The report that Speaker Hender-

From our Regular Correspondent. Washington, September 18, 1902.

son has decided not to run for the as it did to the republicans and numerous theories were offered in explanation. That it is a most tangible evidence that there is friction in republican circles is admitted by all, The Iowa republicans are badly split, the Dolliver-Cummings-F.oberts faction favoring tariff revision, as opposed to the Allison-Henderson-Shaw-Wilson combination which opposes the slightest change in the duties which have proven of such great service to the trusts. That the former faction represents the majority of Iowa republicans, was proven by the tariff plank adopted at the recent state convention. From these facts, certain democrats draw the conclusion that Speaker Henderson foresaw defeat in his efforts for re-election, particularly as he was likely to be opposed by so strong a candidate as Ex-Governor Boies, and he took time by the forelock and declined to run. At all events, it must be conceded that he has "retired under fire," and a most searching fire.

Another and more ingenious theory which is advanced in Washington is that Senator Allison immediately tele-Washington and Baltimore, \$9.35 graphed speaker Henderson from Oyster Bay to the effect that the \$10.00 from Oxford, Pa.; \$9.35 from President had agreed to suppress his Columbia, \$8.50 from Harrisburg, tariff reform views out of respect to \$10.00 from Winchester, Va.; \$7.80 the Wall Street interests and that the Speaker then declined the nomination to concentrate the wealth of the on the ground that he was not in Ridgway, \$6.90 from Sunbury and sympathy with the tariff revision plank Wilkesbarre, \$5.75 from Williamsport of the state convention, in order that that fact and will vote the democratic the republicans of his district might cipal points. A stop over will be al. renominate him and thus, at least to a certain extent, repudiate the plank referred to, and at the same time deliver a blow to the aspirations of the los cars and day coaches will be run Dolliver Cummings Roberts faction. Gen. Henderson is know to be a very shrewd politician, however, and it is quite possible that he sees farther into An experienced tourist agent and the future than do the majority, and retire and devote himself to his law practice which will prove more remunerative now than it would if he waited to be defeated.

> The latest rumor current in Washington is to the effect that the democrats of the third Iowa district have unearthed certain unsavory incidents in the private life of Mr. Henderson, incidents in which figure most prominently the "flowing bowl," etc., which they were preparing to make public during the campaign and that the Speaker preferred to retire from public life rather than undergo this sort of hre. The rumor is unconfirmed

The important conference at Oyster Bay, which was participated in by the President, Senators Hanna, Aldrich, Allison, Spooner, and Lodge and Postmaster General Payne, occurred on Tuesday and the outcome was in entire accordance with that predicted in these letters some time ago. The President yielded his tariff revision views to the men who warned him that any reduction of the duties on trusts made products would effect his defeat in 1904. He agreed to go before the country and advocate the already timeworn issue of Cuban reciprocity and a constitutional amendment for the control of the trusts. He is, however, going up to Minnesota where republican candidates are promising their constituents that the election of a republican House will mean tariff revision and he is likely to had not been opened in a quarter of have some very embarassing questions a century, Farmer Abrams, of Pond- put to him. The western republicans Eddy, found, among a lot of old will not be put off with the advocacy papers which had belonged to his of a constitutional amendment which grandfather, a South Carolina bond of it will take years to effect. They have clearly stated that they want such a reduction of the duties as will South Carolina and he wanted to insure a prompt decrease in the prices know if the bond had any market of the necessaries of life and when value. The Treasurer investigated Mr. Roosevelt attempts to divert their attention he is likely to receive some severe surprises. Every day, the democratic leaders in Washington are receiving reports to the effect that some republican congressional nominee has declared for tariff revision, but when the President gets west, the people will have an opportunity to learn how much those declarations

> Last Sunday was observed in Washington, as it was all over the country, as the first anniversary of the death of President McKinley and many eloquent sermons were delivered on the life of the late president, but this deterence to the murdered President seemed somewhat in the nature of an anachronism, in view of how thoroughly his party has forgotten his teachings, and even his successor, who swore to carry out his policy, has now foundation for a sturdy constiagreed to abandon that reciprocity which Mr. McKinley outlined in his famous Buffalo speech. President McKinley, who had been the author enacted, said at Buffalo, "We must 409-415 Pearl Street, New York. of the highest protection bill ever

not repose in fancied security that we can forever sell everything and buy nothing. The period of exclusiveness is past. Commercial wars are unprofitable. A Policy of good will and friendly trade relations will prevent Fifty eighth Congress proved as great reprisals, etc." But in the face of a surprise to the democratic leaders the demands made on Washington by corporate greed, this is all forgotten and his alteged followers content themselves with glittering platitudes on the beauty of his home life.

> "While the people may be more or less interested in Cuban reciprocity and the amending of the constitution to permit federal supervision of the trusts," said a prominent democrat yesterday, "the question which vitally concerns them is, what is going to be done in regard to the coal strike? Cuba is a long way off but the winter is almost here and we have no coal in our cellars and there is no prospect of getting any without paying a small fortune for it. It is already predicted that an immediate ending of the strike would not be followed by reasonable prices for coal before the first of January and if that proves true what is to become of the much vaunted prosperity. The people will have to curtail on all expenditures in order to keep their homes comfortable. When the large majority of the people are forced, from any reason, to economize, it means hard times, and, unless I am very much mistaken, the hard times will be felt before the elections and for the present situation in Pennsylvania, but I do know that all republican legislation makes for the rich and at the expense of the poor. It serves country in the hands of the few and the people will be brought to realize

The Proper Way to Take Raw Eggs.

A raw egg is an excellent tonic and is very strengthening. If prepared in the following way it is really a delicious drink: Put the yoke of an egg into a dish with a teaspoonful of white lime Ridge willow Grove..... sugar and a teaspoonful of orange or lemon juice, and beat lightly with a fork. Put the white on a plate, and Haven Hick's Ferry ork. Put the white on a plate, and add a pinch of salt; then, with a broad bladed knife, beat it to a stiff froth. Now, as lightly as possible mix all together in the dish, then as lightly transfer it to a clean tumbler, which it will nearly fill if properly made. It must not stand in a warm place, as it soon becomes liquid and loses its snowy look. Any fruit juice may be used in place of orange or may be used in place of orange or mellower.

LEAVE Corrected to Jan. 30, 1902 Arrive. Arbor Day Order.

Friday, October 17. Designated For Rural School Observance.

Professor Schaeffer, superintendent of public instruction, has issued the following Arbor Day order:

"Trees can be planted in the fall as well as in the spring. Hence it has become customary for many schools to celebrate autumn Arbor Day in addition to the Arbor Days which the governor annually designates by proclamation in the spring of the year. For rural schools closing before the middle of April, the autumn Arbor Day is the only day which they can observe.

"In accordance with this custom, Friday, October 17, 1902, is hereby directors, teachers and pupils of our public schools are requested to observe the day by planting trees and other suitable exercises. The story of trees famous in history may be told. The ment, the effect of torests in retaining and distributing rainfall, and the forestry movement under which half a will soon open. Those who have million acres have been purchased by the state and set apart as a public reservation may be profitably discussed. The career now opening up to young men who make forestry a profession should be pointed out. But above all else, the pupils should be taught by On account of the Centre County actual experience how to plant trees, to protect them from noxious insects and other enemies."
