Hazleton is to have a public
library. The committee in charge
of the movement has collected about
six thousand dollars thus far, and
at present they expect to open the
library about September first.

Frank P. Billmyer, Esq., is in
town for a few days on business.
He is secretary of the American
Seating Company, with offices in
New York, but his residence is in
Montclare, N. J. When he re-
turns there, his mother, Mrs. Peter
Billmyer, will accompany him.

The new front of the First Na-
tional Bank is being used by
thoughtless men to scratch matches
to light their cigars. It would seem
as though every man and boy in
town would take pride enough in
this fine building to protect it from
vandalism rather than to deface it.
There are many kinds of grey mat-
ter in people's brains, and there
seems to be a whole lot of the kind
that leads its owner to deface prop-
erty, or drop banana and orange
skins on the pavement, or throw
snakes in girls' laps, and do other
unaccountable and inexcusable
things.

STATE'S FRUIT IS THREATENED.

State Economic Zoologist Warns the Farmers.

Owing to the hot, moist condi-
tion of the weather which has ex-
isted for several days, Prof. Sur-
face, the State Economic Zoologist,
says that the fruit crop is threat-
ened with an increased crop of in-
sect pests and to plant diseases,
particularly blight.

The potato crop is liable to suffer
from rot and blight.
Prof. Surface recommends to the
farmers that a good standard fung-
icide be used frequently.

BE AN AMERICAN PATRIOT.

\$2.50. The Philadelphia Press offers
a fine hand-sewed American Flag

scription to The Daily Press, both

is worth \$3.00 you practically are
getting the flag free. Cash must ac-
company all orders. Send \$3.50
to-day and get in on this great bar-
gain. Address The Press, 7th &

MUNICIPAL GARBAGE PLANTS.

The system of refuse destruction
in some of the English cities is be-
yond criticism. The money de-
rived from the material in many
instances more than covers the cost
of collection and reduction, and,
in addition to this, heat, light and
power are supplied for municipal
purposes. A notable instance is at
Nottingham, England, where a
third incinerator is about to be
erected which will be much larger
than the two existing plants. In
that city one of the by-products of
the plants is bricks for paving or
building. The clinkers from the
furnace are mixed with cement and
under hydraulic pressure formed
into blocks which are said to be
harder and more enduring than rock
itself.

Sugar Made From Charcoal.

Alleged Discovery of a Los Angeles Chemist
—Sugar at Less Than One Cent Per
Pound.

Charles P. Stewart, a chemist of
Los Angeles, Cal., claims to have
invented a process by which he can
manufacture sugar from charcoal
and water at a cost of less than one
cent per pound. Before a number
of business men the inventor has
given a practical demonstration of
his process at his residence.

In 20 minutes the apparatus
changed 42 pounds of charcoal and
a trifle over 60 pounds of water into
100 pounds of powdered sugar.

A company with a capital of
\$30,000 has been organized to
manufacture Stewart's sugar.

Elk Calves at Billmeyer's Park.

Half a Dozen Little Animals Which Prove
Objects of Great Curiosity.

Some half a dozen elk calves
prove a great attraction at Billmeyer's
game preserve just at present.
The little elks are about the size of
an ordinary calf and in general ap-
pearance are little different from a
fawn. As is natural in the case of
all wild animals born in captivity
they are objects of great curiosity
and no one visits the park now-
days without visiting the spot
where the elk calves may be seen.

WINS A SCHOLARSHIP.

Chappel Zahner First In Competitive Ex-
amination for Groton.

The following was clipped from
the "Adams Freeman," of Adams,
Massachusetts:

Chappel Zahner, son of Rev. and
Mrs. Louis Zahner, of Crandall
street, a member of the freshman
class of the local high school, has
won a competitive scholarship for
Groton school, which was open to
boys from 12 to 14 years of age.
In the examination he stood first
among a large number of competi-
tors, which reflects great credit
upon the Adams schools.

Groton is one of the best boys'
schools in the country. Kermit
Roosevelt, son of the President, is
a member of this institution. Young
Zahner will enter the school in Sep-
tember.

**REAL DAUGHTER OF REVOLU-
TION.**

The Bellefonte Chapter, Daugh-
ters of the American Revolution,
has discovered a "real daughter"
in the person of Mrs. Mary Ann
Allison Rishel, of Clintondale, and
by special invitation she was duly
received as a member of the Belle-
fonte Chapter at a special meeting,
and at once pensioned by the organi-
zation. There are only six real
Daughters of the Revolution living
in the entire State of Pennsylvania.
Mrs. Rishel is the daughter of
Martin Allison, who was born in
Ireland in 1750. He came to this
country with his parents shortly
after the breaking out of the Revolu-
tion, and in 1777 he joined the
Continental army and fought to the
close of the war in 1783. He was
married three times and Mrs.
Rishel is the next to the youngest
child by his third wife.

Her half brother served in the
war of 1812, and her son fought in
the war of the rebellion.

Mrs. Rishel, despite her more
than 86 years, is still in good health
and quite active. She has received
from the National Society of the
D. A. R. a golden spoon, the mark
of honor and recognition conferred
only on real Daughters of the Revolu-
tion.

Mrs. Rishel is an aunt of Mrs.
W. S. Hamlin, of West Third
street, Bloomsburg; and the half
brother referred to is Mrs. Hamlin's
father.

Old residents of Wilkes-Barre
and the Wyoming Valley say that
in the fifty years of their remem-
brance they never have seen such a
plentitude of grapes as is promised
this year. The vines are covered
with an unusually heavy foliage
and blossoms. As every bud or
blossom means a bunch of grapes,
they will have grape jelly even if
the tomato catsup supply will be
short. It is said by those who are
learned in the culture of vines that
the reason for the great number of
blossoms is the late spring. The
cool weather, unfavorable to nearly
all of the other fruits, was most
beneficial to the grape vines, as it
permitted the roots to become most
active before they were permitted
to set the sap flowing. As a result,
when the vital fluid did flow it
came in such profusion as to cause
very heavy leafing and blooming.

MRS. DR. BROWN ILL.

On Tuesday afternoon about 5
o'clock Dr. J. J. Brown found his
wife lying on her bed partially
paralyzed. She had been doing
some work during the day, and in
the afternoon she went to her room
to lie down for a rest. Dr. Brown
went out for a little while, and soon
after his return he heard Mrs.
Brown calling him, and on going
up stairs he found her as above
stated. She was at first able to
talk, but soon lost the power of
speech. Though conscious, she is
unable to swallow anything but a
little water. It is probable that she
may recover somewhat from this
attack, though in such cases it
takes a long time before the patient
is able to get about. The many
friends of Dr. and Mrs. Brown
sincerely hope that her case may
be an exception, and that she may
soon be restored to health.

Chorus girls seem to be making
trouble for the wood family of Pitts-
burg. Alan Wood, who is one of
the steel millionaires of the smoky
city, a few years ago sent his son,
Park, on an extended European
trip because the latter was too fond
of chorus girls, and the father
feared that the son might marry one
of them. During the son's absence
the father fell in love with a
chorus girl and married her. The
son subsequently married a very
nice young lady, and now the latter
has left her husband and sued
for a divorce on account of his mix-
up with chorus girls.

The Government opened its case
on the Tobacco Trust Wednesday
by instituting suit in the United
States Circuit Court of New York
for the appointment of a receiver
for the American Tobacco Com-
pany.

With the two oldest and strong-
est combinations, the Tobacco and
Standard Oil Trusts, on the rack,
the outcome is watched with inter-
est. If these powerful organiza-
tions are declared illegal a great
number of other combines, which
have been modeled on these two,
must pass out of existence and a
large element in our economic sys-
tem will be revolutionized.

THIRTY-SEVEN DEAD

While 2,153 Were Injured Celebrating
the Glorious Fourth.

The latest compilation shows that
thirty-seven men, women and chil-
dren are dead, and 2,153 are
maimed, lacerated or burned as a
result of excess of patriotism in
the United States on July 4th. The
number of the dead does not in-
clude five drowned during the day.
The number is four more than last
year's mortality.

A year ago thirty-three persons
were dead on the morning after the
Fourth, not including five drowned.

Unfortunately the death roll will
increase day by day and even the
late days of August will witness
additions to it. Tetanus, that grim
aftermath of gunpowder wounds,
claims its victims by scores and even
hundreds for weeks after the
Fourth.

New York leads all the cities of
the United States in the number of
killed and injured. Ten persons
are dead in that city, while ten per-
sons are so seriously hurt that it is
expected they will die. At the
hospitals 423 injured persons were
treated.

Pittsburg ran New York a close
second in the grim race, nine per-
sons yielding up their lives on the
altar of frenzied patriotism.

A GREAT OFFER
For You Only

Read this announcement. It is your opportunity.
If you don't read it you will miss your chance. The
greatest magazines in this country have combined to be
offered together at a greatly reduced rate. Never before
was such an offer given to the public, and it is safe to
say never will be made again. This year several maga-
zines have increased their subscription price, which
shows how much greater this offer really is. The only
reason we are making it to the people of this vicinity is
because the magazine finds they have not as many sub-
scribers as they desire in this particular locality. But
only a limited number will be sold at this price, there-
fore we advise every one to accept this offer without
delay. When we have received a certain number we
shall withdraw the offer.
