Near the bridge is the Susquehanna House of which Harvey Deitrick is proprietor, and Harvey has grasped the situation by announcing that his bar is kept open all night, thus enabling the thirsty Danvillian to quench his thirst after midnight, or to brace up on a very early matuti-nal cocktail, simply by crossing the bridge and producing the price.

JUDGE STAPLES ON CIGARETTES

On Monday morning in his harge to the grand jury, Judge Staples again relerred to the cigarette law, as he did at September court. He addressed the jury in the following words: We also call the attention of this

grand jury to what we tried to impress upon the last grand jury, and we think it no harm that this court should present this matter at every term. That is the law as to the sale of tobacco, eigarettes and eigarette papers to minors. The law prohibits such sale. We reiterate, we called the attention of the last grand jury to this fact; but since coming here this time I have seen boys in Bloomsburg smoking cigarettes on the street. The law provides that no person shall furnish by sale, gift or otherwise cigarettes or cigarette papers to a boy under the age of twenty-one years. That law was meant for a good purpose. There is no sensible man who will deny the proposition that the smoking of cigarettes is injurious. I have boys of my own, and I would rather give my boy a glass of beer which is historically correct, adds than put a cigarette into his mouth; for the boy that smokes cigarettes than put a cigarette into his mouth; will soon have the strong drink to go with it. I think both of them are evils but the strong drink is the lesser evil of the two; the testimony of physicians is to that effect.

Also it is against the law to furnish by sale, gift or otherwise tobacco to boys under the age of sixteen. It is for the entire community and for you as representatives burg State Normal School will of the county, to do all in your leave the Philadelphia and Reading power to see that these laws are rigidly enforced, that they are strictly observed. They never will be observed unless the people become interested in their observance. Legislative enactments do not enforce themselves; courts alone cannot enforce them.
