THE WHEELMEN LOST.

The Wheelmen went down before Boyd Maize juveniles, on Normal Field Thursday afternoon. Their defeat was largely due to their inability to connect with Bud Rabb's benders. The youngster had a choice collection up his sleeve and the entire Wheelmen outfit with the exception of one or two was completely at his mercy. Several times they had a chance to win the game, but they were never equal to the emergency. In the fourth, fifth and eighth inning they had the bases occupied and no one out, and just a little hit would have meant two runs, but it was at these times that young Mr. Rabb was effective, and the wheelmen would step up and fracture the air one after the other. "Hossier" Moore appeared to be able to hit the ball, but he couldn't keep track of it when he was in the field. He had only one chance to distinguish himself and then he lost the ball in the high grass and before he found it the runner had scampered home. Taking the game all the way through, it was a hummer. But the Wheelmen are not satisfied. They have challenged the clerks for another game, this time for \$50 a side. Manager Maize we understand has accepted. The money is up and the game will be played tomorrow. The score of Thursday's game was 12-10.

Bloomsburg young men who have lady friends in Catawissa, will petition Superintendent Hackett, of the Electric Railway Company, for a later car. We don't know but what their request is worthy of some consideration. In courtship, the longest summer's day seems too much in haste, and 10:20 comes all too soon. Here's hoping you succeed boys.

A Heavy Storm.

[Continued from 1st page.]

the destruction of the wheat is, that on the farm of John Reichard, for a path of 200 feet in width, the wheat which had been placed in shock, was apparently blown out of existence, not a semblance of a sheaf remaining, and as yet none of it has been found.

At the Jury farm, farmed by Mr. Emery, some distance from Buckhorn, the barn was hurled to the ground and the horses buried beneath it. In order to save the lives of the horses it was necessary to use an ax to cut them out. One is so horribly cut that it is thought it cannot live.

The wind blew down part of the barn of Mrs. Zeisloft at Jerseytown, as well as one near Washingtonville. The damage to crops in that vicinity was very heavy.

The barns of Marvin Hartman and Jacob Hartzell, in Catawissa township, were unroofed. Hon. William T. Creasy reports there had been the promise of a good apple crop, but this was in part destroyed by the destruction wrought by Saturday's wind. The damage to the wheat, he says, is very great.

At Mainville the water in Coal Run raised so high that it washed away a large number of sheaves of wheat for Boyd Yetter, and several farmers. The high wind raised the creek bridge at that place a distance of twelve inches, but when the storm subsided, the bridge settled back to its place.

Coal Run, for a distance of about three miles above Mainville, overflowed its banks and badly washed the farms of Aaron Gruver, Cleve Mensinger, Boyd Yetter, John W. Shuman and O. R. Shuman. At the farms of John W. and O. R. Shuman from ten to fifteen acres of fine timothy hay was completely ruined.

A portion of the roof of the barn of J. A. Hartzel, of Main township, was torn off by the wind. The barn of Richard Aten, in the same township, was also unroofed.

The loss of L. H. Boodly at Rupert was a heavy one. Many of the fine trees in his beautiful lawn were uprooted or broken off and it will take years to replace the property where it was before the storm.

Mrs. D. H. Montgomery.

At the age sixty-seven years, and after an illness of less than an hour's duration, Mrs. Montgomery, wife of the late Dr. D. H. Montgomery, died at her home in Millinville, Tuesday evening. She was in her usual good health until about half past five o'clock Tuesday evening when she was taken suddenly and violently ill from the rupture of a blood vessel. Dr. Redeker, of town was quickly summoned, and notwithstanding that he responded promptly, she died before he reached the house.

Mrs. Montgomery was a daughter of Jacob Kline, and was born in Orangeville, where she was raised and lived until married, when they moved to Millinville. Dr. Montgomery has been dead less than a year. The survivors are two daughters, Carrie and Florence, and three sisters, Mrs. Weaver, of Hazleton, Mrs. Henry Kirkendall, of Berwick and Mrs. John Brown, of Millinville.

Town Council.

[Continued from 1st page.]

decided to rent the Derr Bros. barn between Centre and Iron ptree for said purpose.

Chief of the Fire Department P. B. Heddens was present and made a request for 1000 feet of new hose. He also recommended the placing of another alarm box at the corner of Iron and First streets. Both matters were referred to the committee on Fire and Water. Report will be made at the next meeting.

H. F. Dieffenbach, by communication, asked permission to erect an ice house 40 x 100 feet on Fifteenth street. If permitted to build he will be willing at any time to remove the building on sixty or ninety days notice from council. The committee on highways was instructed to investigate the site and report at the next meeting.

The residents of east Third street presented a petition asking for a drainage system to carry off the surface water. In the opinion of Street Commissioner Neyhard at least 800 feet of sewer pipe would be required to make the connection at the nearest point, which is at the rear property. The Sanitary Committee took the matter and will report at the next meeting.

The alley in the rear of J. W. Robbins' Market street property was reported in a bad and unhealthy condition. Upon information from Street Commissioner Neyhard that I. A. Snyder, of the Exchange Hotel, had promised to abate the nuisance the matter was carried over to the next meeting.

A petition signed by thirty-nine citizens and property owners of town was received, requesting that pavements be laid about the Tustin property at Third and Market streets. It was decided to notify Mr. Tustin to lay a pavement within thirty days or the town would take action. The pavements on Fourth street between Railroad and West streets were reported to be in very bad condition in some places. It was then decided by council that the property owners on both the north and south sides of Fourth street between Railroad and West streets must lay side walks within thirty days.

A petition was received from a number of barbers requesting that some action be taken to stop the practice of Sunday shaving which is being done by barbers of town. Chief Knorr was directed to notify those barbers to discontinue the practice or be dealt with according to law.

Street Commissioner Neyhard reported that complaints had been received from property owners along Whitman's alley in Scottown that the water flows from this alley into their lots thus flooding them. The matter was referred to the committee on highways to report to the Street Commissioner what should be done.

The alley leading off Main street on the Normal Hill between the residences of G. S. Robbins and Mrs. John was reported by Frank Dawson to be in bad condition. It was referred to the committee on highways. Plans were received from J. Lee Harman regarding the sinking of a sump hole in the coal yard back of Harman & Hassert's and connection with the sewer. After a hard rain the water collects in the coal yard to a depth of nearly one foot and has no means of egress. No action was taken in the matter. Orders for the month's bills were ordered to be issued after which the meeting adjourned.

Gone to Germany.

David Gross of Lock Haven was in Bloomsburg on Friday bidding his relatives and friends good bye before going to Germany. He and his wife left Baltimore yesterday by boat for Bremen. He is a son of the late Peter Gross and a brother of John and William Gross of town.

John Hummel is playing a great second base game for Wilmington. When he started for home a week or so ago to see his mother, the manager offered to pay his salary in advance, but he would not accept. "Give me \$25 for my mother and enough to pay my car fare," he said, "that is all I want." John deserves to get along well, he is a good ball player and a perfect gentleman.

FROM COURT HOUSE CORRIDORS.

Marriage licenses were issued during the week to

Fred E. Savage and Miss Anna B. Fetteroli, both of Millinville.

Ralph Rhinard of Berwick and Miss Martha Sponenberg of Nescopeck.

SHERIFF SALES.

Sheriff Knorr will sell at the Court House on Saturday August 8 at two o'clock p. m. the property of Ellen Cain, consisting of two houses and lots one situate in Conyngham township and the other in the borough of Centralia.

MERCANTILE LICENSES.

The mercantile licenses have all been paid with the exception of one in Benton Boro., three in Berwick, one in Bloom and one in Sugarloaf. July first was the last day upon which these licenses should have been paid. Delinquents are, according to law, entitled to ten days after that time when if not paid the Treasurer is instructed to place the same for collection. All of the delinquents have been notified the second time and the treasurer says he will wait a reasonable length of time yet, when payment is not made he will proceed against them.

J. E. VanNatta of Lewistown has been appointed district deputy grand regent of the Royal Arcanum for Millin, Perry and Juniata counties. Mr. VanNatta is a son of Mrs. Thos. VanNatta of Iron street.

THE LIME JUICE ISLAND.

Montserrat, in the British West Indies, One Vast Garden of Lime Trees.

Nearly all the lime-juice used in the world comes from the tiny island of Montserrat, in the British West Indies. The lime grows wild in many West Indian islands, but only in Montserrat is it used commercially, says the Chicago Inter Ocean. That island is one vast garden of lime-trees, and nowhere in the world is there a finer sight than its 30 miles of orchards laden with the fruit of the lime or fragrant with its blossoms.

The fruit is gathered by negro women, who carry it down the hills to the shipping ports in big baskets on their heads. Like all West Indians, they are remarkable for their ability to carry heavy weights in this manner. Once, the company which controls the lime-juice industry sought to lighten the burden of its laborers by introducing wheelbarrows. The negroes filled the wheelbarrows readily enough, and then carried them on their heads as they had been used to carry the baskets. Many a negro woman will carry a hundred-weight of limes on her head for a distance of a mile or more.

PORTABLE MARINE TORCH.

Emergency Device Which is Part of Equipment of Ocean-Going Ships.

The marine torch designed to be carried in ships for emergency use, and which was first introduced two years ago, has led to the perfection of a device which is a very great improvement on the first one. In reality, it is a portable incandescent light, and upon contact with water generates a brilliant illuminating gas, automatically lighted by a chemical device and inextinguishable by wind or water. The light is so balanced that it floats upright directly it enters the water, says the Philadelphia Record. The light is made in from 300 to 10,000 candle power, according to size, and burns, it is said, up to half an hour, while it illuminates for reading up to 150 yards' distance. The light is now specially approved by the board of trade for the compulsory equipment of passenger ships and adopted by the Irish lights board, and such a system makes it suitable for many purposes in connection with marine work—especially, perhaps, in emergencies, 30 seconds sufficing to undo the two inclosing strips of metal and have the light in operation.

Insanity and Negroes.

At the Atlanta conference of charities and corrections Dr. Searcy, superintendent of the Alabama hospital for the insane, declared that insanity was increasing at an alarming rate among negroes as a result of the insanitary conditions of their houses.

Moser Heirs Hopeful.

Some fifty persons attended the meeting of the Burkhard Moser heirs in Reading. H. H. Stoudt, one of the leaders in the present litigation with the L. C. & N. Co., presided and spoke hopefully of the outlook for the successful prosecution of their claim. Mr. Stoudt stated that none of the decisions of the courts were really against the heirs, but that they must present better proof of their descent from Moser, the owner of the largest tract of coal land in dispute. The next suit will be tried in September. Mr. Stoudt said that he wanted all the claimants to prepare proof of their contention as heirs, so that if the claim was found to be just there would be no further trouble. Others expressed confidence in the final outcome of the situation. Some subscribed money toward the expenses of the suits. The estate to which the heirs set claim is variously valued at from \$10,000,000 to \$50,000,000.—Hazleton Sentinel.

Here is some common sense advice given by a Missouri editor to the girls of his town: "Don't hang around the depot unless you are going away or there to meet friends. Don't be loud boisterous or slangey. Stand on your dignity; and don't form acquaintances quickly. Don't carry your heart on your sleeve; and don't throw yourself into the arms of every good looking drummer or well dressed stranger who comes to town. Be womanly, be modest, be thoughtful and serious at all times. Don't regard your long legged brother as a nuisance; don't turn up your nose at your old fashioned father and his poor grammar; and above all don't play "A Hot Time" while your mother is having a hotter time at the wash tub with your dirty duds—its too suggestive.

The Kind You Have Always Bought

The seventh annual reunion of the Reformed Church in Central Pennsylvania will be held at Island Park, Sunbury, Thursday next. Rev. J. D. Thomas will deliver the address of welcome. Bloomsburg people desiring to attend the reunion can take the motor car to Catawissa there and take the Pennsylvania train.

A Paying Occupation.

The most profitable employment a young man or a young woman can follow now is that of writing advertisements. The salaries paid range from \$25.00 to \$100.00 a week. John Wanamaker pays his advertising manager \$10,000 a year.

Most young people should qualify themselves to write ads as there are openings for all who are properly qualified. You can take an advertising course by mail. There is a book on the subject containing Fifty Complete Lessons. It is entitled "Theory and Practice of Advertising," is the first and only text book on advertising in the world and is written by a practical advertising man.

Who can profit by having this book? First, the merchant who could get twice the results from his advertising. Second, the young man or woman who wants to prepare for positions paying from \$25.00 to \$100.00 a week. Third, school teachers, clerks, stenographers and book keepers who wish to double their income.

"Theory and Practice of Advertising," in flexible covers will be sent to any address on receipt of seventy-five cents or in cloth for one dollar. Enclose currency in sealed letter.

Should you be in doubt whether you want to take up the more exhaustive course by mail, you should order a copy of the book. It will explain many things as it contains all the salient principles of advertising. After you have bought a book, you can, if you wish, secure contract to sell books in order to pay for complete correspondence course. Order a book today. Do it now.
