STATE HAPPENINGS.

The Reading police are making many arrests of illegal car riders at Shamokin, Sunbury and other central points along the Shamokin division. The police have orders to break up the practice at any cost.

Hon. J. Henry Cochran and Dr. E. B. Campbell of Williamsport, and Mr. Cochran's brother, from Wisconsin, have gone to the Maine woods on a hunting trip, expecting to be gone two or three weeks.

Eight thousand kegs of beer are to be poured into a stream at Pottsville because the receiver of a defunct brewing company finds it too expensive to store them for a longer time. Isn't it too bad that some of our Bloomsburg bums are not camping along that stream.

Thirty-two saloon keepers in Scranton, Carbondale and Old Forge were arrested Monday, charged with violating the Sunday laws. It is said that 400 more will be arrested. The movement was started by Rev. Dr. Riley of Wilkes-Barre, leader of the Anti-Saloon League of that section.

John Chapwell was drowned in the Susquehanna river at Wilkes-Barre Monday evening while trying to rescue two other men named Flynn and Dennis. Their boat upset and all were thrown in the water. Chapwell righted it and went to the rescue of the others who grabbed the boat, upsetting it again and throwing Chapwell in the water. He was drowned and they were saved.

For the fourth time in fifteen years the people of Pottsville will vote on a proposition to apply for a charter for the city. This proposition was brought up in 1890, and then defeated. Now the council is arranging to lay the matter before the people at the November election. The town has long had enough population to become a city, but certain interests have always managed to defeat the plan.

Judge Lynch, Dr. A. P. O'Malley and George J. Stegmaier, all of Wilkes-Barre, have returned home from a trip to Europe. They were absent nearly two months. The greater part of the time was spent in Germany, which they toured thoroughly. They also visited France, Belgium, England, Wales and Ireland, under the guidance of Mr. Stegmaier, who has made several trips through those countries.

The members of the Locomotive County Bar Association held an outing at the Haleka club house Saturday afternoon, to which point they journeyed on a special train. The attraction of the afternoon was a base ball game between the married and single men. They played until they were tired and then quit. The picnic was largely attended and the lawyers enjoyed themselves hugely.

John August, an aeronaut, 25 years old, of Shenandoah, Pa., was dilled at Baltimore Saturday afternoon by falling 2,000 feet from his balloon. The exhibition went as usual until the balloon reached an altitude of about 2,000 feet. August who had been performing on a rappee, apparently became exhausted. He was seen to make an effort to draw himself up to a sitting position on the bar, but failed. An instant later he was whirling through space. August landed on a fence. His right leg was torn off at the knee and the body was horribly mangled.

Disfigured Skin

Wasted muscles and decaying bones. What havoc! Scrofula, let alone, is capable of all that, and more. It is commonly marked by bunches in the neck, inflammations in the eyes, dyspepsia, catarrh, and general debility. It is always radically and permanently cured by

Hood's Sarsaparilla

Which expels all humors, cures all eruptions, and builds up the whole system, whether young or old.

Home Again.

James Magee, manager of the Magee Carpet Mills, reached home last Saturday after an absence of nearly two months in Europe. Neither he nor J. W. Evans who was with him, lost a meal during the trip. He was warmly greeted by his employees on his return, and the several superintendents had his office beautifully decorated with flowers. On the return trip on the vessel Mr. Magee sat at the head of one of the tables which was occupied mostly by a party of teachers, and before landing they presented him with a set of humorous and highly complimentary resolutions.

GENERAL NEWS

The cost of the long distance telephone line being constructed to span the distance from the Atlantic to the Pacific oceans, for material, labor, right of way, etc., is said to be fifty dollars for every pole set. The poles are placed about eight rods apart, therefore the cost is about \$2,000 for every mile, or over \$400,000 through Pennsylvania.

The story is going the rounds of the press that Grover Cleveland was recently offered the presidency of a new trust company at a salary of \$50,000 a year. The ex President declined on the ground that he had no special qualifications which would be valuable in the capacity as the chief officer in a trust company. This is a sample of simple honesty that is so old fashioned that it is refreshing.

Director of the Mint Roberts, has made public his estimate of the production of gold and silver in the United States for the calendar year 1904. These figures show an increased production over the calendar year 1903 of \$7,131,500 gold and \$3,486,000 fine ounces of silver. The largest gold gain was by California, which yielded about \$3,000,000 more than in the previous year, and a larger amount than in any year since the sixties.

The uprising in Baku continues. It is reported that many Armenian villages were wiped out and hundreds of persons killed. Help is slow in reaching there owing to the distance from the military centers. The whole of the Tartar population has risen and has been joined by 4,000 armed Kurds from the Persian bank of the Alia river. The Viceroy protested to the Persian authorities.

Sheep

The world's supply of sheep is rapidly diminishing. In ten years there has been a decrease of nearly 72,000,000, or pretty close to one-seventh of all the flocks of the earth. It appears that the higher the civilization the fewer the sheep. Great grazing lands from the extreme end of South America to the plains of Russia, which once pastured immense flocks of sheep, are gradually being turned over to agriculture.

In Canada the number of sheep is steadily falling. Germany, according to the 'American Wool Reporter,' has now but 10,000,000, where half a century ago it had three times that. In India the flocks have lost a seventh in eleven years, while in Spain, which is the home of the finest fleeces of the world, they lost a fifth in a brief eight years. Nearly one-seventh of the entire supply of sheep is in Russia, but they are of an inferior breed, and the wool is not in demand in foreign countries.

There has been during the past year a very large increase in the price of wool. With the population of the world steadily rising and the number of sheep more rapidly falling, the permanent cost of this great staple fabric seems likely to remain relatively high.—Philadelphia Press.

It Was Not a Murder

Updegraff's Body Was Found Two Miles Below Muncy Dam

The body of William Updegraff, who disappeared on Saturday night September 2nd, from Williamsport, was found Sunday at Fisher's Island, two miles below Muncy Dam. The body had stranded on the point of the island. It was in a bad state of decomposition and could not have been identified except by the clothing and the contents of his pockets. There were no evidences of foul play. There were no suspicious bruises on the dead man's body. The money known to have been in his possession at the time of his disappearance, his watch and other valuables, were all found on his person, which effectually dispels the murder theory. The friends of the dead man are now satisfied that death was due to accidental drowning.

MAN DROWNED.

The body of William Fenstermacher who disappeared from Berwick on Labor Day, was found on Thursday afternoon in the river at Northumberland. It was taken to an undertaking establishment, and identified by a pass book with his name in it, and his sons at Berwick were notified. The remains were taken up the same day, and buried in the cemetery on Saturday.

A man named Lowe was last seen with the deceased at Espy. Both were intoxicated and Lowe says he cannot remember where they parted. It is believed that Fenstermacher became confused, and got off the trolley, and walked to the river and fell in.

Oak Grove Law Suit.

The Land Improvement Co. brought suit several years ago against the Town of Bloomsburg to recover the price of Oak Grove, alleged to have been bought by the town in 1891, and the suit is for \$2000 and interest. On Tuesday Judge Herring, representing the town, asked for a non-suit on the ground that the plaintiff had not made out a case, the town having no legal right to make the purchase. Judge Staples refused the motion but in his charge reserved the legal point as to whether the town was bound by the purchase. The jury rendered a verdict of \$2109.00 for the plaintiff, subject to the opinion of the court on the point reserved.

Held For Trial.

Elmer Halderman who was arrested on a charge of assault and attempt to rob W. H. N. Walker at the latter's hotel in Danville on July 3rd, applied for a writ of habeas corpus, and a hearing was held before Judge Staples in the Danville court house on Monday evening. The prisoner was identified by one witness and others were in doubt. Judge Staples decided that the evidence was sufficient to hold him, and Halderman was remanded to jail.
