PUSHING THE CONSTRUCTION WORK Five Hundred Men Are Now Employed And The Force Will Be Increased to Twice That Number.

Things are humming along the line of the Susquehanna, Bloomsburg & Berwick Railroad. Five hundred men are now employed on the work of construction and Contractor McManus says that the force will be increased to twice that number.

At Mordansville the life and activity is surprising. All the vacant houses are filled, other buildings have been fitted up for dwellings and numerous shanties have been built to accommodate the workmen.

Probably no place along the route is the quickening spirit more apparent than at Light Street. The force at this point was on Tuesday increased by the arrival of one hundred men and they were promptly put to work.

At Berwick, too, the work is progressing rapidly, and men are daily being given employment. The rails are already laid to a point below the town.

Contractor McManus is anxious to get as much of the grading as possible done before frost. Cold weather he says retards the work and makes progress slow. He expects, by the last of the week to have at least a hundred teams and nearly as many horses and carts at work.

Just how the creek from Shaffer's to Shew's is to be crossed has not yet been definitely decided upon. It is altogether likely, however, that it will be bridged, as it is by far the quickest method and the company is bent upon getting the road completed and in operation at the earliest possible time.

As already stated in these columns the Susquehanna, Bloomsburg & Berwick Railroad will mean much for the alley, a fact of which all the people are fully aware. It not only gives them the benefit of traveling facilities which in itself is great, but brings to their very doors a market for their products. The people are rejoicing now and they have reason to, but they will rejoice in a still higher degree when this great improvement is established and understood.

You will be pleased with the work, and they will be pleased to serve you at the Gem Steam Laundry.

Football at Williamsport Oct. 11.

A great football event will be witnessed in Williamsport on Saturday, October 11, 1902, when Bucknell and the Carlisle Indians will line up for another battle on the Athletic Park grounds. Assurances have been given that this will be one of the liveliest games ever played between any other team and the Indians. Both teams will be at their best and those who witness the struggle between them will be well entertained. The usual excursion rates of one fare for round trip have been granted on the various railroads, for a distance of one hundred miles, good from the 11th to the 13th inclusive. All aboard for Williamsport October 11th.

Berwick lost a good citizen at seven o'clock last evening, when S. B. Bowman, a life long resident, passed away. He had been afflicted for some months past, with paralysis, and this together with advanced years caused his death. He was eighty-one years of age, and died at the home of his son-in-law, R. G. Crispin. The deceased was a first cousin of Bishop Bowman.

Among the bookings at the local play house is Mildred Holland. This promises to be the season's most extraordinary engagement. Miss Holland is now touring the New England States appearing in the "Power Behind the Throne" to phenomenal business. In Bloomsburg she will play Carina Jordan's new romantic drama "The Lilly and the Prince." The scenes of the piece are laid in sunny Italy at the beginning of the sixteenth century.

As W. O. Holmes was starting out from Welliver's stable on horse-back, this morning about half-past nine, the horse slipped on the brick crossing at the Exchange Hotel, throwing Mr. Holmes and falling on him. He was taken into the hotel parlor and Dr. Reber was summoned, and upon examination a severe bruise below the left knee looked as though the horse had stepped on it. The left arm and side were very sore, but the Doctor could find no bones broken. Mr. Holmes was on his way out to the Poor House to look after some work. He was removed to his home, and is resting comfortably.

Shickshinny's local coal industry is active. The old Salem culm bank is alive with coal operations, there being over a dozen places where coal is screened and prepared for the local trade. Some very good coal is being taken from the bank. When this deposit was made the breakers did not screen the coal so well, and as there was little demand also for the smaller sizes, much of it went into the culm pile. This is serving a good purpose now and many are providing themselves with their winter's coal. The prices range from \$1.25 to \$2.50 a ton. Considerable coal is being hauled to Berwick.—Shickshinny Echo.

TALK NO. 33. READING AND SEWING.

There would be fewer glasses worn upon the streets if people would use them for reading and sewing earlier. It is near work that wears out the eyes. The bookkeeper, typewriter, the dressmaker, the child in school are all putting their eyes to the hardest strain. A great many have constant headaches which they attribute to indigestion and nervousness, when the cause is simply overtaxed eyes. If in reading the evening paper you have to place the light "Just So"; if the letters all run together; if you have to close your eyes and rub them; if it is nature's protest against overwork. If threading your needle is more difficult than it used to be, it is the first warning of defective eyesight. The sooner you use glasses for near work the better. If you commence at once very likely you will only have to wear them in reading and sewing. If you go on straining your eyes, the chances are you will soon have to wear glasses constantly. "A stitch in time saves nine."

CHANGED CONDITIONS REQUIRE NEW METHODS.

The Hour Glass of our Great Grand-fathers did very well in those days, but times have changed. The successful men of today reckon time as money, a missed train or broken engagement means something lost.
