FREIGHT TRAFFIC VERY HEAVY Rush of Business on Catawissa Branch of the Reading Road.

There is a big rush of freight business on all the railroads due to the shipment of coal from the anthracite regions in addition to the ordinary traffic. Even during the strike the roads had about as much freight as could be handled, but now that the coal trade is added every facility is being taxed to the utmost to get the numerous trains over the roads. Anthracite coal is given the preference and every city and town is using up the supply as fast as it can be turned out at the mines.

The Catawissa branch of the Philadelphia & Reading road, from East Mahanoy Junction to West Milton, is an important part of the Reading system and is handling a large number of trains daily. It connects the northern and southern parts of the main line and is a short route from Philadelphia, Williamsport and the northwest. Practically all of the traffic of the Beech Creek branch of the New York Central goes south via the Catawissa branch.

### Giving Short Weight-

The Shamokin authorities have discovered that a great many of the people who attend market at that place are guilty of giving short weight and are preparing to give the matter a complete investigation. This same trouble has existed for a long time in the Milton market, and although several parties have been caught at the business of cheating their customers, beyond confiscating their scales no punishment has been inflicted. The man or woman who knowingly sells short weight is a thief and should be punished like any other criminal.

There have been no such charges in the Bloomsburg market, in fact, very few articles are sold by weight.

## Crushed to Death.

George Chudleigh of Philadelphia, was crushed beneath an elevator in one of the buildings of the Schuylkill Arsenal at Grays' Ferry on Monday. He was alone at the time of the accident and was kept pinned to the floor until discovered by a fellow workmen, who with the assistance of several others extricated him. He was conveyed hastily to the Polyclinic Hospital, where it was found that the skull had been fractured. He had also suffered internal injuries and died without regaining consciousness. Mr. Chudleigh was fifty-eight years of age. He was the father of Mrs. Dr. H. A. Reese of town. She and her husband left immediately upon receipt of the sad news.

## Machine Drills Square Holes-

A machine which will drill square holes has at last been made. An Englishman named Edward Segitz is the inventor, and his apparatus is said to have solved a problem heretofore regarded as being about as unaccomplishable as the mathematical impossibility of squaring the circle. Segitz's machine is a three winged drill, semi-round, which yet cuts four straight edges in its rotary motion. That is, the motion appears to the eye to be rotary, but there is, of course, a manoeuvre in the triple flange which produces the square cut, triangular, or other angular holes, with automatic regularity and machine speed.

DEAFNESS CANNOT BE CURED by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an in-flamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Sold by druggists, 75c. Toledo, C Hall's Family Pills are the best. Toledo, O.

Paying It Out. Mrs. Ramshorn-Will you .remember to give Mary a good scolding tomorrow morning before you go to town?

Mr. Ramshorn-A good scolding? What for? What has she done now? Mrs. Ramshorn-Ob, nothing. But am going to have the drawing-room carpet up, and she will have to beat it, and she hits ever so much harder when she's out of temper.-Ally

She Got the Position.

## WASHINGTON.

From our Regular Correspondent.

Washington, November 3, 1902. From Omaha comes a startling Representative Mercer has been reprinting pages of the Congressional sending them out under his frank. It which represents that he voted for a bill was never discussed in the House publican majority. As Mr. Mercer is known to be a particular friend of the away a part of their territory. Secretary of Agriculture his alleged conduct reflects seriously on Mr. Wilson and to some extent on the administration proper.

widely heralded as demonstrating the down. The jealous wife took a few question with a view to having that success of the President's arbitration policy but as a matter of fact, although a shawl over her head, as the hired naries, there was much in it which The most serious development was manner. With heart almost burstthe discovery that there was a large agreement to arbitrate and who were they own a large number of collieries man. She was much ahead of the the railway presidents to observe any in interfering with the little pleasdecision of the Commission not ob- ures of her husband. The hired girl served by their competitors and there- has certainly a kiss coming. fore the whole success of the Commission's work is threatened. It is even claimed that the railway presidents have purposely misled the President in regard to the proportion of collieries which they operate, with a view of being able to ask him, when the Commission shall have rendered its findings, to compel all the operators to observe them. That, the President would have no power to do and because it would be unfair to compel one set of operators to observe regulations not compulsory with their competitors, they would escape the fullfillment of their promise to abide by the findings of the Commission. Mr. Mitchell said that he had understood that all the operators were party to the agreement, but that Pres. Baer emphatically denied. He also stated that while no objection would be made to Mr. Mitchel's representing the miners as a whole he must not be regarded as the president of the miners' union. Mr. Truesdale, of the D. L. & W. Ry., said that he hoped to effect a settlement of practically all the differences between himself and his employes through a committee to be appointed by the latter and that only differences which could not be so reconciled would be brought to the attention of the Commission. this means it was hoped to supplant Mitchel by a committee of the miners'

& W. was concerned, at least. Attorney General Knox, doubtless, greatly to the surprise of Senators Hanna, Spooner and several others, has found that the title to the Panama canal property is perfectly clear and now the government will bend its energies to the negotiation of a treaty with Columbia. Such a treaty is made extremely difficult by provisions in the canal bill undoubtedly inserted for that purpose. The bill provides for absolute and perpetual sovereignty over the zones of land through which the canal will pass. This, according to the Columbia constitution, cannot be granted. It was pointed out to Mr. Spooner that such was the con-

# Consumption

The only kind of consumption to fear is "neglected consumption."

People are learning that consumption is a curable disease. It is neglected consumption that is so often incurable.

At the faintest suspicion of consumption get a bottle of Scott's Emulsion and begin regular doses.

The use of Scott's Emulsion at once, has, in thousands of cases, turned the balance in favor of health.

Neglected consumption does not exist where Scott's Emulsion is. Prompt use of Scott's Emul-

### THE ARMY CANTEEN.

Adjutant General Corbin Will Strongly Recommend its Re-establishment.

The annual report of Adjutant officers of the army showing the effect and morals of the soldiers. These were tried for drunkenness in the absence of the canteen than when it was in existence. Believing that the evil of drunkenness can be lessened by the sale of beer and light wines in the post exchange, Gen. Corbin urges the re-establishment of the canteen.

Secretary Root has not yet begun the preparation of his annual report, but in view of the almost unanimous opinion of army officers in favor of the canteen, he believes he should boly pass such legislation as is necessary to again permit the regulation of such sales by the war department.

Some people apparently go to a funeral to enjoy the ride. Only a few days ago, a cortege was passing number of operators in the anthracite a terrible rebuke to the faithless and seated in a carriage near the region who were not party to the spouse and tearing herself from his end of the procession was a couple, laughing and chuckling in a very unbecoming manner. People who don't know how to conduct themselves at a funeral had better remain at home.
