

FOURTEEN CREMATED.

Result of the Oil Tank Explosion at Olean, N. Y. OLEAN, N. Y., March 11.—Fourteen charred and half cremated bodies lying in the undertaking establishments or in their late homes, fourteen people lying in the hospitals and a dozen or so more not so seriously injured at their homes is the result of the accident on the Erie railroad in which an oil train was wrecked and several oil cars exploded, scattering death and destruction in every direction. Several of the patients in the hospitals are seriously burned, one of them probably fatally.

NEW CANAL PLAN.

Electric Propulsion For New York Waterways.

ALBANY, N. Y., March 11.—An entirely new canal proposition has made its appearance here. John Murray Mitchell of New York city proposes to the canal commission the improvement of the present waterway at an expense of only \$5,000,000. Mr. Mitchell represents citizens who aim to accomplish by such an expenditure as much improvement in a shorter period as would be obtained by the expenditure of \$100,000,000.

MURDER IN WATERBURY.

Trolley Car Guard Killed by Masked Men—Moroccan Wounded. WATERBURY, Conn., March 9.—Violence in its worst form has broken out anew in Waterbury as a result of the high feeling in connection with the strike of the motormen and conductors of the Connecticut Railway and Lighting company. This time it is murder, and Supernumerary Policeman Paul Mendlesola is the victim. John W. Chambers, a nonunion motorman, is shot, and his conductor, George Weber, was wounded.

The Catholic societies at Centralia met on Sunday and completed arrangements for the observance of St. Patrick's Day. It has been decided to hold a large parade in the morning, and in the evening Rev. Dougherty, of St. Ignatius' church will deliver a lecture.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work.

Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

MORGAN GAINS POINT

Spooer Canal Act to Be Attached to Treaty.

NOT CONSIDERED AN AMENDMENT.

Alabama Senator Continues His Deluge of Talk Against the Panama Canal—March Old Ground Gone Over.

WASHINGTON, March 11.—Senator Morgan has secured the first material concession that has been made to him by the senate in connection with the Panama canal treaty with Colombia. This consisted of an agreement to attach the Spooner canal act bodily to the treaty. This change was made in compliance with a request presented by Senator Lodge during yesterday's executive session of the senate and after the necessity for it had been discussed by Mr. Morgan and other members of the senate. Senator Daniel expressed the opinion that as the preamble to the treaty calls for the attachment of a copy of the act that attachment was necessary to preserve the terms of the document intact. Senator Morgan contended that without this attachment the treaty was absolutely invalid.

Senators Teller and Hear took the opposite view, urging that as the act was in existence and of record in the statutes of the United States the physical annexation was of no consequence whatever. Senator Lodge, however, suggested that no injury could result from the attachment of the act, and unanimous consent was given to do so. It was specifically stipulated, however, that this concession did not amount to an amendment of the treaty.

Senator Morgan consumed the entire time of the remainder of the closed session discussing the canal question from various points of view and going over much ground he already had covered. Most of his speech was written, and when Senator Cullom asked him if the speech he was reading was a new one or an old one he replied, with some manifestation of vexation, that it was new, adding that he did not have to repeat his addresses. He discussed particularly the attitude of the isthmian canal commission, of which Admiral Walker is the head, and criticized to some extent the change of view taken by that commission in its last report. He also dwelt on the variation of the terms of the treaty from those of the Spooner law.

Rich Ore Found in Montana.

HELENA, Mont., March 10.—In an old bed of the Missouri river fifteen miles east of Helena rich gold bearing sand which also contains sapphires and rubies has been found. Samples of the sand were brought to Helena for testing, and so gratifying were the returns that J. H. Cowan at once departed for the east to confer with stockholders of his company with a view to determining upon future mining work. The scene of the discovery is near Confederate gulch, an acre of whose sand in the early days produced more than \$1,000,000 in gold.

Wild Weather in Russia.

LONDON, March 9.—The St. Petersburg correspondent of the Daily Mail telegraphs that terrible snowstorms have been raging during the past week in the government of Samara and have caused hundreds of deaths. Horses drawing sledges have returned to villages with the passengers frozen to death. The village bells are rung nightly to enable travelers to find their way to shelter. Many persons have been frozen to death within the villages while searching for the doors of their own homes.

Terrible Suffering in Dalmatia.

VIENNA, March 11.—The distress in Dalmatia is so severe that the people in parts of that province are reported to be subsisting on the bark of trees and oil wild herbs. A committee has been formed in Vienna to raise funds for the relief of the sufferers, and the Croatian Archaeological society has started excavating at the Dalmatian village of Pivno, where interesting discoveries are expected. The immediate object being to provide work for the famine stricken inhabitants of the commune of Knin.

For a Beecher Memorial.

NEW YORK, March 9.—A great mass meeting was held in the Academy of Music in Brooklyn last night for the purpose of raising funds to erect a memorial in honor of Henry Ward Beecher, the founder of Plymouth church and for forty years its pastor. Many hundreds who were turned away from the doors gathered at an overflow meeting in Plymouth church. The total amount of the subscriptions was about \$25,000.

Barish Crop Reports.

WASHINGTON, March 11.—The United States government crop report for March, just issued, is as follows: Reserve in farmers' hands, wheat, 164,000,000 bushels, 24 1/2 per cent of last year's crop; corn, 1,050,000,000 bushels, 41.6 per cent of last year's crop; oats, 365,555,000 bushels, 41.9 per cent of last year's crop. The reserve of wheat last year at this time was 173,000,000 bushels, and corn, 442,000,000 bushels.

Quigley Installed Archbishop.

CHICAGO, March 11.—In the presence of a great throng of the laity and priesthood crowding every foot of space in the huge Cathedral of the Holy Name Bishop James E. Quigley of Buffalo was installed archbishop of the Chicago archdiocese of the Roman Catholic church. The ceremonies, which were most impressive and solemn, were in accordance with an ancient ritual of the church.

MINE INSPECTOR.

Notice to applicants for certificates of having passed a successful examination to be candidates for the office of Mine Inspector of the Fourth, Fifth and Sixth Inspection Districts, as provided by Act of Assembly, approved June 8, 1901.

Notice is hereby given that an examination of applicants for certificates, in accordance with the above Act of Assembly, of having passed a successful examination to be candidates for the office of Mine Inspector for the Fourth District, the county of Schuylkill; for the Fifth District, the county of Northumberland; and for the Sixth District, the county of Columbia, will be held on Wednesday the 25th day of March 1903, at 10 o'clock a. m., in room 14, on the second floor of the Mountain City Building, on the corner of Centre and Norwegian streets, Pottsville, Pa., when and where all applicants are requested to present themselves for examination.

Applicants are requested to advise the chairman of the Board, at as early a date as possible, of their intention to be present for examination.

JOHN R. HOFFMAN, Chairman. WALTER S. SHAEFFER, JOHN F. DRUMHEISER, JOHN HERRITY, THOMAS HOLLAND, Board of Examiners, Pottsville, Pa.

Arbor Days to be Observed.

Governor Pennypacker has issued a proclamation fixing Friday, April 3, and Friday, April 17, to be observed as Arbor Days throughout the Commonwealth. Two days are designated for a special reason. Inasmuch as the climatic conditions may render one of these days more favorable than the other for the purposes intended, selection between the two is left to the citizens of the various sections of the Commonwealth. The Governor urges upon the people of Pennsylvania the observance of arbor days in the following words: "The success which the forestry reservation commission of Pennsylvania has achieved in the acquisition of valuable forest lands and in reclaiming the once wooded acres of our state has been a source of much encouragement to the people who are interested in the restoration of our forest and in the beautifying of our parks and highways. The lack of forest lands is a menace to the water supply and greatly affects climatic conditions of the country. Everyone is under obligation to render aid in this important work, which benefits not only the state but the entire country. Nature alone cannot repair the injury, but it is necessary that we join with her in replacing the forests. In order that a movement so essential and valuable may continue and in order that our citizens may have an opportunity to contribute to this laudable work, by planting trees to protect our lands and beautify our streets and highways."

Loss of Flesh

When you can't eat breakfast, take Scott's Emulsion. When you can't eat bread and butter, take Scott's Emulsion. When you have been living on a milk diet and want something a little more nourishing, take Scott's Emulsion.

To get fat you must eat fat. Scott's Emulsion is a great fattener, a great strength giver.

Those who have lost flesh want to increase all body tissues, not only fat. Scott's Emulsion increases them all, bone, flesh, blood and nerve.

For invalids, for convalescents, for consumptives, for weak children, for all who need flesh, Scott's Emulsion is a rich and comfortable food, and a natural tonic.

Scott's Emulsion for bone, flesh, blood and nerve.

We will send you a free sample. Be sure that this picture in the wrapper of every bottle of Emulsion you buy. SCOTT & BOWNE, CHEMISTS, 409 Pearl St., N. Y. 50c. and \$1. all druggists.

Living on What You Own.

There is an old joke about living on the interest of what you owe, and the thing has become literally true in recent years, says an exchange. There are a good many people carrying around bank books showing a good deposit to their credit, who are getting trusted at the stores and refusing to draw out the money to pay their debts, because if they draw it out before the day of reckoning interest they will lose their interest. This is really drawing interest on one's debts. Merchants and printers are embarrassed and sometimes unable to discount their bills, all for want of prompt payment on the part of the customers, many of whom have the ready cash deposited in the bank. It is needless to say that such conduct is driving the whole business world to the cash system.

Farmers' Trade Opportunities.

The Executive Committee of the State Grange have so perfected the trade arrangements that members of the Grange can have any of their supplies sent direct to them without the intervention of middle men.

Boxes of seeds, harness, hardware, shoes, etc. are now sent to a Grange upon request. The members go to the meeting, examine the goods and select whatever they may want. While members are thus able to save considerable of money they also learn the methods by which business is done, and this is part of the educational value of the Grange.
