

WASHINGTON.

From our Regular Correspondent.

Washington, Dec. 14, 1903 Post-office scandals were the subject of the first interesting debate in the Senate since the regular session began. Senator Penrose, republican, introduced a resolution calling upon the Postmaster General to send all the papers of the recent investigations to the Committee on Post-offices and Post Roads, which Comittee would institute a further investigation if it thought necessary. The republicans favored this resolution, but the democrats wished to amend it by making the inves igation mandatory by both the Senate and House. Senator Gorman lead the democrats in his first important speech since his return to the Senate. Senator Lodge and others opposed him. Mr. Gorman said, in part, "Sir, the country is not satisfied with what has been done. We not are satisfied with the course of this investigation, thorough as it may have been as to a ones jusist that it is persecution; that they are being made the scape goats of a great avalanche of fraud which has been perpetrated because others higher in authority have been We want to open the books. We want the investigation thorough and complete, and then we will see power, will turn out the inefficient have no doubt he will. Let us aid him to purify the Department and to prevent these wholesale frauds in the future." Senator Lodge replied by saying that a congressional investigation was the most clumsy one possible, and cited as proof of this assertion, that the Department had been investigated by two congressional committees which had been unable to find anything wrong. Senator Nelson added that the facts important that the public know the true condition of affairs in the De-

A ship subsidy bill, calling for discrimination in tonnage taxes and in duties on goods carried by American and foreign vessels, was introduced in the Senate by Senator Lodge, but the bill was labled "by request," which usually means that the Senator who introduces the bill is not especially interested in it. Senator Frye also introduced a bill providing that after July 1, 1904, all merchandise and passengers carried between the Philippines and the United States should be transported in ships bearing the American flag. In his annual message, the President recommended that a commission be appointed, consisting of the Secretary of the Navy, the Postmaster General, the Secretary of Commerce and Labor, and members of the House and Senate, to investigate and report what legislation is desirable for the

als be convicted.

Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to the records of Register Herb, who its normal condition, hearing will be destroyed forever; nine cases ing the miners' strike last year out of ten are caused by Catarrh, many weddings were of necessity which is nothing but an inflamed condition of the mucous surfices.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O Sold by Druggists, 75c. Hall's are the best.

developement of our merchant marine. A bill corresponding to this recommendation has already been introduced in the House.

Consul Davis, American representative in Alexandretta, Asiatic Turkey, has been assaulted by some Turkish soldier, in a dispute arising out of the arrest of an Armenian, who is a naturalized American citizen. In consequence, the consulhas left his post for Beirut. The incident is the cause of diplomatic representations at Constantinople, and it is expected that the Turkish government will make an apology. The State Department does not expect any serious trouble over the affair, but it has notified the Navy Department so as to be prepared for an emergency. The State De-partment has had much trouble with naturalized Armenians, who return to Turkey, as the Turkish government refuses to recognize the right of a Turkish subject to become a citizen of another country. Minister Leishman will make a report on the present affair.

According to the report of the Secretary of the Treasury, which has just been issued, there will be a deficit of over \$23,000,000 for the fiscal year ending June 30, 1904. while the surplus for the present fiscal year will be reduced to \$14,-000,000. He admits that our currency system has just passed through a serious crisis, which could easily have caused general disaster. He admits also that the non-elasticity of the currency is a weakness, but suggests no remedy.

There has been much discussion

here of the many instances in which President Roosevelt has betrayed his exaggerated idea of the powers and duties of the Executive branch of the National government. Criticism of such actions of the Presifew individuals. The prominent dent are by no means confined to the democratic party. At the final session of the last Congress, \$500,-000 was appropriated for the prosecution by the Attorney General of violations of the anti-trust laws. A negligent." "We want the facts. large portion of this money remains unexpended. Referring to this the President says in his annual message: "I now recommend as a whether the President, with his matter of the utmost importance and urgency, the extension of the and prosecute all the rascals, and I purpose of this appropriation, so that it may be available, under the direction of the Attorney General and, until used, for the due enforcement of the laws of the United States in general and especially of the civil and criminal laws relating to public lands and the laws relating to postal crimes and offences and the subject of naturalization.' In other words, the president asks Congress to turn over several hundred thousand dollars, appropriated which would be made public through for a specific purpose, for the use of such an investigation would help the Administration in the general those who are now accused. The enforcement of the laws. Such an work upon the roads soon as the democrats will no doubt point out act is a violation of the spirit of the to Mr. Nelson that it is far more Constitution and of express provisions of the statutes, which declare that all appropriations shall be made for his specific purposes. In anpartment, than that a few individuother part of his message which deals with Panama, Mr. Roosevelt has shown himself to be the arbitrary interpreter of acts of Congress. The last Congress instructed the President to negotiate a treaty with Colombia for the Panama canal. Such negotiations failed, and after the resolution in Panama, the President held that the orders of Congress did not refer particularly to the government of Colombia, but to any government which might what to feed his cows to get thereafter get possession of the canal Such an interpretation was enforced, showed a lack of appreciations of the powers of Congress and established a bad precedent. In the matter of recess appointments the President made another arbitrary decision. The extra session of Congress ended at noon last Monday. The regular session began at once. The appointments of General Wood, Dr. Crum and others had not been confirmed by the Senate. In order that these men might continue to draw their salary as recess appointments, until the Senate acted upon them, the President held that there was an infinitismal recess between the two sessions and sent in the nominations

Cupid Busy Since Mine Strike-

again as recess appointments.

the coal reigons 3244 young persons county this year, as is shown by issued 1622 marriage licenses. Durpostponed, which were celebrated this year.

Seven More Cases Of Smallpox.

Seven more cases of smallpox have been discovered in Centralia. The victims are all members of the Hegerty family. They were at once removed to the pest hospital.

CONFERENCE DATE CHANGED. Big Gathering of Methodists Postpones to

March 23

The date of the next meeting of the Central Pennsylvania conference of Methodist Episcopal church which will convene in Harrisburg has been postponed from March 16 to March 23. The conference will be held in the Fifth Street Methodist Episcopal Church. The presiding elders of the conference have just received word to this effect from Bishop C. C. McCabe.

Pay day in the mining and lumber regions of the conference, which has two districts in these regions, interferes with holding the meeting on the original date, and this is the reason of the change. It happens that the men in these districts are paid off from March 10 to 15, and this last date being but a day prior to the convening of conference it was thought wise to change the date, owing to important collections from these districts. By the change the exchequer of the conference will be increased by several thousand dollars.

Roads Ordered to Consume a year.

State Highway Department Has Been Asked to Build Fifty Miles of Road.

That the people of the State are interested in and desire to have good roads in their re-pective districts is evidenced by the rapidity with which they have taken advantage of the good road act passed by the last Legislature and applied to the newly-created highway department for aid in the rebuilding of roads. The department thus far has received applications to comply with which it will be kept busy for a year. The number of applications on file is 26 and they ask for the erection of 50 miles of road. It will keep Highway Commis-

sioner Hunter, Assistant Commissioner Statler and the other attaches of the department hustling to have the roads completed by next winter. The first duty of the Commissioner after an application has been filed is to inspect the road which is to be improved in order to ascertain the best method of procedure and estimate the cost of the work. Next plans and specifications of the proposed road are drawn and bids received for its construction. These duties together with the superintending of the work of building the roads, will consume at least a year of the time of the department.

The work is now being rushed as rapidly as possible. Commissioner Hunter and Assistant Statler have been inspecting the roads in counties which sent in the first appication and work on the plans is now in progress. It is the intention of the department to do as much of the inside work as possible during the winter so that everyweather will permit, next spring.

PROFIT

The matter of feed is of remendous importance to the armer. Wrong feeding is oss. Right feeding is profit. The up-to-date farmer knows

the most milk, his pigs to get the most pork, his hens to get the most eggs. Science.

But how about the children? Are they fed according to science, a bone food if bones are soft and undeveloped, a flesh and muscle food if they are thin and weak and a blood food if there is anemia?

Scott's Emulsion is a mixed food; the Cod Liver Oil in it makes flesh, blood and muscle, As one result of the prosperity in the Lime and Soda make bone have been married in Schuylkill and brain. It is the standard scientific food for delicate children.

Kammel Holds the Record-

Harry Kimmel, of Centralia, holds the record for shooting pheasants this season, naving killed 41 in and around Brush Valley, John Strambo, who holds the blue rock trap record in that section, killed but two, though he used fully 300 shells, which goes to show that there is a wide difference between pheasants and blue rocks.

IT IS YOUR BUSINESS

to pay attention to your physical welfare. Your responsibility begins when you get up in the morning. Your body begins its day's work at breaklast. A dish of "It" will give you the right foundation for the day's business. "It" has grain nutriment to satify the taste and add strength to the body and the brain. One dish makes you want another. You can est "It" at any time. Grocers sell "It". 2-12 ty

Hollman Heat and Food Chopper No. 11. At your By mail or express 75c. Your MONEY BACK If not ROLLMAN MFG. CO., 140 Peun Ave., Mount Joy, Pa.

FRENCH REMEDY produces the above results in 50 days. It acts powerfully and quickly. Cures when all others fail. Foung men will regain their lost manhood, and old men will recover their youthful vigor by using REVIVO. It quickly and surely restores Nervousness, Lost Fower, Failing Memory, Wasting Diseases, and all effects of self-abuse or excess and indiscretion, which unfits one for study, business or marriage. It not only cures by starting at the seat of disease, but is agreat nerve tonic and blood builder, bringing back the pink glow to pale checks and restoring the fire of youth. It wards off Insanity and Consumption. Insist on having REVIVO, no other. It can be carried in vest pocket. By mail, \$1.00 per package, or six for \$5.00, with a poil live written guarantee to cure or refund the money. Book and advise from Address DOVAI MEDICINIC A. Trayner Building. ROYAL MEDICINE CO., Trayner Building.
