The chestnut crop in this part  
of the state will be very large this  
year, and according to experts the  
nuts will be well developed and  
free from worms. Abundant mois-  
ture, cool nights and slow develop-  
ment tend to make chestnuts fat  
and sweet and the same weather  
conditions are favorable to the full  
development of walnuts, hazel nuts,  
hickory nuts and butter nuts.

John H. Stiner answered the final

Few farmers would knowingly in-  
vite to their premises known enemies,  
to live upon the best the land affords,  
but just now many a negligent farmer  
is allowing to go to seed dozens of  
luxuriant weeds. They will "run  
out," of course, but it will take years,  
and while they are "running out"  
they will run the farmer out, too, and  
his soil out and his income out. The  
farmer who allows weeds to overrun  
his farm is neglecting a serious, im-  
perative duty.

**TALK NO. 33.**

**RE-DING AND SEWING.**

There would be fewer glasses worn upon the streets if people would use  
them for reading and sewing earlier. It is near work that wears out the eyes.  
The bookkeeper, typewriter, the dressmaker, the child in school are all putting  
their eyes to the hardest strain. A great many have constant headaches which  
they attribute to indigestion and nervousness, when the cause is simply overtaxed  
eyes. In reading the evening paper you have to place the light "Just  
So"; if the letters all run together; if you have to close your eyes and rub  
them; if it is nature's protest against over work. If threading your needle is  
more difficult than it used to be, it is the first warning of defective eyesight.  
The sooner you use glasses for near work the better. If you commence at  
once very likely you will only have to wear them in reading and sewing. If  
you go on straining your eyes, the chances are you will soon have to wear  
glasses constantly. "A stitch in time saves nine."

**CHANGED CONDITIONS**

REQUIRE NEW METHODS.

The Hour Glass of our Great Grand-fathers did very well in  
those days, but times have changed. The successful men  
of today reckon time as money, a missed train or broken  
engagement means something lost.
