HOUSEHOLD INDIVIDUALITY.

Delightful Effects Secured By Exercising Good Taste.

Here is a description of two rooms, which, if carried out on ever so small a scale, will prove a strong vindication of the advantage of individuality.

The first room is too elegant for the average purse, but its rare and exquisite color combinations can but suggest ideas for the furnishing of a simple, inexpensive room. The side wall of this room-designed to be used as a reception-room-are paneled, the panels in very delicate shades of green and lavender alternately, These panels are outlined in white applique.

The ceiling and deep cornice are white. The woodwork also is white. with enamel finish. The floor, handsomely inlaid in hardwood, has one large rug of delicate green velvet, a plain center, with borders in stripes. At the windows are beautiful inside curtains of Battenberg lace, and over these are dark purple velvet curtains, falling straight to the floor on either side. The portieres also are of purple velvet. Both curtains and portieres have borders of dull copper silk braid in design.

The chandeliers and side-light fixtures are in brass. A table and a few brass chairs, upholstered in dellcate silk of French design, compose the furnishings.

In contrast to this delicate room is the second one-a study in dark brown and green, with a touch of dull yellow. Of course, this color scheme ought to be used only in rooms with sunny exposure. The resourceful woman who designed the room found waiting for her hand some dark brown woodwork, enlivened with a sort of graining in imitation of oak. Money was lacking, so this determined little woman lay awake several nights concocting schemes for making that horrid paint conform to her pretty furnishings, and at the same time bend to her purpose to have a beautiful tasteful room.

The scheme evolved was most satisfactory to her and to her friends. First, she had a wide shelf (five inches), with a cove underneath, placed all around the wall at a point only a few inches above the half-way mark. The room was high and could bear this treatment. The shelf was painted a dark brown to match the wood-work.

The ceiling and side walls, down to the shelf, were papered in rich. dark green ingrain, which was an exact imitation of black walnut.

The floor was painted dark brown, and the nine-by-twelve rug, made of strips of Axminster carpet sewed together, was of the same shade.

For furniture she used a massive weathered oak table (round and perfectly plain) and a few chairs, upholstered in Spanish leather, with a suggestion of dull yellow in its shad-

A Ben Franklin Story.

When Benjamin Franklin was on his famous mission in Paris he and and Silas Deane were one day discussing the numerous errors they found in the Abbe Raynal's "Histoire des Deux Indes," when the author of that work happened to come in upon them. They told the good man the subject of their conversation and the abbe immediately denied that there were any errors in his history.

His attention was called to the story of a certain Polly Baker and an eloquent address which the abbe credited her with making before a Massachuetts court. The abbe insisted that it was a true story, but admitted that he could not remember his authority for it. Dr. Franklin was shaking with laughter during the protestations of the learned Frenchman.

At last he said: "I will tell you, abbe the origin of that story. When I was a printer and editor of a newspaper we were sometimes slack of news, and to amuse our customers I used to fill up our vacant columns with anecdotes and fables and fancies of my own, and this tale of Polly Baker is one of my making."

A New Decoy Duck.

A decoy duck that will flap its wings and rise from the water has been put on the market. The decoy is mounted on a rod which fits into a tube whereby the decoy may be anchored. The decoy is connected with a cord to the shore or wherever the hunter is and when the latter pulls the bird moves.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure 'now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hail's Catarrh Cure is taken internally. acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the pa tient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address:

Tired Nervous

When you feel languid, tired. nervous and irritable, your vitality is low-your supply of nerve energy exhausted, and your system running down for lack of power,

The organs of the body are working poorly, or not at all, and you are not getting the nourishment needed. This soon impoverishes the blood and instead of throwing off the impurities, distributes it all through the body. This brings disease and misery.

Feed the nerves with Dr. Miles' Nervine, a nerve food, a nerve medicine, that nourishes and strengthens the nerves, and see how quickly you will get strong and vigorous.

strong and vigorous.

"My wife suffered with nervousness previous to a recent attack of typhoid fever, but after her recovery from the fever, she was much worse, and could hardly control herself being exceedingly nervous when the least excited. She was very restless at night, and never had a good night's rest. She clso suffered much from nervous headache. Dr. Miles' Nervine was recommended by a friend. After the first three doses she had a good night's rest, and at the end of the first week's treatment she was wonderfully improved. Continued use of Nervine has completed her entire cure."

BABY SUPERSTITIONS

Queer Beliefs of Mothers in All Quarters of the World.

All the world over the mother has queer superstitions about her baby. Here are some of the queerest of them from the four corners of the

In Roumania the infant's ankle is bound up with a red ribbon immediately after birth to ward off the evil spirits.

In Ireland, for the same reason, a strand of woman's hair is placed in the cradle.

In the West Indies the negroes follow the same customs as the women in Roumania but their ribbon is blue instead of red. If they have no ribbon they make a mark with washing blue upon the child.

In Russia there is a superstition that a baby and a kitten cannot thrive in the same house. One is sure to pine away and die, so pussy is always driven away as soon as a baby comes.

Most English women think it is extremely unlucky to carry a baby downstairs before it has journeyed upward. If the baby is born on an upper floor and there are no stairs to climb, the mother must hold her darling high up in the air, standing upon a chair or table and only then can it be taken downstairs in safety. This superstition is also common in France and Germany, and even in some parts of this country.

Another English superstition is that the baby who does not cry when it is christened will have bad luck all through life. If the infant insists on being good, the mother pinches it to make the cry come.

In Spain the women say that a baby under a year old should not be allowed to look in a mirror; otherwise, it will grow up proud and haughty.

Most mothers are very much alarmed when their babies fall out of bed or off their laps, but in India the women think it is an excellent omen. In Ireland there is a similar superstition which says that unless the baby falls out of bed four times before it is a year old it will be a hopeless idiot.

Novelties in Metal and Wood. Folks who are on the lookout for new things pertaining to the house-

hold will find much to interest them. The general demand for novelties stimulates the inventors, designers and manufacturers with results that in many instances are very gratifying to the seeker for the latest decorative and useful productions.

Royal copper and silver have the preference this season in metals, the

CASTORIA For Infants and Children. The Kind You Have Always Bought Bears time Batt Wether

former showing a peculiarly bright luster. The combination is delightfully represented in vases and loving cups, two examples of which are shown in the accompanying group. The mounting of silver presents an effective contrast to the reddish gleam of the copper and these ornaments, being new, are likely to receive much attention from the admirers of artistic metal work.

The cigar case shows how copper mounting is utilized to impart a decorative note to an unpretentious box and the blotter with its mounting of royal copper is the latest thing in desk accessories.

A fern dish or jardiniere of weathered oak is in keeping with the fancy that has developed of late for furniture of this dark wood, both in the mission style and more ornate designs. The mounting of silver relieves the excessive plainness of the fern holder and for a library or an apartment where dark oak furniture predominates this jardiniere would make a most harmonious aduition.

There are clocks galore, stain and ornate, for special apartments and general use, but the most distinctive of late designs is the one here shown in weathered oak. The dial is an uncommon one, the hours being indicated by playing cards, while poker chips constitute the central decoration. In a den or eard room such a clock would fit in admirably, the simplicity of the casing and its dark coloring adding to its appropriateness. Clocks such as these are not to be had for a song, and therefore are not likely to become very common.

Wearing Imitation Jewelry.

It is not unusual for the woman who likes to make a display of jewelry to have the real gems removed from their setting and fine imitations substituted. These are worn during the summer, and even her best friends-or enemies-cannot detect the difference, but recognize only the famous fashion of the setting.

New York and the Presidency.

Thus far New York has contributed only three Presidents by election-Van Buren, Cleveland, Roosevelt. New York has contributed nine Vicehowever - Burr, Presidents. Clinton, Tompkins, Van Buren, Fillmore, Wheeler, Arthur, Morton and Roosevelt. Van Buren went to the Presidency by election immediately afterward, and Fillmore, Arthur and Roosevelt attained that office through the death of the elected incumbent.

The Republican party has taken but one Presidential Candidate from New York but has taken five of its Vice-Presidential nominees-Wheeler, Arthur, Morton, Whitelaw Reld and Roosevelt-from this State.

The Republicans have carried New York for President nine times-in 1856, 1860, 1864, 1872, 1880, 1896, and 1904-and have lost it four times-in 1868, 1876, 1884 and 1892.

In every Presidential election beginning with that of 1812 New York has been preponderant among all of the States in the Electoral College. In every one of the twenty-nine elections for President thus far held, the side which New York took turned out to be the winning side except in four instances-in 1812, when it went to De Witt Clinton; in 1856, when it was carried by Seymour, and in 1876, when Tilden got its electoral votes .- Leslie's Weekly.

For Thin Babies

Fat is of great account to a baby; that is why babies are fat. If your baby is scrawny, Scott's Emulsion is what he wants. The healthy baby stores as fat what it does not need immediately for bone and muscle. Fat babies are happy; they do not cry; they are rich; their fat is laid up for time of need. They are happy because they are comfortable. The fat surrounds their little nerves and cushions them. When they are scrawny those nerves are hurt at every ungentle touch. They delight in Scott's Emulsion. It is as sweet as wholesome to them.

Send for free sample.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy-

MISSES' BLOUSE WAIST.

Full waists are much in vogue for young girls and are exceedingly charming both with plain skirts and with the suspender dresses that are

so much worn. This one is admirable for both purposes and is suited to many materials, but is shown in embroidered challie with collar and cuffs of lace. The quantity of material required for a girl of 14 years of age is 3 1-2 yards 21 inches wide, 2 3-4 yards 27 inches wide or 1 7-8 yards 44 inches wide, with 5-8 yard of all-over lace.

Words of Wisdom. Three things to admire: Intellect,

dignity and gracefulness. Three things to hate: Cruelty, arrogance and ingratitude.

Three things to delight in: Beauty, frankness and freedom.

Three things to like: Cordiality, good humor and cheerfulness. Three things to avoid: Idleness,

loquacity and flippant jesting. Three things to cultivate: Good books, good friends and good man-

Three things to contend for: Honor, country and friends. Three things to govern: Temper, tongue and conduct.
