GENERAL SEORETARY'S REPORT For October 1903 of Young Women's Chistain Association.

The report of the General Secretary for the first month of our Association work is a miscellaneous one.

A card catalogue system was arranged for the record of membership and entries made of the names presented.

One hundred invitations were written for the Organization Meeting held October 2nd and during the month ten notices have been sent to the newspapers

October 12th was our moving day and the President and Secretary were busily engaged for two days putting the room in order for the opening, Wednesday the 14th. The County Fair brought many strangers to our town and a number of Association girls from other cities took advantage of our rest room.

During these four weeks the Secretary bas recieved 203 calls and great interest has been manifested in the work.

The use of the monograph has been a great help in advertising and 1050 cards have been circulated.

Ninety calls have been made by the Secretary and ten business letters written.

The Association has received some very pretty gifts from the girls which add much to the homelike appearance of the rooms. Many requests have come from educational classes and our membership is increasing.

The Hallowe'en party was thoroughly enjoyed and ninety guests were present.

As we look back over the few short weeks of our existence as an Association we feel very grateful for all the blessings received. "The Lord hath done great things for us whereof we are glad."

> Respectfully Submitted, E. Vesta Webster, Secretary.

Prominent Danville Resident Dead-

James L. Riehl, proprietor of the Montour House, Danville, died on Thursday after a protracted illness, aged seventy four years. He was quite prominent in Masonry, and for that reason enjoyed a large acquaintance. He has resided in Danville and had charge of its leading hostelry for the past forty three years. Among the positions of import filled by him during his residence in Danville was president of the Montour County Fair Association. The funeral took place on Monday. The remains were taken to Sellersville, Bucks county for interment.

Surveyors at Work-

The surveyors for the Danville and Bloomsburg Electric Railway began work in Danville Tuesday. They got over the route pretty rapidly and by night were beyond the Borough limits. Their presence created a good deal of interest along the line.

WASHINGTON.

Washington, Nov. 9, 1903.

From our Regular Correspondent.

ed with the result of the elections While the party did not succeed in defeating Senator Hanna in Ohio, it had a splendid victory in Maryland, where President Roosevelt's attitude on the race question formed the principal issue and in New York City it prevented the republicans, under the guise of Fusionists from retaining control of the city. McClellan's majority of over 63,000 is sure to bring the state to the democrats next fall, and Marylands's repudiation of the republican party and especially of President Roosevelt has caused the present Administration much alarm. In the Senate, Gorman will have the prestige of having administered a severe defeat to the party in power, and in the House, Hearst will recall the fact that his papers succeeded in bringing the democrats into line in New York City. These men will be the champions of the democratic cause and one of them may possibly lead the party in the campaign next fall. Senator Gorman will attack the negro policy of the President and Representative Hearst will show the laboring men how little they have to expect from the republican party. The "open shop" controversy is by no means settled in the eyes of the labor leaders and they are very liable to turn to Mr. Hearst to lead their opposition to the President. Hanna will come back to the Senate and it is believed by many that his victory in Ohio will lead him to believe that he is destined for greater things. There is an ominious unanimity in agreeing to Colonel Roosevelt's renomination and many politicians, who seem to know, declare that it is all on the surface. There is no denying the fact that the President is popular with certain sections of the country, but the old party leaders would welcome an opportun ity to defeat him. Senators Hanna, Spooner and Cullom and Secretary Hay have been mentioned quietly in republican circles as available men and if opportunity presents itself there will be sharp opposition to the President at the next republican convention. The republican defeat in Maryland where the President was an issue, may serve as a pretext for the opposition in his party. At all events the loss of New York and Maryland will weaken the present Administration.

Secretary Hitchcock has issued a statement regarding the land frauds in the Interior Department, and it must be conceded that it is a very skillful document in that it says practically nothing on a subject on which the public has a right to know all. However it is a marked improvement on Postmaster General Payne's "hot air, stump speech" comment on the postal frauds. He says in substance; Nearly a year ago strong indications of very serious land frauds by speculators on the Pacific coast, under the forest reserve lien land act of June 4, 1897, reached the Department. An investigation was started last January and the work is now going on "with great care and with all possible expedition consistent with thoroughness." The matter is to be probed to the bottom regardless of the influential character of some of the men involved. Several hundred thousand acres are involved in the illegal transactions, but reports have been "more or less exaggerated." "At the proper time a full statement will be made covering the results of the entire investigation, and the whole matter will be given to the public; but for obvious reasons it is not deemed expedient that a detailed statement of the facts should be given at the present time.' Perhaps like tariff revision and finan cial legislation, this statement ought most. to be postponed until after the presidential election. The investigations the time another investigation commission is formed, a million word retwelve months may be consumed. However there is the Secretary's authority for the statement that great prepared for easy digestion. frauds exist and that influential men are involved. Further more he declares that anyone who says that there

Write to the strife among the South American to | Cal-cura Company, Roundout, N. publics. The secession of Panama the interests on that state and Colom bia are in many ways opposed to each other and their geographical connections is not a close one. If Colombia should finally recognize the independence of Panama, there would be no objection to our treating direct with the latter country, or even guaranteeing its independence. If by any chance it might decide to become a part of our possessions, no one could foretell the political effects of our getting possession of South territory.

> Secretary Shaw's activities in distributing surplus funds will be seriously curtailed, according to the Treasury report for the first four months of the fiscal year, which shows that while eliminated owing to the custom receipts and increase in expenditures. The decline in the custom receipts is chiefly in the steel and sugar schedules. The importation of sugar has been lessoned by the anticipation of the passage of the Cuban reciprocity resolution. There has also been a marked decline in the importation of articles of luxury. There has been an increase in expenditure in many of the departments, especially in the navy. The \$5,000,000 appropriation for the St. Souis Exposition added also to the expenditure. The sale of public lands has been phenomenal, but returns from this source go to the irrigation fund. The falling off in customs receipts indicates a full in our "boom" times, and it is said that the republican leaders in Congress will attempt to make the session a very economical one, so as to make a good impression on the voters next
