Have you any especially fine sheep or lambs this summer? Why not let your neighbors see them at the fair this fall? You might sell some at good figures. Maize is distinctly shown viewing the contest from the rear of the first base line. It was a great game. The score at the beginning of the ninth inning was a tie, five to five. A difference in opinion as to whether a Pittsburg player was safe at third base led to a disagreement, and New York refused to continue the playing, when the umpire, fearing trouble promptly forfeited the game to Pittsburg 9 to 0. It is a remarkable photograph and was given away as a supplement with *The Index*.

An Experiment.

The Bell Telephone company is making an experiment in some sections that undoubtedly will be come general in the future. It is the placing of automatic pay station on telephone poles in the country districts. This gives the ruralite an opportunity to send out a message at any time he may see fit, and is also a great advantage to the traveling public as messages may be sent on ahead, arrangements made to transact business at a certain point or time, etc.

The farmer's picnic of Columbia, Montour and Northumberland counties, which was to have been held at DeWitt's Park, South Danville, last Saturday, was on account of the disagreeable weather conditions, postponed till Saturday, September 2nd. The decision whether to hold or continue the picnic on Saturday, was let to the judgment of the farmers at the curb stone market at Danville Saturday morning and a big majority favored a continuance, which coincided with the committee. The news of the postponement, however says the Danville News, did not become generally known and as a result, in spite of the inclement weather, many farmers gathered at the park, some of them having driven many miles. They ate their dinners in the woods, but rain in the afternoon compelled them to seek the pavilion for shelter.
