JAPAN, PAST AND PRESENT.

In April 1860, the first Japanese Embassy that had ever visited any country, came to the United States.

"That event properly ranks with the Declaration of Independence and the Centennial Exhibition, as one of the most significant of the city of Philadelphia has ever witnessed.

The Embassy consisted of eighty persons, fifty-four of whom were servants or personal attendants.

The present editor of this paper, who was then a mere boy, had the good fortune to be in Philadelphia at this time, on a visit to relatives,

and it was the beginning of a new era for the Japanese Empire. It opened up their gates to the world, and commerce was established with other nations.

That was forty-five years ago, and it was the beginning of a new era for the Japanese Empire. It opened up their gates to the world, and commerce was established with other nations.

For Pure Canned Food.

Packers Form Association to Stop Sale of Poisonous Products.

Roused by the criticisms of food experts and magazine articles condemning canned foods as poisonous, the canners and packers of vegetables and fruit in the United States have formed a national body, to be known as the "National Association of Packers of Pure Canned Food."

The new organization numbers among its members the largest packers in the country, and represents even at this stage a capitalization of millions of dollars.

One thousand five hundred manufacturers, representing practically every concern engaged in that industry in the United States, are expected eventually to become members.

Ninety-two Millions Paid Policyholders. The Prudential Insurance Company of America has added another highly successful year to its brilliant record, an announcement which will cause satisfaction to its millions of policyholders.

The volume of paid for insurance issued by the Prudential during 1904 was over \$312,000,000, an amount larger than ever before in the Company's history.

The assets were increased by \$16,000,000, bringing the accumulated assets up to over \$88,000,000, with liabilities of \$75,000,000, leaving a surplus of \$13,000,000.

The Annual Statement of the Prudential, just published, analyzes these assets and shows them to be of the highest grade.

There was paid to policyholders during 1904 the sum of over \$13,000,000. The Company since its organization has paid to policyholders over \$92,000,000.

A fact which strikes the casual reader, and one which goes far to explain the support of the Company by the masses, is its just and liberal method of settling claims.

Write to the Home Office of the Company, Newark, N. J., for information concerning the Prudential's policies, which furnish guaranteed protection to the family as well as dividends to the policyholders.

New Hoboken Terminal. Immense Passenger Depot to be Erected by Lackawanna Railroad.

Work has already begun on the new Terminal which the Lackawanna Railroad Company is erecting in Hoboken, N. J., and it is expected that the building will be completed and in operation within two years.

The building will be absolutely fire-proof, a minimum of wood being used. Its construction will be of steel and concrete throughout.

The station will be attractive from an architectural point of view, and numerous new features are planned for the convenience of the road's patrons.

A wide concourse will give access to the second deck of the boats and this concourse alone will hold thirty thousand people.

Passengers from boats to trains will not be compelled to pass through the main waiting room, but may proceed through a forty-foot concourse to a broad flight of steps leading to the tracks.

On the ground floor of the ferry-house will be found a large waiting-room for the Hoboken ferry passengers and on the second floor numerous division offices of the company, a completely equipped emergency hospital, toilets, barber-shop and baths.

The exterior of the building will be six hundred feet long on the river side, the tower rising to a height of two hundred and twenty-five feet. This will be electrically illuminated at night and its lighted clock faces will be one of the noticeable sights of the harbor.

A separate building for the use of immigrants and Pullman supplies, just to the south of the terminal building, is nearly completed and will be occupied within a few months.

The work of building is necessarily somewhat slow, as the structure must be erected in sections so as not to interfere with the heavy traffic the Lackawanna is now carrying.

The Company hopes to have everything completed within twenty-six months after the commencement of the work. Kenneth M. Murchison is the architect.
