RATS RUIN AN ORGAN.

Little Rodents Get Busy and Eat the Bellows.

The Episcopalians of Wellsboro, Pa. installed a new \$3000 pipe organ in their church this Summer. The church paid \$2000 of the cost of the organ, and Mr. Carnegie paid the balance. At first the organ gave excellent satisfaction, but recently some of the pipes refused to respond and lately so few of them sounded that the organ could not be used.

An expert was sent from the factory the other day to ascertain the cause of the loss of tone. To the surprise of every one he found that rats were responsible for the trouble. The organ had 222 bellows to feed the pneumatics, and of these 221 had been destroyed.

The rodents had gnawed the little leather bellows into pieces. It will be considerable trouble to replace them, and as they are rather costly the church will have a large bill to charge up to the account of the rats.

The Costliest Thing in the World.

Radium, we had heard a lot about, but we had never seen anything understandable about it until we read Cleveland Moffett's account of it in the November McClure's. Mr. Moffett interviewed its discoverers, M. and Mme. Curie in Paris, and learned from them all about it. It is a marvellous thing, very costly, very beneficial in disease, very dangerous when not properly used, and an altogether unique substance. Mr. Moffett has written the clearest and most interesting article we have yet seen on the subject.

State Wants Costs Paid.

Attorney John H. Dando, has commenced proceedings to compel County Controller McLean to pay the costs in two cases in which game warden Campbell was the plaintiff. A few weeks ago Mr. Campbell arrested two men near Pittston for violation of the game laws. They were taken before Squire James Ehret of Pittston and in default of a twenty-five dollar fine were sentenced to thirty-five days in jail. When Mr. Ehret presented his bill of cost to the controller the latter refused payment. The case was brought to the attention of State game commissioner Meehan and he directed Mr. Dando to commence proceedings to compel the controller to pay the costs.

STORY OF CAL-CURA.

Dr. David Kennedy was born in New York City, but at an early age his family moved to Roxbury, N. Y. He was graduated in 1860 from the New York College of Physicians and Surgeons. He at once volunteered as a surgeon and was assigned to the United States Army General Hospital in West Philadelphia, and soon became President of the Examining Board and Consulting Surgeon. After the war, Dr. Kennedy settled in Rondout, City of Kingston, N. Y., where for a number of years he enjoyed a large practice as an operative surgeon. He was one of the Presidential Electors of New York State, Mayor of Kingston for four years, and held many other professional, business and political offices.

The latest achievement of his life was the discovery of Cal-cura Solvent, a positive cure for all diseases of the kidneys and bladder. In speaking of this remarkable remedy, he said: "Cal-cura Solvent is the crowning achievement of my life. It will not disappoint."
