says the Kansas City Star, is pretty, after the Japanese light brown skin, very dark brown eyes and wavy black hair. The Lopez home was open to the Americans at all times, and many of the officers visited there. The desire of the family is declared to have been that war should cease as speedily as tal. possible. The only members of the family not then in the country were Sixto, who was conducting a propaganda in the United States, and Jose, who was studying engineering in England. The family was overjoyed when newscame last winter that Sixto was on his way to Manila. It was their desire, it is declared, that he should cease his work in behalf of independence, return to Manila, take the oath of allegiance and trust to the good offices of the American government. In order to endeavor to persuade him

to this line of conduct, Clemencia, accompanied by her 17-year-old sister, Marla, journeyed to Hong-Kong to meet him.

They sailed from Manila on December 15. Two days before their three brothers had been arrested, and later confined on a transport, and deported to the island of Talim. This was unknown to her when she sailed. The brothers were suspected of aiding the insurgents, and it was charged that when one of them, Cipriano, surrendered he failed to turn in 50 rifles belonging to his command. He asserted that he had turned in all the rifles in ty, with the funds of the people, his possession, but information to the contrary had been given by one whom the members of the Lopez family denounce as a political enemy, and that information influenced the government in the arrest of the three brothers, Cipriano, Lorenzo and Man-

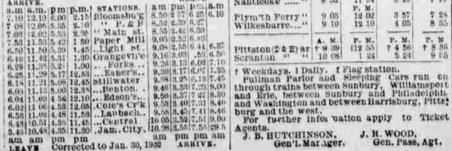

ueL Clemencia was in Hong-Kong when the news of the arrest of her brothers was received in a letter from home. She was astounded at this turn of affairs, and instead of counseling Sixto to abandon his propaganda and return to Manila, she urged him not to do so. She then determined to appeal to the president, and wrung from her brother and sister their approval of this plan, formulated by herself:

President if he did; and, being in the black books of Colonel President R Roosevelt, he has no right to occupy a position of honor or importance in the G. A. R. parade, and especially in Washington. It is even hinted that if the General accepts the invitation the Colonel-Commander-in-Chief will prolong his stay in the west so that he will not be in Washington on type. She is small and slight, with the day of the great procession, but the time is still distant and it is probable that his better advised friends will not allow him to so seriously affront the veterans during the time they are guests in the national capi-

The official figures of the last session of Congress have at last been issued by the clerks of the appropriation committees of the Senate and the House. They show that the recent session appropriated the stupendous sum of \$1,063,335,961.55. Equal lavishness at the next session will make the total appropriations of the Fifty-Seventh Congress aggregate more than two billion dollars. Representative Livingstone, the ranking democrat member of the appropria-1P tions committee of the House, who w furnished the estimate made in these letters when Congress adjourned, placed the total at \$1,059,577,052 but it will be seen that even he underestimated the extravigance of the session. It will be remembered that 5 at the same time Mr. Livingston gave the figures for the last Congress under democratic control and that they aggregated but \$550,000,000. Better evidence of republican liberalicould not be asked for. The appropriations of the first session of the
