Woman's Right to Scold.

Judge Johnson, of Media, Has an Opinion of the Law.

Judge Johnson believes that the law that gives the right to a jury to say that a woman is a common scold simply because some of the neighbors think she talks too much, should be wiped from the statute books; and every chivalric man will freely agree non-union labor in government emwith h m. As the court says, it is a ployes. This fact was made plain in mean discrimination against a woman to apply this law to ber, while it cannot be applied to a man, though there is just as good ground in one case as the other.

This county has as its greatest boon the right of free speech and that right the leader of the Anthracite Coal is particularly the heritage of the women, and any law that curtails that boon does violence to our institutions and to the sex. We stand with the learned Judge of the Delaware county courts that it is unfair to make any such discrimination and we will die in the last ditch before the mothers, the sisters, the pretty cousins and the benevolent aunts of this glorious land of the free and the home of the brave shall be obliged to curtail in the least speak freely and without reserve upon any topic that courses through the feminine mind.

Talking is the safety valve of our less heads thumped with a rolling pin; so let there be the freest speech acwhether in the club, the home or upon the sidewalk in front of a neighbor's house .-- Chester Times,

A Neat Swindle.

Some of the farmers in Monroe county have been neatly victimized by a pair of sharpers. They claim to be representatives of the State agricultural station. Well to do farmers are furnished the specimens they procure in the neighborhood. A few days later the farmer receives notice from a justice of the peace that the specimens are of the Canada thistle, wild action which necessitates the payment of a heavy fine. The sharpers who allow noxious weeds to go to campaign. seed upon their property. Half of the fines go to the complainant. In some instances the sharpers are receiving a handsome income from farmers favorably inclined to scientific investigation.

An Important Decision.

A very important decision in regard

WASHINGTON.

From our Regular Correspondent. Washington, October, 5, 1903.

President Roosevelt has made his decision in the Miller case and it is against the labor timons. Foreman Miller is to remain in the Government Printing Office and there is to be no discrimination between union and a statement issued by the President league which will have for its object on Tuesday evening after a conference with a committee of prominent labor leaders, composed of Samuel Gompers, president of the American Federation of Labor, John Mitchell, S:rike, and others of the Federation. The conference has been described as a "farce" as the statement issued by the President had been prepared beforehand. The President states that he is president of all the people of the United States, without reference to creed, color, birthplace, or social condition and that he can no more recognize the fact that a man is a union man than that he is a Protestant, Catholic, Jew or Gentile. He says this purpose a convention will be held degree the privilege of womankind to that it is out of the question to dismiss Miller because he is a non-union man and that his personal fitness must

be decided in the regular routine of administrative detail. This is a hard of Booker Washington is hypocritical probable that but for this happy and really involved the question whether now come when the negro must look heaven-given vent many of the recre. The case is now regarded as settled as far as Mr. Roosevelt is concerned. but many people believe that Labor will retainate and that the republican party will loose many labor votes.

The union men argue that as the President daily discriminates between democrats and republicans in selecting government servants, he could quite as well discriminate between asked to certify to the locality which union and non-union men. They declare that hereafter this shall be the price of the labor vote.

The American Federation of Labor holds its annual convention in Boston, parsnip, etc., and the certificates have next November and it is expected been used as evidence in a successful that the Miller case will be considered and a decision reached which will represent the official opinion of organhave taken advantage of an old law ized labor. Fall Arbor Day.

State Superintendant Schæffer has issued his fall arbor day proclamation, in the course of which he says :

" The law wisely requires the observance of Arbor Day in the public schools. The rapid destruction of our torests has alarmed the far seeing citizens of the commonwealth. The gradual purchase of large tracts for forestry purposes is but the beginning of what should be done to avert the scarcity of timber and the material welfare of our people.

"The new career which is opening to those who dedicate their lives to forestry, and the important service which they can render to future generations, should be pointed out to the aspiring youth in our schools. Every boy and every girl should be taught how to plant and protect trees.

"The value of trees for shade, for fruit and for industrial purposes should be duly emphasized. Their significance in the domain of the higher life and the use made of them in literature and ethical instruction, should be brought to the notice of our young people. The time is past when argu-Day in all the schools of America.

by Judge Lyon of the Supreme Court of New York. Mrs. Eliza Westbrook selling him liquor after she had forbidden them to do so. The liquor dealers made a motion to have the case dismissed, but the judge refused, and ordered the case to a jury trial. This decides that the case is actionable, in civil action. It is the first time such a question has come up in the court and it provides parents with a most powerful weapon.

Passing of the Veteran-

A scene that bordered on the pathetic took place at the room of Borrows Post, Williamsport, Grand Army of the Republic last week, when the organization gave all of its property, with the exception of a few chairs and one flag, to Hancock Camp of the Sons of Veterans. The ravages of time and disease have so thinned the ranks of this Grand Army post that the few remaining veterans in the organization decided that they would not much longer need relics and decorations and furnishings in their hall, aud concluded to present them to the Sons of Veterans.

members in the House and Senate. to observe an Arbor Day in the fail of of Ithaca sued Joseph Miller and The questions which interest the seven other liquor dealers of that city politicians, are innumerable. Cuban established custom Friday, October for \$1.000 damages each, for injuring reciprocity, financial legislation, the the health and morals of her son by transisthmian canal, ship subsidy, the race question, the postal scandals, Indian scandals, the Alaskan boundary, the anti-canteen law, the statehood question and the case of Senator Reed Smoot of Utah, are some of the many subjects which will come up for debate. The eyes of the Nation will be turned on Washington which is becoming more and more the political, social and diplomatic arena of the Western hemisphere.

Democrats in Washington are much elated over the prospects of the party in Ohio and New York. It is evident that the republicans of Ohio are trightened and are appealing to the party at large for assistance. There have been fifteen hundred invitations sent out to republican speakers through the country, and Secretary Shaw, Secretary Wilson, Secretary Moody, Speaker-to-be Cannon, Senator Fairbanks, Senator Depew and half a dozen other prominent republican senators have promised to come out to Onio to help Senator Hanna defeat Tom Johnson. It is believed that Mr. Hanna's refusal to debate with Mr. Clark will injure the republican cause in his state.

Consul General Robert P. Skinner,

our representative at Marseilles, France, has just arrived in Washington to complete arrangements for his coming expedition into Abyssinia. through the mucous surfaces. Such Ile is going there to invite Emperor Menelik to participate in the St. Louis Exposition and to make a commercial agreement with the United States. An American warship will convey Mr. Skinner to the Red Sea and a detachment of United States marines will escort him on his long overland journey to the negro emperor's capital. The European press is somewhat excited over this "American invasion' of Abyssin a and publish wild reports of our plans of conquest in Africa. As a matter of fact we have been trading with Menelik's people for several years although we have not yet either a diplomatic or

speaker in the House and many new in the spring, it has become customary 16, 1903, is designated as Autumn Arbor Day and superintendents, teachers and pupils are asked to observe the day by the planting of trees and by other suitable exercises."

A Fool Tax, Anyhow.

The Berks county commissioners have relieved single men of the extra 55 cents tax burden, which they have had to bear for years. It proved a failure as a means to drive bachelors to matrimony, and many of the special class of taxables dodged it by representing that they were married men or widowers.
