WASHINGTON.

From our Regular Correspondent.
Washington, December 16, 1902.

There is little doubt in the minds of those in a position to know, that the President has made a grave error in connection with the Japanese ministry, he having announced that he would appoint Mr. John Barret, now minister to Siam, to succeed Minister Buck, resigned. The appointment meets with no favor from the Japanese minister in Washington who has been led to believe that Mr. Barret is a very lightweight statesman and the appointment has incurred the enmity of Senator Hanna whose candidate for the position was Mr. Lloyd C. Griscom, now minister to Persia. Mr. Hanna's close intimacy with the Griscoms is well known and this affront from the White House which also involves his nearest friends and supporters will not be easily forgiven by the Senator from Ohio.

The President's recent letter, in which he stated his determination to consider the fact that a man was a negro as no bar to his holding office, is already making him trouble and Mr. Roosevelt is face to face with a very unpleasant dilemma. He has been put in his present position by Senator Petchard of North Carolina, "high priest" of the "Lily White" movement. The question of reappointing one S. H. Vick, a negro as postmaster at Wilson, N. C. has come to the President for decision and Senator Petchard has filed an emphatic protest. His grounds are twofold, that Vick bitterly opposed the Senator's plans in the state convention and that his appointment would be unwelcome to a majority of the patrons of the postoffice. Vick frankly admits his opposition to the Senator's plans, which he says contemplated the exclusion of the negro from North Carolina politics, and says that the argument that the majority of the white patrons of the office would prefer a white postmaster would prove equally true of every public office in the southern states. The President has asked time to think the matter over and the politicians are interestedly awaiting his decision.

The Shipping Syndicate, of which Mr. J. Pierpont Morgan is the head, is claimed to have shown its teeth for the first time this week when the London Dock bill was defeated on the floor of the House. It has long been the custom of dock owners of London to charge a toll of 42 cents per ton on all freight unloaded at that port which was shipped from the United States. With a view to ending this discrimination, Parliament enacted a law forbidding the collection of the toll and the dock owners got around the law by having the charge embodied in the bill of lading negotiated on American soil. The bill just defeated prohibited the making of the charge in bills of lading made in the United States. At first, the

milling, lumber and packing industries cordially supported the measure but for some mysterious reason the support of the two latter industries was withdrawn last week and, as a result, the measure failed. It is now intimated that an arrangement has been affected between the shipping combine and the larger shippers by virtue of which the latter shall share in the tolls exacted from the smaller shippers and that the Morgan lobby in Washington is responsible for the defeat of the bill.

For bitter charge and acrimonious invective the territorial fight, which was opened up in the Senate last week by the taking up of the territorial bill, and which has been waged for a week in lobby and committee room, promises to surpass anything which has lately taken place in the Senate. Senator Quay, who is determined to press the bill and secure the admission to statehood of Oklahoma, Arizona and New Mexico, is being charged by his republican colleagues with "commercialism" and self interest and ugly stories are being circulated in regard to the ownership of an Arizona mine by Senator Penrose's brother. Senator Quay is also charged with owning railroad properties which would be enhanced in value by the admission of the territories and he admits the authorship of a letter stating that it would be better for the territories to "go democratic" in the last election in order that the democratic minority in the Senate might be preserved solid for admission.

In connection with the territorial fight it is claimed by the democrats that the republicans would be glad to have the territorial bill occupy so much time in the Senate as to render impossible the consideration of any anti-trust legislation at this session.

Dr. Humphreys.

After fifty years Dr. Humphreys' Specifics enjoy the greatest popularity and largest sale in their history, due to intrinsic merit. They cure the sick.

PROFIT

The matter of feed is of tremendous importance to the farmer. Wrong feeding is loss. Right feeding is profit. The up-to-date farmer knows what to feed his cows to get the most milk, his pigs to get the most pork, his hens to get the most eggs. Science.

But how about the children? Are they fed according to science, a bone food if bones are soft and undeveloped, a flesh and muscle food if they are thin and weak and a blood food if there is anemia? Scott's Emulsion is a mixed food; the Cod Liver Oil in it makes flesh, blood and muscle, the Lime and Soda make bone and brain. It is the standard scientific food for delicate children.

Send for free sample.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

Scott & Bowne CHEMISTS, 409 Pearl St., N. Y. 50c. and \$1. all druggists.

A Turkey Trust.

Said to Be In Absolute Control of the Market.

Provident housekeepers will do well to make early calculation of the extra cost that will be added to their Christmas dinners. The high and steadily advancing price of foodstuffs, and particularly of those that are favored of the Christmas season, makes necessary this caution.

The big western meat houses, whose trade combination affect poultry as well as the larger carcasses, are in absolute control of the turkey market. All manner of fowls are being bought by agents of the trust, who go into the farming sections of the United States and Canada and make their purchases in lots running from one to one thousand. As fast as the fowls are bought they are killed, dressed and stored in the immense refrigerators of the trust.

Pump and tender turkeys brought sixteen cents a pound in last year's Christmas city markets. This year, according to both wholesale and retail dealers, they will range in price from sixteen to twenty cents a pound. Prime chickens and ducks will bring fourteen cents a pound.

Beef is lower than it was in the spring, but pork is higher. All hog products are advanced in price and are going higher.

Cattle fattened especially for Christmas will reach the Philadelphia market in great numbers this week. This meat will command good prices, and by reason of its unquestioned freshness and high quality many housekeepers will buy it rather than refrigerated poultry of doubtful age.

A Circular Outdoor Postoffice.

Uncle Sam's rural delivery has brought out many popular things. At one point on a crossroad in Indiana a number of farmers, in order to make it convenient to themselves as well as the mail carriers, have rigged up a novel contrivance. Here sixteen farmers are served and all have their mail boxes mounted on an old wagon wheel which has been set on top of a post. The sixteen boxes are around the rim of the wheel and when the carrier comes he simply has to give the wheel a turn to reach the boxes. It is a miniature postoffice out of doors.

Men's Hosiery in all kinds at Ben Gidding's.

Will Now go for the Property Owners.

A verdict of \$2,800 has just been given against the borough of Pottsville in a damage suit caused by a defective pavement. The plaintiff was a woman who sustained injuries by a fall, and at the last meeting of the council the city attorney was ordered to institute a suit against the owner of the property on whose sidewalk the injury occurred, to recover the judgment, costs and expenses.

There is more catarrh in this section of the country than all other distases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. Cheney & Co., Toledo, O. Sold by druggists, 75c. Hall's Family Pills are the best.

The Stage and the Church.

"Everyman," the English morality play of the fifteenth century, was the subject of the sermon preached by Rev. John Clarence Lee, D. D., at the Universalist Church of the Restoration, Master and Seventeenth streets Philadelphia, Sunday morning. Mr. Lee, with several members of his church, visited the play during its run last week. He was so impressed by good in it and its moral that he took it for the topic of his sermon. His text was: Colossians, 1st chapter, 28th verse; "Warning every man and teaching every man, in all wisdom; that he may present every man perfect in Christ Jesus."

Dr. Lee gave an outline of the play and the unique way in which it was conducted. He then said: "What St. Paul tried to do, as stated in this text, is practically the aim of every zealous preacher of righteousness. But the preacher's message is so often repeated that it sometimes falls upon deaf ears. Hence there have been efforts, from the days of the prophets down to the time of the Salvation Army, to put the truth into new forms, and by means of speech, song and emblem, to recall the sinful human soul to the right way.

"Such an attempt we find in the quaint and impressive old English dramatic allegory entitled 'Everyman'—Simpler than the Passion Play of Oberammergau, it has, nevertheless, much of the same solemnity and religious effectiveness. It illustrates how the stage, if rightfully employed, might well serve the cause of righteousness.

"The lesson of this quaint drama is the supreme and eternal worth of goodness. In the coming Christmas time it will be the flower of the sick child, the hand of helpfulness in some humble home, the generous gift to God's poor that will be written in the account book to be opened before the high Lord of heaven."

Dr. Lee then gave a short history of the stage, starting with the first theatre that was originated by the church and led up to the theatre of today. He said, "As the stage was originated by the church there is more reason why the churches should be closer to it today, instead of shunning it as some do. Of course there are plays of great vice and immorality today that have a depressing effect on a great number of persons who attend them, but there are twice as many persons who are on the other hand benefited by plays which have a strong moral to them. I am by no means encouraging these immoral plays, but as the Scripture says every man and woman was born pure, so can every man and woman get some good out of a play.

"The churches should help these good plays such as 'Everyman' and a great number of others and bring the good out of them, the same as a church takes up a man or woman and brings the good out of him or her."
