

MISERERE WAS SUNG

While Leo XIII's Remains Were Placed in Tomb.

ELABORATE BURIAL CEREMONY

The Sarcophagus Containing the Body of the Late Pope Bore the Words, "Leo XIII., Pont. Max." Cardinal Gibbons Arrives.

ROME, July 27.—The body of Leo XIII. has been interred in St. Peter's, where it will remain until removed to the Church of St. John Lateran, chosen by the dead pontiff as the final repository of his remains.

Cardinal Rampolla as archpriest of the basilica was waiting outside the gates of the Chapel of the Sacrament in his violet robes surrounded by the chapter of the cathedral.

To the strains of the "Miserere," which wailed through the lofty church, and preceded by a glittering cross held aloft the procession, carrying candles and torches, slowly left the chapel and went into the church, passing the bronze statue and beyond the shrine of St. Peter.

The body was sprinkled with holy water, absolution was given, and the foot of Leo XIII. was kissed for the last time by Majordomo Cagliano and Count Camillo Pecci.

Very solemn was the first of the three great requiem masses, under the auspices of the sacred college, for the repose of the soul of Pope Leo, has been celebrated in the Sistine chapel.

In the Sistine chapel stood a huge white catafalque, thirty feet high, and on it, upon two scarlet cushions, rested a triple crown of gold, shining brightly in the light of a hundred candles.

As the fifty cardinals and fifty conclavists gathered around the catafalque and alternately knelt and rose their movements resembled an amazing kaleidoscope of crimson and violet, with colors so bright as to be almost trying to the eyes.

At the meeting of the congregation fifty-two cardinals were present, and all noticed the exceptionally cordial reception accorded to Cardinal Gibbons, who was visibly touched by it.

That there is a conviction at the Vatican that the conclave will be of short duration is proved by the fact that all those who are to enter the conclave to minister to the wants of the cardinals have been engaged for only three days.

WASHINGTON, July 29.—Rear Admiral Cotton, commander in chief of the European squadron, now on a visit to Portugal, has sent the following cablegram to the navy department from Lisbon: "Myself, commanding officers and personal staff have been received in special audience by the king of Portugal. Luncheon was given us by the king at Cintra, preceding which we were presented to the queen in special audience. The queen, our minister and some of the cabinet ministers were present at the luncheon. Tonight dinner will be given us by minister of marine at the arsenal. The king will visit my flagship on Saturday."

Church Singers Under Arrest. PITTSBURGH, July 28.—The crusade against the sale of soda water in drug-stores on Sunday in the borough of Wilkensburg under the old blue laws has taken a peculiar turn. The drug-gists had representatives at every church where paid singers are employed. All of the singers were arrested for working on Sunday and gave bail. Drug-gists and confectioners defied the law and kept their stores open for the sale of soda water. They were arrested and paid their fines.

Light on Hotel Tragedy. NEW YORK, July 28.—The bodies of the man and woman who were found dead in the Morton House, the man shot through the heart and the woman through the neck, have been identified by Hugo Quttner, a musician, who said that the woman was his wife Berna and the man an old friend, Charles Weiss, all of Schenectady, N. Y. Quttner said he knew no reason why Weiss should have shot Mrs. Quttner and then committed suicide.

THE COUP IN PANAMA.

Attempt to Arrest Governor Mutis by Order of General Cobos.

PANAMA, Colombia, July 27.—Not since the days of the last revolution, when at attack upon the city by the Liberals was feared, has there been such a panic in Panama as has just occurred. The office of El Lapiz, the organ of the Liberal party on the isthmus, was visited by some officers of the general staff of the army, who destroyed the day's edition of the newspaper. One of the directors was slightly wounded, but managed to escape.

As the office of the newspaper is situated in a very populous district, the news spread rapidly. In the Santa Ana neighborhood, where most of the Liberals reside, sentiment rose to a high pitch, and a few of the prominent people counseled retaliation. They took no action, however.

The next event came like a bombshell. A company of soldiers, apparently under the orders of General Vasquez Cobos, commander of the national forces, surrounded the residence of Governor Mutis, but the governor and his wife, who is an American lady, having been warned a few minutes before the arrival of the troops, succeeded in escaping.

The national government in certain quarters is being held responsible for much of what has happened, because the soldiers have not been paid for some time and Governor Mutis declined to give more of the money of the department of Panama for national expenses, arguing that the central government owes the department over \$2,000,000, besides having obligated the department by a recent decree to pay the salaries of all civil national employees.

WITHIN WALLS OF DERRY.

Edward Was the First English King to Visit the City.

LONDONDERRY, Ireland, July 29.—King Edward and Queen Alexandra were accorded a great reception on their arrival here. Large crowds from the surrounding districts assembled to greet the first English sovereign who had ever visited Londonderry. Their majesties were met at the railroad station by the mayor and corporation.

Their majesties lunched at the Guildhall and attended a variety of functions. Among the pleasant incidents was the presentation of a special address to the queen from the women of Londonderry drawing attention to the fact that Londonderry is an important center of industrial work for women and of the higher education of women. The king, replying in behalf of Queen Alexandra, expressed the opinion that the "higher education of women is one of the happiest features of our time."

ACCIDENT CURED HER.

Fall Restores Strength to a Crippled Girl.

PASADENA, Cal., July 29.—Miss Alice Dane, apparently a helpless cripple and deprived of perfect speech for many years, has suddenly had the use of her limbs and vocal powers restored as the result of an accident. Miss Dane had suffered from spinal trouble and had to hobble about on crutches and could scarcely speak above a whisper.

While ascending the stairs at her home she fell, and the last step struck against her chest. Immediately the pains from which she had suffered for many years left, and after being taken to a couch and lying there for awhile she got up and, to the surprise of every one, walked about without the aid of crutches. Many physicians had treated the case unsuccessfully for years.

Committee Decided That No More Trial Races Are Necessary, as the New Defender's Showing Entitles Her to the Honor.

NEWPORT, R. I., July 28.—After the race between the Reliance, Constitution and Columbia, in which the former boat again demonstrated her superiority over the other two, the challenge committee of the New York Yacht club selected the Reliance as the defender of the America's cup.

It was also decided to discontinue the trial races, as the committee did not feel that more were necessary. There were present at the meeting Commodore Bourne and Messrs. Forbes, Cormack and Robinson of the cup committee, as well as C. Oliver Iselin, managing owner of the Reliance; E. D. Morgan of the Columbia and August Belmont of the Constitution.

Messrs. Morgan and Belmont were perfectly satisfied with the choice of the committee. They are both of the opinion that the Reliance is the fastest of the trio and after the committee had announced its selection heartily congratulated Mr. Iselin and wished him the best of luck.

Ocean Course of 290 Miles Was Sailed Under 33 Hours.

HIGHLANDS OF NAVESINK, N. J., July 29.—In the Atlantic Yacht club's ocean race from Brenton's Reef Lightship, off Newport, R. I., to the Scotland lightship, off New York harbor, M. F. Plant's schooner yacht Ingomar finished first.

The vessel's time over the course, which is a distance of 290 miles, was approximately 32 hours and 28 minutes, making an hourly average speed of almost nine knots.

The two other vessels which started in the race, the Thistle and the Lasca, were not in sight when the Ingomar finished. One of the vessels, the name of which could not be distinguished, passed Fire Island two hours and five minutes after the Ingomar passed that point.

MARSEILLES, July 29.—Advices from Addis Abeba give further details of the abandonment of the Blue Nile expedition headed by W. N. MacMillan of St. Louis, which was attempting to explore the course of the Blue Nile for the purpose of finding a practicable trade route to the Mediterranean. The advices say that an attempt was made by the British government to relieve the expedition. A steamer was sent from Khartoum. It reached Roseires, 150 miles above Sennar, on the Blue Nile, where it was stopped by the exceptionally low water and failed to meet the expedition.

NAVAL MANEUVERS.

Programme For Display of War Ships in Action.

WASHINGTON, July 29.—An elaborate programme for the maneuver of the combined north Atlantic fleet off the coast of New England and Long Island sound during the month of August has been prepared at the navy department. The general features for the movement of the ships will be worked out by the department, leaving to Admiral Barker, the commanding officer, the numerous details incident to the maneuvers.

From the 3d to the 10th of August the search problem will be developed between Eastport and Cape Ann. This will include an effort on the part of a presumably hostile squadron to enter an anchorage ground in the face of the defending fleet. Following this there will be a cessation of two days, during which the combined fleet will proceed to Long Island sound and anchor abreast of Oyster Bay on the night of Saturday, Aug. 15.

They will remain there during Sunday, and on Monday they will be reviewed and inspected by President Roosevelt. From about the 22d to the 29th of August there will be joint demonstrations by the combined fleet against the batteries at Portland, Me. These will continue day and night, and all the arts of mimic warfare will be resorted to by the men-of-war to gain safe entrance into the harbor. Umpires will decide on the merits of the contest.

CONVICTS KILL GUARD.

Fierce Fight in Folsom Prison Ends Fatally.

SACRAMENTO, Cal., July 28.—Thirteen desperate prisoners confined in the Folsom penitentiary made a successful break for liberty at the breakfast hour. After a fierce fight in the captain's office, during which a turnkey was fatally stabbed, a guard was killed and another officer was wounded, the convicts seized arms and ammunition and, using the warden and other officers as shields, escaped. State troops ordered out by Governor Pardee have gone in pursuit.

The officers were easily outnumbered and were soon relieved of their arms. Then, using the officers as shields, the convicts started for the armory, on the outskirts of the penitentiary grounds. They passed a Gatling gun on one of the walls, but the guards were afraid to shoot at the convicts for fear of killing the prison officials.

When the armory was reached officers there attempted to interfere, but were quickly overpowered, and the convicts, after fortifying themselves further with rifles, knives, pistols and ammunition, made a dash for the country.

Farther on the convicts went to a farmer's house, seized his four horse team and wagon, stripped the house of all its portable valuables, took the farmer with them as a driver and headed for Bald mountain. Evidently it is their intention to reach Alabaster cave, situated near this mountain.
