REACT GORE MURDER

Suspected Russian Endures Ordeal and Is Set Free.

AN INVESTIGATION BY AMERICANS.

Consul General Gowdy Orders Physicians Resident In Paris to Conduct Autopsy and Report on Death of California Woman,

PARIS, Nov. 25 .- The Gore tragedy was presented in a dramatic aspect yesterday when the French officials took De Rydzewski to the scene of the occurrence and compelled him to remact every detail of the affair, this being done under the practice of the French law, which requires the reconstitution of the tragedy in the presence officials under exactly the same conditions as it was originally enacted.

The chamber was arranged as on the night of the fatality, and the same weapon was placed in De Rydzewski's band to act out his version. As far as h known the prisoner went through the ordeal with fortitude, without wavering from his first story of the accidental fall of the revolver.

As the bullet was found buried in the hair of the victim it is impossible to verify the direction taken by the missile otherwise than by the wound. As a result of the examination the examming magistrate has decided to set De Rydzewski at liberty provisionally. Refore the party left the house M. Bertillon, the criminologist, who is also investigating the case on behalf of the police, arrived and took several photographs of the room after asking De Rydzewski to place everything in exactly the same position it occupied at the moment of the tragedy. It is re-ported that as he did this De Rydzewext evinced considerable emotion.

At the same time the case has assomed an international aspect by the action of Consul General Gowdy in following out the instructions of the state department at Washington and appointing a commission composed of four American doctors residing in Paris to conduct an independent post mortem examination.

The questions before the American medical commission are delicate, as their conclusions as to the course of the bullet may conflict with those of the medical experts. The latter base the accident theory on the upward range of the bullet, but the American officials believe that an independent autopsy will establish the fact that the range was almost horizontal, thus indicating a direct shot from an aimed weapon.

The United States consulate staff is also taking the depositions of witnesses independent of those taken by the French officials. So far this action has not developed any new features, but the depositions furnish a complete and unprejudiced history of the case and will be forwarded to the state department at Washington. Mr. Gowdy will be represented at the examination of De Rydzewski, in whose apartment Mrs. Gore was killed, but as an observer, as care will be taken not to create an impression that there is the least official doubt of the thoroughness of French justice.

SCRANTON, Pa., Nov. 25. - The scenes of the strike settlement negotiations have been suddenly shifted from this city to Washington and New York. Today the committee of nine of the independent operators is holding a conference with the presidents of the coal carrying roads regarding the position of the individual companies, and at the same time a meeting between Wayne MacVeach and other attorneys representing the coal roads and President Mitchell and his attorneys is being held in the national capital. Scranton and the entire coal regions will in the meantime wait with considerable interest to hear what the Thanksgiving ffering will be. The independents have cone to New York to find out what the arge companies can do for them in the way of freight rates in case an inrease in wages is decided upon. The nine workers' representatives have cone to Washington to find out what he large companies had to offer. Both irdently wish for success, but it is not within their power to say what will be

Voting Machine Reverses Result. ITHACA, N. Y., Nov. 25.-The votng machine in the Second district of he Third ward of Ithaca was opened sursuant to order of Supreme Court ustice George F. Lyon, and as a result t was found that Miller, the Demoratic candidate for mayor of Ithaca. eccived 140 votes, or seven more than was accredited to him by the official anyass, which indicated that the vote or mayor had been a tie between the tepublican and Democratic candidates. ach one having apparently received .648 votes. Miller is therefore apparntly elected by a plurality of seven otes. The Republican committee has ot yet decided what action to take, and there may be a fight in the courts.

Hurricane In Mexico. OANACA, Mexico, Nov. 21 .- A hurricane of terrific violence and great destructiveness has swept over the integior of the states of Oaxaca and Chiapas, and many coffee plantations have been completely ruined. The loss on the Santa Rita and Morolos plantations, situated in the Juquila district, alone amount to more than \$100,000.

Judge Earl Very Low. HERKIMER, N. Y., Nov. 25.-Robert Earl, former judge of the court of appeals, who was stricken with paralyds at his apartments in the Palmer House on Saturday evening, is now in a critical condition. Little hope is entertained of his recovery.

TO SOLVE TRUST PROBLEM.

The President Makes a Character

istic Utterance on the Subject. PHILADELPHIA, Nov. 24 .- At the founders' day banquet of the Union league in this city President Roosevelt closed his address with a stirring announcement of his determination to solve the trust problem. He

"The question of the so called trusts is but one of the questions we must meet in connection with our industrial system. There are many of them, and they are serious, but they can and will be met. Time may be needed for making the solution perfect, but it is idle to tell this people that we have not the power to solve such a problem as that of exercising adequate supervision over the great industrial combinations of today. We have the power, and we shall find out the way. We shall not act hastily or recklessly, but we have firmly made up our minds that a solution and a right solution shall be found, and found it will be.

"No nation as great as ours can expect to escape the penalty of greatness, for greatness does not come without trouble and labor. There are problems ahead of us at home and problems abroad, because such problems are incident to the working out of a great national career. We do not shrink from them. Scant is our patience with those who preach the gospel of craven weakness. No nation under the sun ever yet played a part worth playing If it feared its fate overmuch-if it did not have the courage to be great."

MAIL POUCHES STOLEN.

Chicago Thief Said to Have Secured \$10,000 In Broad Daylight.

CHICAGO, Nov. 24.-The Chicago postoffice has been the victim of one of the most daring robberies that have ever been perpetrated in this city. Ten thousand dollars is the amount believed to have been secured by the robber, who made his escape without leaving any clew to his identity.

Two mail sacks containing the money which had just been picked up from two of the downtown substations were left in an unprotected wagon in front of the Masonic temple while the mail carrier went into the building to gather mail that had accumulated there. The carrier was gone only a moment, but when he returned his horse and

wagon had disappeared. The street was full of people at the time, but no one seems to have noticed the thief. The two small sacks, cut open and rifled of their contents, were found near Kirk's soap factory, fully a mile from the scene of the robbery. The horse and rig were found two miles farther west. No trace of the robber has been secured.

PEACE FOR COLOMBIA.

General Herrera and Government Commissioners Sign Treaty.

PANAMA, Nov. 22.-Consul General Gudger has just landed from the Wisconsin, bringing the news that a treaty of peace has been signed by the revolutionary general Herrera and the government commissioners.

The treaty of peace specifies that General Herrera shall hand over to the government the entire revolutionary fleet, consisting of the gunboats Padilla, Darien, Gaetan and Boyaca, and all the war equipments of the insurgent | Christian of Denmark armies. Once peace has been declared the Colombian congress will decide regarding the laws for the Panama canal and the elections and also the paper money question, as this is the wish of the president and the whole nation.

Car Works In Mexico, CITY OF MEXICO, Nov. 25,-It is reported that a car manufactory on a large scale is to be established in this country, a favorable concession having been granted.

MORTGAGE 100 YEARS OLD.

A Philadelphia Incumbrance That No One Has Ever Sought to Satisfy.

A sale of property at 213 Fitzwater street was recently made, and in going back over the old records it was discovered that a mortgage which antedated the administration of President Washington was still an incumbrance on the property, says a Philadelphia report. The paper was executed by James Clow and wife in favor of Archibald McCall. The consideration named was 333 1-3 Spanish milled dollars, a coin which was the standard of value during the revolutionary period. The value of the milled dollar exceeded by a few cents the value of the silver dollar now in

McCall transferred the mortgage in the year 1794 to John Houck, and it does not appear on the records again. The attorney for the petitioner has served notice by advertisement on Houck or his heirs to appear in the court of common pleas No. 1 on December 1, and show cause, if any exist, why the mortgage should not be entisfied by an order of the court. It is not anticipated that any defendants will appear, but the legal formula must be gone through with before the title may be perfected.

Even if any of Mr. Houck's heirs should appear in court it would be necessary, if they designed making a valid claim for money due, to show that the debt had been recognized during the past 20 years. A payment of interest or part of the principal is the best evidence of such acknowledgment, and there is no record of any payment having been made for more than 100 years.

OLD PEOPLE WHO WORK.

World-Famed Celebrities Who Still Keep Busy Although Over the Fourscore.

It is needless to call upon history to prove the usefulness and richness that may attend the lives of those who have passed their three score years and ten, says Will Carleton's Magazine, Every Where. The venerable Gladstone did the thinking and much of the speaking for the government of one of the mightiest empires of the world, almost up to the day of his death. Pope Leo, at the age of 91, carries the burdens of a worldwide church, and Herbert Spencer at 81 reads and digests the news and literature of the world and recreates therefrom an immortal philosophy. In our own land the sturdy Senator Morrill and Evarts, the jurist, worked out their problems of state and law almost up to the very hour when they were called to higher fields of effort; and to-day ex-Senator Bradbury, of Maine, aged 99, and Senator Pettus, of Alabama, at 81, are busy with the affairs of this world.

The venerable David Wark, the father of the Canadian senate," performs the duties of his high office at the remarkable age of 97, and Verdi still composed music at the age of 87. There are few keener or more persistently active minds in the world of finance than that of Russell Sage, who recently celebrated his eighty-seventh birthday, while King ministers the affairs of state at the age of 85, and Julia Ward Howe, though 83, writes books that sell, and gives lectures that people are eager to hear.

OKLOHOMAS CUT THEIR HAIR.

Young Men of the Tribe Are Fast Disearding Many of Their Aboriginal Ways.

The blending of the customs of the red men and the palefaces is discussed in a report recently sent to Washington by Maj. George W. H. Stouch, United States army, the agent in charge of the Cheyenne and Arapahoe Indian reservation in Oklahoma. As the views of an authority on the subject, the report, reviewed by the Washington Star, throws interesting sidelights on what is really taking place in the amalgamation of the two races. Maj. Stouch says:

"Many of the older Indians adhere to their religious customs, yet they do not indulge in them to any alarming or detrimental extent. By moral sussion and friendly advice a number of the young Indians have been prevailed upon to discontinue the wearing or long hair.

"No strenuous effort has been put forth to induce the old Indians, who have worn long hair all their days, to shear their locks, as to compel them to cut their hair would be very bad policy and result in more harm than good. The loss of their hair would make the old fellows weak, humiliated and cowed characters out of what are now strong and leading spirits."

She Fears Cats.

For 21 years Lizzie Cunningham, of New York, dislocates her jaw every time a cat approaches her. When she was 16 years old she was attacked by a cat, and since then every time she sees a cat running toward her she opens per month to scream and is unable to close it again.

Russian Aeroplanes.

Aeroplanes, known as "Flying Dracoons," are now in use in the Russian fleet. Several of these kites bound together can support a man in the air. Considerable heights are thus reached and the invention is admirably adapted for scouting.

English Women Artisans.

In Worcestershire, 409 women are engaged in making anchors, while 703 others make needles and 1.044 nails. Nearly all are either married women or widows.

NAMED THE BABY FOR A CAT.

Wentthy Woman Had Just Lost Her Pet Maltese by Death and the Child Got Its Name.

"I have christened children every conceivable name," said a clergyman the other day, relates the Baltimore Sun, "but I think the funniest was ; boy I named for a cat. My pastorate was a suburb of Boston, and one of my parishioners was a lady of a large estate and a gentlewoman in every sense of the word, generally known in the community as Aunt Esther She was an eccentric person, who wore silken gowns very long in the train and short in the front and alwave several old-fashioned brocches at the same time. She visited Washington frequently, always with her pet cat as a traveling companion, and she was one of the few ladies accorded a seat on the floor or the house of congress. On the grounds of her country home was a diminutive cemetery, where her feline pets slept after life's fitful fever.

"During my residence in the parish her special favorite was a large Maltese cat, named Thomas Henry whose death occurred just before the coming of a new baby at the lodgekeeper's home on Aunt Esther's place She was to be godmother and name the child, while I was to baptize it. Her recent bitter bereavement still weighed on her soul, and when lasked By what name shall this child be known?' Aunt Esther responded, in trembling tones: 'There is no name so sweet to me as Thomas Henry,' and by that title the boy was thenceforth

KISSES RAISE 'PHONE RATES.

Sweethearts Monopolize the Wires to Such an Extent an Advance Becomes Necessary.

A merchant from Uniontown was lately talking about telephones the other day at the hotel where he was stopping, reports the Philadelphia Record.

"In my town," he said, "the telephone company is going to raise the rates for business 'phones from \$25 to \$45, and for residence 'phones from \$18 to \$32: Do you know why? It is to keep sweethearts from monopolizing the wires. It is to make telephones so expensive that the young men and women who love one another won't bill and coo over the wires all day long.

"In Uniontown now it is a wonder 3love words that pass over them. The State." Tickets for the third tour will 46 Wolf, John J., farmer, Orange sound that a kiss makes—that ph, be good to return by regular trains 47 Welsh, F. M., farmer, Greenwood by sound—is sent many times a day until May 21, 1002. from one receiver to another. And such expressions as darling, and deary, and honey, and sweetheart drown out altogether the plain busiceivable that are due.

sparking, the telephone rates are to be raised nearly 100 per cent."

BENEFICIAL WALKING TOURS.

Autumn Outlings Afoot Which Are the Most Henithful and Enjoyable Forms of Exercise.

Walking is an art almost said to be one of the lost arts, says Country Life in America. It is astonishing how few know how to walk-know how to acquire the measured stride, the springy step, the easy poise of the body and the swing of the arms, which make walking at once one of the most healthful and enjoyable forms of physical exercise. For the real pleasure of walking one must turn to the country. Pavements are but dead, unyielding matter at best, In the turf of the country there is a spring in response to the pressure of the foot which is a delight and an inspiration in itself. The purity of the air sets the blood to racing glori-

Good walkers find 20 miles a day a comfortable average, allowing of plenty of time for rest and "loafing. Two weeks thus spent will afford memories to last for all time, and with them a measure of health and strength, a quickening of vital forces, a nervous energy which will find expression in increased power for accomplishment in the world's work.

How the Earth Changes.

How does one generation of men suc-ceed another? The fathers are not swept away in a body to make room for the children, but one by one the old drop off and the young come on, till a day is reached when none of those remain that once were here, says Harper's. How does some form of human speech become extinct? About a hundred years ago an old lady named Dolly Dentreath died in Cornwall. She could speak the Cornish language; after her death there was nobody that could, Thus quietly did the living Cornish language become a dead language; and in a like unobtrusive manner have been wrought most of the new becomings which have changed and are changing the earth.

Ancient Picture Gallery.

A picture gallery that dates from the stone age has been unearthed in a cavern near Eyzles, France. The pictures, which are all of prehistoric animals, were not only cut in the rock, as is usually the case with such representations, but were painted in several colors, and give some evidence of artistic skill. There are 80 pictures, of which 49 represent bisons of various kinds. The pigments used, which are shades of red and brown, have been found, on analysis by Moissan, the eminent French chemist, to be ochres mixed with minute fragments of transparent silica.

THE AX of toughest steel becomes dulled by constant use and must have a new edge if it is to do good work. Constant work dulls a man as it does an ax, makes him sluggish of body and dull of mind. He needs a tonic, something that will restore the keenness of mind and activity

of mind and setivity of body. Dr. Pierce's Golden

Medical Discovery puts new life into weak, worn-out, rundown men and women. It strengthens the weak stomach, purifies the blood, and effect-ively stimulates the liver. The whole body is built up with sound, solid flesh by the use of "Golden Medical Discovery."

"I was confined to my bed for four months from January 1st, 1899, and commenced to take your medicine January 26th, 1899," writes Mrs. Sallie L. Sheppard, of Poplarbluff, Mo. "Pleoce's Golden Medical Discovery, four of 'Favorite Prescription,' two viuls of 'Pleasant Pellets,' sud one bottle of Doctor Pierce's Compound Extract of Smart-

of Doctor Pierce's Compound Extract of Smart.
Weed, as a liniment.
Indigestion, obstinate
constipation, and hardening of the liver was my
trouble. I am at this time able to do almost any
kind of house work. Your medicine saved me
from my grave. Thanks to you for the benefit.
My case was hopeless when I began taking your
medicine."

Don't be fooled into trading a substance for a shadow. Any substitute offered as "just as good" as "Golden Medical Discovery," is a shadow of that medicine. There are cures behind every claim made for the "Discovery," which no "just as good " medicine " can show. Biliousness is cured by the use of Dr. Pierce's Pleasant Pellets.

Personally Conducted Tours

Via Pennsylvania R. R. Season of 1902, '03.

The Pennsylvania Railroad Company aunounces the following Personally-Conducted Tours for the season of 1902-1903:-

California-Two tours: No. 1 will leave New York, Philadelphia, Harrisburg, and Pittsburg January 29; No 2 will leave February 19, and will include the Mardi Gras at New Orleans. Florida-Three tours to Jackson-

ville will leave New York and Philadelphia, February 3 and 17, and March | 42 Savage, Harry, merchant, The first two of these admit of a that the wires don't blush red, the sojourn of two weeks in the "Flowery until May 31, 1903.

Tickets for the above tours will be sold from principal points on the Pennsylvania Railroad. Honey by the Ton-

A correspondent from Susquehanna says: "While hunters were in search of rabbits on Elk mountain, they encountered a huge ledge of rocks and cliffs of great height and covering a large area down which ran a narrow path. Descending to the middle of the ledge they found multitudes of wild honey bees. The bees savagely attacked the hunters and drove them from the ledge, but they returned and built several huge bonfires and killed great numbers of bees. Finally a search among the ledges revealed the presence of honey in great quantities. The hunters carried away hundreds of pounds. The sweet deposits have evidently been there for years. Farmers who have visited the place estimate the weight of honey stored there at several tons."

Mother Gray's Sweet Powders for Children Successfully used by Mother Gray, nurse in the Children's Home in New York, Cure Feverishness, Bad Stomach, Teething Disorders move and regulate the Bowels and Destroy Worms.
