EDUCATION AND WAR.

It Costs More to Fire a Single Gun at Sandy Hook

Thau II Did to Educate Daniel Webster—Costs More to Build One Battle Ship Than to Build Half a Dozen Colleges.

The current number of Success says that the amount now spent for education in the United States is about two hundred million dollars a year. From present indications the annual appropriation for the navy alone will soon very largely exceed this sum, with prospects of indefinite expansion. Until recently the combined military and naval expense of the country were less than one-fourth of those of education. We are, therefore, progressing four times as fast in the arts of war as in those of peace.

The latest type of battleship will cost eight million dollars to build, as much as the entire appropriation for the army and the navy during the eight years of Washington's presidency, since which time the military and naval expenses have increased fifteen times as fast as the population—and when this ship is finished it will be merely an experiment! England has had the largest experience in naval construction, and has recently declared a great number of her warships to be useless. Eight million dollars is more than three times the cost of all the buildings and equipments of Tufts College, Boston University, Williams College and Amherst College. The yearly maintenance, operation, interest on investment, deterioration, and gun practice of this battleship will exceed one and one-half million dollars—a sum sufficient to pay every living and educational expense of three thousand young men and women in our best colleges, or to meet the school expenses of fifty thousand children. It costs more for the mere material to fire one shot from the gun at Sandy Hook than it did to educate Daniel Webster. A day's gun practice of a single ship, firing at imaginary enemies, costs more than it did to educate Emerson, Longfellow, Lowell and Phillips in Harvard College. Any increase in appropriations and naval activity immediately produces a corresponding increase in activity by the other great naval powers of the world, and this, in turn, excites us to further expenditure, so none gains anything in relative strength. The burden is merely increased. The taxpayers of the different naval powers of the world are kept in a state of continual excitement and fear by the activity of the others, each believing there is an intention to secure some unfair advantage, and claiming that no other reason can be offered in explanation of this extraordinary and unprecedented growth. There have been necessary and honorable wars, and the future may have others in store. There are nobler sentiments than those of peace—duty, patriotism, justice and honor—but above them all we may write love to man. To levy one penny of necessary appropriation or to cease one moment's needed activity in any genuinely patriotic cause is so wholly un-American that I need not refer to it. But it is far better to direct our efforts toward the things that will build up rather than toward those that tend to pull us down. It is far nobler and more in accordance with the spirit of American development and progress to direct our energies into the channels through which we may uplift our entire country and aid the whole world.

Scrofula

Is very often acquired, though generally inherited. Bad hygiene, foul air, impure water, are among its causes. It is called "the soil for tubercles," and where it is allowed to remain tuberculous or consumption is pretty sure to take root.

Hood's Sarsaparilla Removes every trace of scrofula. Get Hood's.

For testimonials of remarkable cures send for Book on Scrofula, No. 1. C. L. Hood Co., Lowell, Mass.

W. C. SNYDER, Supt.

WILL BE SOLD AGAIN.

The lots in the Neal addition that were struck off to C. W. Miller at public auction a few weeks ago, will be offered again soon for sale. Mr. Miller bought the land believing that the Board of Trustees of the Normal School would ratify his action, but as the Board refused to do this, the report of sale on Monday was set aside and a new order of sale granted.

As the Normal School must have a new building for the science departments, the Board did not feel that they could afford to buy more land at this time.

Gearhart to Delay Prosecution.

It is announced on good authority that District Attorney Cicero Gearhart, of Stroudsburg, unless directed otherwise or superseded, will postpone consideration before the Grand Jury of the cases against four of the members of the Board of Trustees of the East Stroudsburg State Normal School, who are charged with violation of the law in furnishing the school with supplies. The petition presented to Judge Staples for the superseding of Gearhart and the appointment of another officer to try the trustees was like a bomb to the friends of Gearhart, and he is preparing to make a vigorous fight against the proposition.

Woman a Fake.

Dr. Johnson, in charge of the work of preventing the spread of the typhoid fever epidemic in Nanticoke, calls attention to the fact that a woman is circulating through this region palming herself off as a nurse and collecting money, which she claims is for the sufferers in Nanticoke. He says that she is a fraud.
