

**Good Horse Sense**  
 teaches that glue and old eggs (used to glue some coffees) are not fit to drink.

**Lion Coffee**  
 is never glazed—it's pure, undoctored coffee. The sealed package keeps it fresh and pure.

EIGHT HUNDRED FEVER CASES.

**Seven More Deaths at Ithaca—City Ownership of Waterworks Voted.**  
 ITHACA, N. Y., March 3.—Yesterday's election on the question of municipal control of the waterworks of Ithaca resulted in overwhelming victory for city ownership, there being 1,355 votes in the affirmative and only 30 in the negative.

The result of the vote has brought cheer to the town, where there was much depression by reason of the fact that during the past twenty-four hours five persons have died in and around Ithaca, all of whom had contracted typhoid fever in Ithaca. Seven new cases were also reported. It is estimated that there are 600 persons in Ithaca who are suffering with typhoid fever and probably 200 others elsewhere who have contracted the disease here.

To date nineteen Cornell students have died of typhoid fever, of whom eighteen were male students. This is almost 1 per cent of the male students in Cornell to die of the fever within three weeks.

**FLOODS IN PENNSYLVANIA.**

Hundreds Driven From Home in Pittsburgh—Many Mills Closed.

PITTSBURGH, March 2.—With every tributary of the Allegheny and Monongahela rivers emptying swirling torrents into the banks of these two streams, which rushed, swollen beyond their wont, down to the point where they converge to form the Ohio, Pittsburgh has been given a visitation which forced hundreds of families to either abandon their homes or seek escape from the water in the upper stories, while the mud and water dispensed destruction and discomfort below.

Mills in the lowlying levels throughout the county, numbering between fifty and sixty, were flooded, and 38,375 men are made idle for four or five days, with a loss in wages of more than \$326,748.

The flood was general through western Pennsylvania.

**GUN INVENTOR DEAD.**

**Dr. Gatling Dies Suddenly in New York—His Famous Weapon.**  
 NEW YORK, Feb. 27.—Richard Jordan Gatling, inventor of the world famous Gatling gun, died yesterday afternoon at the home of his son-in-law, Hugh O. Pentecost, 249 West One Hundred and Seventh street.

Dr. Gatling studied medicine in his youth, but never practiced. Early in life he turned his attention to mechanical invention. During the civil war he began the designing of a gun which would make war intolerable. The first gun he designed was made to fire 1,200 shots a minute.

Dr. Gatling perfected his gun so that 100 shots could be fired in two and a half seconds, and by elevating the gun he made it effective at two miles.

**Hurricane Sweeps Newfoundland.**

ST. JOHN'S, N. F., March 3.—A furious hurricane, the worst for many years, has raged here. The schooner Ethelroy went ashore and is a total wreck. The crew had a narrow escape. It is feared that other disasters have occurred along the coast. A number of bridges and fishing stations have been destroyed, and the ice blocks the coast worse than ever as a result of the storm.

**Explosion Kills Six.**

EASTON, Pa., March 3.—Six men were killed, two others are missing and are believed to have been killed, and at least thirty were injured as the result of an explosion of pulverized coal just before 6 o'clock last evening in the Edison Cement works at New Village, seven miles from here.

Some idea of the financial value that is placed on the privilege of selling liquor in Luzerne County may be gained from the advertisement of a Wilkes-Barre broker, who announces that he has \$25,000 to loan on liquor licenses.

**\$100 REWARD, \$100.**

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hal's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hal's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c. Hal's Family Pills are the best.

**GREAT DAY AT ROME**

Twenty-fifth Anniversary of Pope Leo's Coronation.

**BRILLIANT CEREMONY IN ST. PETER'S**

His Holiness Endures the Fatigues of the Occasion Admirably and Expresses Great Satisfaction at the Day's Close.

ROME, March 4.—The twenty-fifth anniversary of the coronation of Pope Leo was celebrated with all the grandeur and impressiveness associated with the high ceremonies of the Catholic church and amid a display of enthusiasm and emotion on the part of the vast assemblage gathered within the walls of St. Peter's such as vied with the greatest of previous demonstrations of reverence and affection for the aged pontiff.

Last night all the sacred edifices in Rome, monasteries, convents, seminaries, and many private houses were illuminated in commemoration of the event, the Trastevere quarter and the Leonine city especially presenting a blaze of light, while the general effect was heightened by the burning of bengal fires throughout the city.

Pope Leo, who supported admirably the fatigue and excitement of the day's ceremonies, after having retired rose again from his couch and, going to the window of his bedroom, gazed for awhile upon this scene of illumination. The view from the Vatican, embracing a stretch of seven miles brilliant with light, was a marvelous one, and his holiness exclaimed as he withdrew from a window, "This will indeed be a pleasant thing to dream of."

The ceremony in St. Peter's cathedral lasted two hours and a quarter, and although it was noticeable that Pope Leo felt the effects of his recent cold, all were surprised to see how well he seemed. His voice was strong, his gestures vigorous, and the frantic cheering which greeted his arrival and departure gave him visible pleasure and brought a faint tinge of color to his face.

After the trilling ceremony of the morning Dr. Lappont carefully examined the condition of the pope, and although he found him none the worse for the fatigue he had undergone, yet he ordered him to rest during the whole afternoon. But at night after the doctor's last visit his holiness insisted upon getting up to view the illuminations.

At the close of the day's exercises the pontiff exclaimed: "The demonstration today has been so affecting. It surpassed all my expectations. I am completely satisfied. There was no note of discord."

**Passengers Relate Hardships.**

ST. JOHN'S, N. F., March 4.—The passengers of the two express trains which were snowbound in the interior are now reaching the city and relate thrilling stories of their experiences. During their detention in the snowdrifts they were reduced to two meals daily, consisting of cake, hard biscuits and a mug of tea. Sometimes they had only one meal. They had no meat for over a week and were reduced to very short commons when the relief reached them. Four women on one of the trains suffered extremely, one being stricken with fainting fits from exhaustion. The second class passengers had no sleeping accommodations during the whole period they were blocked in the snow.

**New Arms For Militia.**

WASHINGTON, March 4.—General Crozier, chief of ordnance, has made preliminary arrangements for arming the entire organized militia of the United States with the Krag-Jorgensen musket of the regular service in accordance with the provisions of the new militia law. He already has collected about 60,000 of these arms at the government arsenals at Augusta, Ga.; Benicia, Cal.; Rock Island, Ill., and San Antonio, Tex., and more will be shipped to those points from the armory at Springfield, Mass., as needed.

**Married a Japanese.**

NEW YORK, March 3.—The marriage of Miss Florence Louise Cross-well, twenty-seven years old, and Chuziro Koehi of Japan has been reported to the Hudson county (N. J.) bureau of vital statistics. The ceremony was performed recently by the Rev. Thomas Hall in Jersey City. The bride was until recently a teacher at Bryn Mawr college. The groom said he had been connected with the biological department of Princeton university and that he intended to take his bride to Japan to live.

**Another Gift From Phipps.**

CALCUTTA, India, March 2.—Henry Phipps, director of the Carnegie Steel company, who gave Lord Curzon on Feb. 1 \$100,000 to be devoted to some practical object for scientific research promising to be of enduring benefit to India and who on Feb. 3 gave Lady Curzon, wife of the viceroy, \$100,000 for her Victoria memorial midwifery fund, has handed to Lord Curzon a further sum of \$50,000 for the promotion of agriculture and scientific education.

**Long Idle Mine Resumes.**

SHAMOKIN, Pa., March 2.—The Big mountain section of Henry Clay shaft, owned by the Philadelphia and Reading Coal and Iron company, was started up today. Work is furnished for 300 men and boys. Big mountain was closed down when the miners went on strike last year and was flooded.

**To Stop Cigarette Smoking.**

JEFFERSON CITY, Mo., March 4.—The house has passed a bill prohibiting the manufacture, sale or giving away of cigarettes, cigarette paper or wrappers in this state under the penalty of a fine of from \$5 to \$100.

**A NEW POSTAL CARD.**

For "Return" Use With Vignettes of Sherman and Sheridan.

The old return postal card has outlived its usefulness and is to be shortly replaced by another of a newer and more elaborate design. On the new card the vignette of General Grant, which appeared on both the forwarded card and the return, is succeeded by those of Generals Sherman and Sheridan.

On the face of the forwarded card is the face of General Sherman, with the years "1820-1891." On the return card is the face of General Sheridan, with the years "1831-1888."

The caution to the sender: "This side for address only," together with the "United States of America, Reply Postal," instead of covering the space between the stamp and the edge of the card, is confined to a corner in small type, admitting of the two postmarks, so important now in business life. This innovation was recommended by business men throughout the country to whom this matter of postmarks is often of vital importance, and it was through their efforts that the design was finally accepted. Now, instead of having one postmark on the front, often obscured, and another on the back of the card, completely obscured by the writing, the two postmarks will stand out on the front, indicating the hour of receipt and delivery.

Another point to be noticed about the cards is the continuation of the effort of the Post Office Department to make the new stamps and postals constitute an object lesson in American history.

**The Gibraltar of the Insurance World.**

The Company which has "The Strength of Gibraltar" has given one more proof, if proof were needed, that the assumption of the phrase was well warranted in the Annual Statement now before us.

During 1902, The Prudential has added over One hundred and eight Million dollars to the amount of paid for insurance it had in force; it has added to its assets nearly Twelve Million dollars; to its income nearly Five Million dollars; and to its surplus funds more than Two Million five hundred Thousand dollars.

It has now in force over Eight hundred Million dollars of life insurance divided among nearly Five Million policies, representing roughly speaking about One Million families.

This is really a magnificent showing for a Company that has only a record of twenty-seven years to look back upon; certainly nothing like it has ever before occurred in the history of American Life Insurance. In these days of keen competition, success can only be the result of enterprise coupled with upright business management; and one does not need to go further than this cause to account for The Prudential's great success.

**PROVERBS**

"When the butter won't come put a penny in the churn," is an old time dairy proverb. It often seems to work though no one has ever told why.

When mothers are worried because the children do not gain strength and flesh we say give them Scott's Emulsion.

It is like the penny in the milk because it works and because there is something astonishing about it.

Scott's Emulsion is simply a milk of pure cod liver oil with some hypophosphites especially prepared for delicate stomachs.

Children take to it naturally because they like the taste and the remedy takes just as naturally to the children because it is so perfectly adapted to their wants.

For all weak and pale and thin children Scott's Emulsion is the most satisfactory treatment.

**We will send you the penny, i. e., a sample free.**

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

**SCOTT & BOWNE,**  
 Chemists,  
 409 Pearl St., N. Y.

50c. and \$1.00; all druggists.

**LAW AGAINST IT.**

Persons Not Permitted to Reveal Telephone Messages.

People who are in the habit of listening to private conversations carried over the telephone lines and repeat the same to others are probably not aware that there is a law against so doing. The following section of this law may be interesting to them:

"That in case any person, superintendent, operator or subscriber who may in any other capacity be connected with any telegraph or telephone line in this state, shall use or cause to be used, or make known or cause to be made known the contents of any despatch sent from or received at any office in the state, or in anywise unlawfully expose another's business or secrets, such a person shall be deemed guilty of a misdemeanor and upon conviction thereof shall for every such offense be subject to a fine of not less than \$100 or imprisonment not exceeding six months or both at the discretion of the court."

**Lancaster County's Tobacco Crop Worth a Million and a Quarter.**

The work of delivering the tobacco crop of last season is now in progress in Lancaster county, and from one borough alone eight car-loads, aggregating 200,000 pounds, were shipped in two days. These sales will represent a total of \$19,000. The average price secured by the growers is

**For Piles.**

Sample mailed free. One application gives relief.

The continued use of **Humphreys' Witch Hazel Oil** permanently cures **Piles or Hemorrhoids—External or Internal, Blind or Bleeding, Itching or Burning, Fissures and Fistulas.** Relief immediate—cure certain.

**NERVOUS DEBILITY.**

Vital Weakness and Prostration from overwork and other causes. **Humphreys' Homeopathic Specific No. 28**, in use over 40 years, the only successful remedy. \$1 per vial, or special package for serious cases, \$5. Sold by Druggists, or sent prepaid on receipt of price.

**RAILROAD TIME TABLE**

**LACKAWANNA Railroad.**

BLOOMSBURG DIVISION.

In effect January 30th, 1902.
