

THE GRANGE

Conducted by J. W. DARROW, Press Correspondent, New York State Grange

MRS. SARAH G. BAIRD.

Only Woman Who Ever Held Position of Master of Any State Grange. Mrs. Sarah G. Baird of Minnesota, the only woman who has held the office of master of a state grange, is one of the strongest women in an order that encourages the women in every way to take places on the level with men.

MRS. SARAH G. BAIRD.

ninth year of her mastership of the state grange. George W. Baird is gate-keeper of the national grange, and he and Mrs. Baird are charter members of Minnehaha grange, 380, which was organized twenty-eight years ago and has never become dormant.

Rhode Island Agricultural College. The recent election of Mr. Kenyon L. Butterfield of Michigan to the presidency of the Rhode Island Agricultural college bodes well for that institution.

Practical Cooperation. Some time ago, when prices for beef were so high as to be almost prohibitive, the members of some of the granges in Berkshire county, Mass., co-operated in defying the high prices of the meat trust and getting their own fresh meat at a low price.

"Watch the Basket." Carnegie in his "Empire of Business" sums up the conditions of success for the farmer as well as the business man. He says: "The man who fails is the man who scatters his capital, which means that he has also scattered his brains. He has investments in this, that and the other thing. Don't put all your eggs in one basket is all wrong. I tell you, put all your eggs in one basket and then watch that basket."

The secretary of the Pennsylvania state grange, J. T. Allan, says that in many sections the notion still prevails that the grange is the avowed enemy of the middlemen. This is not correct. We oppose only a surplus of middlemen, endeavoring to shorten as much as possible the route from the producer to the consumer.

The advisability of organizing a national grange life insurance company is under consideration by a committee appointed by the national grange to report at its next meeting. The committee consists of W. K. Thompson, South Carolina; G. S. Ladd, Massachusetts; N. J. Bacheider, New Hampshire.

There is a possibility that the national grange may meet at Niagara Falls next November.

The grange adapts its functions to the everyday work of its members.

Keep up the agitation for grange halls to be owned by the grange.

The grange takes hold of the farmer's very life and essential interests.

MODERN ROAD MAKING.

None But Trained Engineers Should Be Employed for Performing This Important Work.

The old aphorism about pinching at the spigot and losing at the bung hole quite as often applies to rural practices as to city ways. In some times finds more than illustration in the country where each has a relatively higher value than labor, and where theoretical knowledge is lightly esteemed. This bad policy is more often applied in the improvement or management of country roads than in almost any other line of work.

There are usually a good many rival candidates for the office of road commissioner. No theoretical knowledge of mechanical engineering or of road-making is required of these candidates, and the citizens usually consider themselves fortunate if the position is held by a fairly intelligent man of energy and good intentions. He has to learn as he goes along, however, and the township generally pays dearly for his education.

PERFECT CORN MARKER.

Useful Implement That Can Be Made by Any Bright Man from an Old Cultivator. The illustration shows a corn marker without a fault. All cultivators are not alike, as some have straight tongues, and some have a seat attached, but they can all be used by simply removing the wheels and shovel beams.

THE MARKER COMPLETE

a plank spiked on behind, making a place for driver to stand, thus leaving a clear vision between his horses, and straight ahead; e shows where wheel spindles are secured to marker plank with yoke, secured on under side of plank by burrs. At b is an upright pin. This is to receive b of No. 2. This pole is just 8 feet long, and f is a runner made rounding at each end. This is 2 feet long, 8 inches wide, and 1 inch thick. It is made of hard wood, and is wedge shaped on the bottom; g is a wire attached with a ring on it. To the ring is attached a good stout string, and to this string is fastened a common snap h. Place b No. 2 on b No. 1, snap h on same ring, and your highest ideal of a perfect corn marker will be realized. Use e for handles when turning at the end of field.—Orange Judd Farmer.

Girls as Berry Pickers. J. L. Herbst, a strawberry grower of Wisconsin, tells about his methods of berry picking. He says that one of his girl pickers picked 158 quarts in one day. The ordinary amount of a day's picking with him is 80 quarts per picker in a day of five hours.

An Electrical Device for Weighing Trains.

Disposed of to an Ohio Company for \$75,000.

One of the most energetic young men Bellefonte has produced in many years is Edward McGarvey, who has a special talent for working out electrical contrivances. These have already made him a rich man. He is about 20 years of age. He worked at day to help support the family, and at nights studied and worked on patents which have already made his name famous among the great electricians of the day.

He has thus far been the patentee of fourteen valuable patents, all of which some day will be placed on the market. Tuesday he sold to the Central Electrical company, of Ohio, one of his patents for \$75,000. This is an invention to weigh objects while passing over the scales in rapid motion. This is to say, if a train of cars loaded with coal were run over the scales the vibrator indicator—the name of the machine—would correctly register the weight of every car on the train. It will do this if the vibrator is several miles away from the railroad.

This is one of the most remarkable inventions of the age. He has other patents not yet perfected, which will bring even more money than this one. Mr. McGarvey had a laboratory at Bellefonte for five years, but will move it to Ohio, where all his patents will be manufactured.

The patentee is known by a number of people in Bloomsburg he having at different times, visited here.

SATISFACTION OF A MORTGAGE.

To the Holder or Holders of a mortgage dated March 15, 1848 given by Edward Holmes and J. S. Woods to Ralph R. Carpenter, on one hundred acres of land situate in Fishingcreek township, Columbia County, Pennsylvania.

Whereas Elias Wegner has filed his petition in the court of common Pleas of Columbia County setting forth that Edward Holmes and J. S. Woods executed, and delivered to Ralph R. Carpenter a mortgage on one hundred acres of land owned by them in Fishingcreek township, county and state aforesaid, for \$500.00, on March 15, 1848, which mortgage is recorded in the Recorder's office at Bloomsburg in Mortgage Book Vol. 3, page 460 etc.; and that said Ralph R. Carpenter for value received, assigned and transferred said mortgage to the said J. S. Woods, on August 7, 1888, but said transfer was never properly acknowledged, so that the said J. S. Woods could not legally enter satisfaction thereon; and that said mortgage, but has acknowledged payment of the same; and that the present legal holder of said mortgage is unknown to the petitioner, and that the legal presumption of payment exists from lapse of time; that said land is bounded by lands now or late of Ralph R. Carpenter and G. A. Frick, J. Deterick and others, and contains one hundred acres. Now therefore the legal holder of said mortgage is hereby notified and required to file in the said Court on the second Monday of May 1903, to answer the said petition.

DANIEL KNORR, Sheriff.
