

TO FIGHT THE PLAGUE

State and National Authorities Organize at Boston.

SITUATION REGARDED AS GRAVE.

Foot and Mouth Disease Likely to Cause Shortage in New England Milk Supply—Seven Hundred Cases Are Reported.

BOSTON, Dec. 2.—Matters are rapidly shaping themselves for vigorous handling of the foot and mouth disease in this state. The situation has been canvassed and brought from Dr. Austin Peters, the chief of the state cattle bureau, a statement that there are 700 cases of the disease divided among twenty-five towns.

The arrival of Dr. D. E. Salmon, chief of the United States bureau of animal industry, brought arrangements for establishing close quarantine to a head, as he sanctioned what had been done and gave various orders which will quickly bring all New England under observation of staff officers of the bureau of agriculture. His first conference was with his own men, Dr. Samuel E. Bennett, who has charge of the New England division; Dr. John R. Mohler, chief of the pathological bureau; Dr. Leonard Pearson of the University of Pennsylvania, who has been investigating in Rhode Island, and Dr. Laws of Cornell, who has been in Vermont.

Later a statement was issued in the form of interrogatories and answers. By this it was seen that Dr. Salmon believes the situation is very disquieting, that it is impossible to tell when the disease will be eradicated, that no cases are known outside of New England, that cattle exposed to infection will not be immediately slaughtered and that reasonable compensation will be given to cattle owners whose animals are slaughtered under direction of the federal government.

Anxiety here has now turned to the milk supply in the knowledge that much of the infection is in herds of cows which have been contributing to the supply sent to Boston.

A CATTLE QUARANTINE.

Foot and Mouth Disease Epidemic in New England.

WASHINGTON, Nov. 28.—Secretary of Agriculture Wilson has issued a sweeping order establishing a quarantine of cattle, sheep and swine in the New England states and prohibiting their exportation from Boston until further orders.

Investigations by the department of agriculture disclosed the fact that what is known as foot and mouth disease exists to an alarming extent in Connecticut, Rhode Island, Massachusetts and Vermont. The experts of the department—Dr. Mohler, Dr. Leonard Pearson of the University of Pennsylvania and Dr. James Law of Cornell—visited the infected districts and united in a recommendation that in order to prevent the spread of the disease a quarantine should immediately be established.

Save Life to Save Treasure.

VALPARAISO, Ind., Dec. 1.—In the little town of Westville, six miles east of this city, Wesley Reynolds, watchman of the Westville State bank, was shot and killed by burglars while defending the bank safe from their attack. After killing Reynolds the desperadoes, who were attacked by citizens who had been alarmed by the battle, fought their way to liberty and are still at large, though a posse of infuriated men are after them, and final escape seems impossible. The watchman saved the bank at the cost of his own life, for the burglars did not have time to blow open the big safe after killing him. It is thought he wounded one of the gang.

Plot to Kill Japan's Emperor.

VICTORIA, B. C., Dec. 3.—The steamer Kaga Maru, which has just arrived from the orient, brought news of an attempt on the life of the emperor of Japan when the imperial train was at Otaka, a station west of Hiroshima, en route to the scene of the maneuvers of Kinshin. A number of conspirators had gone there and arranged to blow up the emperor's train, but the police authorities learned of the plot, and the would-be dynamiters fled. The imperial train did not proceed until an engine had been sent over the line to test the safety of the track. The plotters were not captured.

Public Debt Decreased.

WASHINGTON, Dec. 2.—The monthly statement of the public debt shows that at the close of business Nov. 29, 1902, the debt, less cash in the treasury, amounted to \$358,097,281, which is a decrease for the month of \$410,440. The cash in the treasury is classified as follows: Gold reserve fund, \$150,000,000; trust funds, \$869,236,549; general fund, \$145,458,830; in national bank depositors, \$148,911,348; total, \$1,313,606,717.

Ten Years For Stillman.

NEWARK, N. J., Dec. 2.—Claude L. Stillman, ex-assistant secretary for the Murphy Varnish company, who pleaded guilty to charges of forgery, embezzlement and larceny, was sentenced by Judge Skinner in the court of quarter sessions here to ten years in state prison. Stillman received the sentence calmly.

Hebard's Crew Saved.

DETROIT, Mich., Dec. 3.—A special from Sault Ste. Marie, Mich., says that the crew of the lost steamer Hebard was rescued Sunday morning and pulled ashore in a "bos'n's chair" between the hours of 3 and 10 o'clock while the steamer was pounding to pieces on the rocks 200 yards off shore.

AGAINST KISSING.

Bill Before Virginia House Requires Doctor's Certificate For Oculators.

RICHMOND, Va., Dec. 2.—In the house of delegates Dr. W. B. Ware, a practicing physician, has introduced a bill to make promiscuous kissing a misdemeanor. It is the first measure he has presented except by request. Practically all Dr. Ware will say of his bill is that while it ought to pass he has no idea that it will be adopted. The act reads as follows:

"Whereas kissing has been decided by the medical profession to be a medium by which contagious and infectious diseases are transmitted from one person to another, and whereas the prohibiting of such an offense will be a great preventive to the spreading of such diseases as pulmonary tuberculosis, diphtheria and many other dangerous diseases, therefore be it enacted by the general assembly of Virginia:

"First.—That it shall be unlawful for any person to kiss another unless he can prove by his family physician that he has not any contagious or infectious disease.

"Second.—If the physician testifies that the defendant has weak lungs, he shall be found guilty of a misdemeanor, and the same penalty shall be imposed as if he had some contagious or infectious disease.

"Third.—Any person violating the provisions of the first and second sections of this act shall be deemed guilty of a misdemeanor and fined not less than \$1 nor more than \$5 for each offense."

Investigating Swift Explosion.

CHICAGO, Dec. 1.—A vigorous examination with a view to determining the causes that led to the explosion of Swift & Co.'s boiler plant Saturday, when thirteen persons were killed, has been begun by mechanical experts representing the city and private interests. Although those conducting the investigation were reticent in discussing the progress of the work, the intimation given was in accord with the original theories of the accident—that Water Tender Owens, who paid the penalty of death for his supposed carelessness, was responsible for the catastrophe. The great force produced by the explosion and other deductions led to the conclusion that the water had been allowed to get low in the boilers and that when an effort was made to supply the deficiency the explosion, resulting in the demolition of the plant, followed.

Heavy Snowfall in Germany.

BERLIN, Dec. 3.—Heavy snowstorms have prevailed in Saxony and Thuringia, seriously interfering with railroad traffic. All the trains have been stopped in the Harz mountain districts, and the snow is over three feet deep in the mountains between Saxony and Bohemia.

Noted Horse Breeder Dead.

LEXINGTON, Ky., Dec. 3.—A. J. Alexander, the well known breeder of trotters and thoroughbred race horses, is dead at Woodburn of heart disease.

FINANCIAL AND COMMERCIAL.

Closing Stock Quotations. Money on call firm at 6 per cent. Prime mercantile paper, 5 1/2 per cent. Sterling exchange firm, with actual business in bankers' bills at \$1.8754-5775 for demand and at \$1.8925 for 60 days. Posted rates \$1.84 1/2 and \$1.88. Commercial bills, \$1.82 1/2-4 3/4. Bar silver, 48 1/2. Mexican dollars, 37 1/2. Government bonds easier. Railroad bonds irregular. Closing prices: Atchison, 38; Ontario & West, 29 1/2; C. C. & St. L., 96 1/2; Pacific Mail, 39; Ches. & Ohio, 48 1/2; People's Gas, 101 1/2; Del. & Hudson, 15 1/2; Reading, 60; Erie, 32 1/2; St. Paul, 115 1/2; Lackawanna, 34 1/2; Sugar Refinery, 129 1/2; Lead, 27 1/2; Texas Pacific, 43; Louis. & Nash., 130 1/2; Union Pacific, 93 1/2; Manhattan Con, 141 1/2; Wabash pref., 45 1/2; Missouri Pac., 106 1/2; West. Union, 87 1/2; N. Y. Central, 154 1/2.

New York Markets.

FLOUR.—Continued quiet and easy with-out change. Minnesota patents, \$1.90 1/2-1 15; winter straight, \$1.60 1/2-55; winter extras, \$1.55 1/2-40; winter patents, \$1.90 1/2-90. WHEAT.—Quiet, but steady, on light offerings and the strength of corn; May, 78 1/2-150 1/2; state, 54 1/2-54 1/2; c. i. o. f. b., 54 1/2-54 1/2; track. CORN.—Light contract arrivals and prospects for more fair wheat; May, 47 1/2-48 1/2. OATS.—Quiet, but steady with tender with corn; western, 37 1/2-42. POULTRY.—Easy; mess, 418 1/2-50; family, 11 1/2-12. HAMS.—Dull; prime western steam, 20 1/2-21. BUTTER.—Firm; state dairy, 20 1/2-21. EGGS.—Firm; new state, full cream, fancy, small, colored, September, 12 1/2-13; late made, 12 1/2-13; small, white, September, 12 1/2-13; late made, 12 1/2-13; large, colored, September, 12 1/2-13; late made, 12 1/2-13; white, 12 1/2-13; late made, 12 1/2-13. LARD.—Firm; state and Pennsylvania, average best, 28 1/2-30; western, fancy, 28 1/2-30. SUGAR.—Firm; fair refining, 24 1/2-25; centrifugal, 96 test, 24 1/2-25; refined firm, crushed, 6-8; powdered, 4-5. PURE SUGAR.—Firm at 50-55. MOLASSES.—Firm; New Orleans, 20 1/2-22. RICE.—Firm; domestic, 6 1/2-6 3/4; Japan, 4 1/2-5. HAY.—Quiet; city, 6c.; country, 6 1/2-6 3/4. WHEAT—Steady; shipping, 55 1/2-70c.; good to choice, 55c.-64c.

Live Stock Market.

CATTLE.—Market steady; choice, \$6 1/2-8; prime, \$5 1/2-6 1/2; good, \$5 1/2-5 1/2; veal calves, \$7 1/2-8 1/2. SHEEP.—AND LAMBS.—Market steady; best wethers, \$3 1/2-3 3/4; culls and common, \$1 1/2-2; choice lambs, \$5 1/2-5 3/4.

Table with columns for days of the month (SUN, MON, TUE, WED, THUR, FRI, SAT) and rows for dates from 1 to 31.

"To say a pleasant word to anyone was almost impossible."

"I was troubled with female weakness for eight years, and suffered more than I can tell," writes Mrs. Gust. Moser of Ovando, Deer Lodge Co., Mont. "My disposition was affected to such an extent that to say a pleasant word to anyone was almost impossible."

"I had two operations performed by one of the most skilled surgeons of the West, but did not get relief. Then, against my doctor's strict orders, I commenced taking Dr. Pierce's Favorite Prescription and Golden Medical Discovery, and also followed the advice given in the Common Sense Medical Adviser. "I continued this treatment for three months and to-day am as healthy and well as a woman can be. I cannot thank Dr. Pierce enough for his kind letters to me."

Womanly diseases, as a rule, spoil the "disposition," because of the extreme nervousness and suffering they cause. Happiness as well as health is restored to the woman whose diseased condition is cured by the use of Dr. Pierce's Favorite Prescription.

After eight years of suffering and two fruitless operations, three months' use of "Favorite Prescription" restored Mrs. Moser to perfect health. This great remedy for woman's ills, establishes regularly, dries weakening drains, heals inflammation and ulceration and cures female weakness.

The Common Sense Medical Adviser, roots large pages, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

RURAL PROTECTION.

A Law That the Next Legislature Will be Asked to Pass. A Salaried Constabulary to Afford Police Protection to People Residing in the Country.

It is expected says the Milton Standard that the next legislature will be asked to pass a law providing for the appointment of a salaried constabulary which shall, either by appointment by the governor or election by the people, act in the capacity of peace officers in the rural districts where petty crimes are committed, many of the perpetrators of which now escape punishment because of the inefficiency of the constables of the several townships. Under the present system the work of the local constables has for the most part proven most trying. This is mainly due to the fact that constables are not salaried officers and are forced to depend in many cases upon some other occupation for a livelihood. This fact frequently has a tendency to impair their usefulness and to prevent them from keeping that careful watch over transgressors so necessary to the preservation of the peace and upholding of the dignity of the commonwealth.

The objections that may be raised to the passage of such a law are numerous. In the first place it would require a large number of these state peace officers to patrol the counties and the aggregate amount of their salaries would be enormous. If these constables were to be appointed the probabilities are that politics would enter into the selection, and everybody knows what that would mean. If they were to be elected by the respective counties a heavy burden would be thrown upon the counties. That better protection for rural communities is needed no one disputes, but it is doubtful if the state constabulary plan of meeting the emergency, will be approved by the tax-payers.

An Example for the Despondent.

The deputy superintendent of the great Bellevue Hospital is Michael J. Rickard. He receives \$4,000 a year. There is some talk that he may be made superintendent of one of the greatest institutions in the country. When Rickard was sixteen a truck ran over him and one leg was amputated. He began active life with no education, with one leg gone, with no friends. But he had resolved to be of some use in the world. While his amputated leg was healing he made himself handy around the hospital. When it was healed they gave him a job there. He was not afraid of work. From one post to another he was promoted till now he is the acting superintendent. A hospital superintendent was not his chosen vocation, but he made the most of the opportunities he found, and his success is the result. His secret is tersely told by one of the physicians there who said:

Rickard not only knows every brick in the hospital, but he knows how much mortar there is between the bricks.

For young men with two legs, with good education, who are inclined to be despondent over their lack of success in life there is a lesson in Rickard's rise. Be thorough, be obliging, be patient, make the most of every opportunity, and success will come.—World.

CASTORIA. The Kind You Have Always Bought. Bears the Signature of J. C. Shultz.

Survival of the Home.

Dr. Minton Thinks It Imperiled By Women Wages.

"Unless there is a reaction from the tendency now prevailing, unless women will consent to leave a larger share for men to do in the office, the store and factory, the future of the home is imperiled and the family circle is threatened with forces that tend toward disintegration and decay," declared Rev. Dr. Henry Collin Minton, moderator of the last General Assembly of the Presbyterian church, in a Thanksgiving Day utterance on Thursday.

Dr. Minton is now pastor of the old First Presbyterian church, of Trenton, and his congregation is one of the most fashionable in New Jersey.

"The young women of to day," said Dr. Minton, "are filling too places our grandmothers never dreamed of filling. Everyone of them is robbing a home of a wife and mother, a household of a mistress, a maid."

"The unmarried are in danger of becoming timid in the face of the practical difficulties of homemaking, while the married are flocking for refuge to the cruel 'tender mercies' of hotels and apartment houses."

"A country without homes is a country without patriotism or promise of permanency. The American home is at once the pride, the joy and the hope of our nation. God grant that it may continue to be so; but it is not without its perils. Conditions are combining to make the survival of the home a more serious problem in our modern life."

"Sniffles" Takes Place of 'Grip.

An epidemic which physicians call the "sniffles" and which they say is likely to produce much more serious results unless promptly treated, is prevalent in Philadelphia. It is likely that we will hear very little about the "grip" this year now since "sniffles" has been added to the medical vocabulary.

NINETY-EIGHT PER CENT. There is a fascination about big profits to a business man. But the conservative and cautious trader prefers to have the lesser per cent. of interest and the larger per cent. of safety in his investments. There is no business man who would not consider it a sound proposition to invest in an enterprise in which absolute loss was impossible and which offered ninety-eight chances in a hundred of a rich profit. The statistics of cures effected by Dr. Pierce's Golden Medical Discovery show that ninety-eight per cent. of cases of "weak lungs" can be absolutely cured. Almost if not all forms of physical weakness may be traced to starvation. Starvation as such is strength. The body is just as much starved when the stomach cannot extract nutrition from the food it receives as when there is no food. "Weak lungs," bronchial affections, obstinate coughs, call for nourishment. "Golden Medical Discovery" supplies that nourishment in its most condensed and assimilable form. It makes "weak lungs" strong, by strengthening the stomach and organs of digestion which digest and distribute the food, and by increasing the supply of pure blood.

Charity covers a multitude of sins, and uncovers a multitude of sinners.

AWFUL EXPERIENCE WITH HEART DISEASE.—Mr. L. J. Law, Toronto, Canada, writes: "I was so sorely troubled with heart disease that I was unable for 18 months to lie down in bed less than 15 minutes. After taking one dose of Dr. Agnew's Heart Cure, I retired and slept soundly. I used one bottle and the trouble has not returned."

The counterfeit never makes good.

PROVED PRICELESS.—Ruby coats and cinnamon flavor. Dr. Agnew's Liver Pills are household favorites. Impurities leave the system. The nerves are toned. The blood is purified. The complexion is bright and ruddy. Headaches vanish and perfect health follows their use. 40 doses to cents.—51

The usher is one man who can make us all take a back seat.

WHEN BABY HAD SCALD HEAD.—WHEN MOTHER HAD SALT RHEUM.—WHEN FATHER HAD PILES.—Dr. Agnew's Ointment gave the quickest relief and surest cure. These are gems of truth picked from testimony which is given every day to this greatest of healers. It has never been matched in curative qualities in Eczema, Tetter, Piles, etc. 25 cents.—52
