THE COLUMBIAN, BLOOMSBURG, PA

WASHINGTON.

From our Regular Correspondent. Washington D. C. Aug. 31, 1905.

The official vindications of the government officials who have been under suspicion are beginning to come in. It is usually the case when there is an investigation of any kind in the service that the most and the highest of the officials come out of the crash with if any thing enhanced reputations. The Agricultural Department is proving no exception to the rule. The Secretary of Agriculture was able

several days ago to announce the reinstatement of Prof. Moore of the division of soils and of Nitro Culture fame. It was explained that he was engaged in a work that no one else in the country was competent to carry out and that there was nothing wrong anyhow in his connection with the Nitro Culture company but that he had been "scared out of the Department" before a due investigation of the case. Today a statement was issued by the Secretary of Agriculture that the investigation in the Bureau of Animal Industry had been concluded and triumphantly vindicated Dr. Salmon, the chief of that Bureau who was known to have been interested some time ago with Mr. Howard of the Howard Publishing company, the concern that for some years past has furnished the department with the patented meat inspection label used on all carcases of animals passed by the government inspectors at the big packing houses. The word big may be used advisedly for it was mostly the big packers who succeeded in getting inspectors appointed; and without the government inspection it was impossible to sell meat abroad, most of the countries to which the United States exports, requiring a government certificate before allowing meat to be put on the market. There were a number of the smaller firms who were debarred not only from this trade but from the market in some states at home because they could not furnish government ton for 'neglect of duty'' in concertified meat. The head of the Bureau of Animal Industry explained at the time that this shortage of inspectors was because of the scantiness of his appropriation. Of course the big packers had to be known and popular officers in the The line includes drug envelopes, served first. At any rate there Navy, The Secretary of the Navy pay, coin, baronial, commercial have been three indictments in connection with the Agricultural Department's Cotton leak scandal and it is said that in most of the government departments, all a deputy and efficency after the disaster, and ty to select from. marshall has to do is to stand at it is sincerely hoped that the two Entrance through Roy's Jewelry the front door with a sheet of white officers will be able to make a sat- Store. paper folded lengthwise and yell "Indictment," to have every one

JOHN SEBASTIAN,

Pase. Traf. Mgr., Rock Island System,

CHICAGO.

An interesting document has been received at the State Department from Consul General Sammons at Newchang on the subject of American trade after the war. This report states that there is a good opening in the country for wagons and agricultural machinery wares. The state of the interior is still disturbed and there is evidence in that in many spots the farmers are afraid to cultivate their fields owing to the frequent fatalities from the plow striking live shells in the ground. Many of the peasants have already been killed in this way,

Insanity Among Foreigners.

Poor Director Blames Meat for Conditions In Anthracite Region.

Poor Director Frank White of Weatherly, has offered a novel, yet plausible, theory as to the alarming prevalence of instanity among the foreign element throughout the anthracite coal region.

Mr. White, who has made a close

ment are greatly interested in the outcome of events at Portsmouth and no one of whatever politics will grudge President Roosevelt full praise for all that he has done to bring about peace. It came as a surprise to most of the foreign offices abroad to learn that an agreement of the plenipotentiaries had been reached. It has been thought and possibly hoped in the countries where the United States is not much liked that the conference would end in a break up and all the President's efforts would go for naught. But this eventuality has been happily avoided and it is possible af er all that the treaty may be brought to Washington for signature in the Diplomatic Room of the State Department where signatures have already been affixed to so many important treaties. The Treaty of Washington would be a pleasant name to go down in history and the Diplomatic Room is being refitted and put in good order to that if the great session is concluded here everything will be in readiness.

There is more Catarrh in this section of the country than all other diseases put together, and until the last 'iew years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoontul. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio.

Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

To the Pacific Coast - to California, Oregon, Washington round-trip, long transit and return limits, liberal stop-over privileges.

The rate is practically on the basis of one fare for the round trip. Of course, if you wish to visit both California and Oregon or Washington, the cost is slightly more.

These reduced rates are in effect on certain dates in months of May to October, inclusive. They apply from all Eastern points via Chicago, St. Louis or Memphis gateways. The Rock Island System will take you up in either Chicago or St. Louis, or at hundreds of other Middle West points and carry you to the Coast in through Standard or Tourist Sleepers with unexcelled Dining Car service. The Rock Island also affords a choice of routes: on the "Scenic" route you can stop off in Colorado-see Salt Lake City-visit Yellowstone National Park; on the "Southern" route you can go via El Paso, thru New Mexico, then "up coast" to San Francisco and on to Portland or Seattle if desired.

In short, these Pacific Coast excursions offer an unusually good chance to see our western country in a comprehensive manner.

If you desire to go only as far as Colorado, there are excursion rates in effect to that section and return, all summer long, specially reduced June 30 to July 4, August 12 and 13, and August 30 to September 4. Extension trips to Ogden or Salt Lake and return at low cost also.

From September 15 to October 31, 1905, one-way tourist or "colonist" tickets will be on sale to California and the Pacific Northwest-about half regular fare.

If interested, send name and address on this coupon, designating which booklet wanted and to what point you plan to go. Name probable date of start also, so we can advise definitely with respect to rates, etc.
